

# RANCHMAN SHOT TO DEATH

Jas. Conn, of Willow Creek, Mont., Killed at His Home.

## HIS MOTHER ALSO A VICTIM.

Her Skull Crushed—Northern Pacific Bandit or an Insane Woman May Have Committed Crime.

Butte, Mont., Oct. 28.—A miner special from Bearmouth says James Conn, a wealthy ranchman on Willow creek, was found shot to death in his home today. His mother lay upon the floor with her skull crushed in, and cannot live. The murderer is believed to be the lone bandit who held up the North Coast limited Friday morning.

A number of a threshing crew on land adjoining the ranch had occasion to visit the house of the ranch, and when he entered the farmhouse a terrible sight presented itself. On the floor, with the brains crushed from his head, lay James Conn, dead, with a ragged bullet hole through his temple. Near him lay his mother, her head crushed in with a blunt instrument, presumably the butt of a revolver.

At the time of the hold-up on the Northern Pacific train bloodhounds were put upon the trail of the robber and the dogs followed it for several miles in the direction of the Willow creek district, but lost the scent. Those familiar with the country decided at the time of the robbery that in all probability the outlaw would attempt to escape that way, as the country is so thickly wooded that it affords an excellent opportunity to evade capture, being heavily timbered.

The discovery of the crime was made at 1 o'clock this afternoon, and officers at the scene. Near the stable the threshing men met a demented woman, who had lived with the Conn family for some time. This woman killed her husband about 20 years ago, and it is suggested that perhaps she committed the tragedy. The scene of the crime is about 20 miles from Bearmouth, remote from the wires, and details are meagre.

## Nationalists Abandon Campaign.

London, Oct. 28.—Having gained their end in forcing the discussion of the Nationalist members of the House of Commons appear to have abandoned any further parliamentary campaign pending the return of John Redmond, the Irish leader in the House, from the United States.

A large number of Irish members left London today for Ireland. Those remaining did not enter the executive chamber, but contented themselves with seeking refuge in the lobbies and smoking rooms. All Irish questions and motions have been suddenly dropped, and the government has been left to do as it pleases without molestation.

## Cashier Andrews Still in Jail.

Detroit, Oct. 28.—Attorneys for Frank Andrews, the convicted vice president of the wrecked City Savings bank, announced today that they had secured three bondsmen to make up the \$100,000 bail fixed by the supreme court for Andrews' release pending the hearing of a motion for a new trial. J. Eliza Anderson of Los Angeles, Cal., and Chester James Hanley and David Nelderland of Detroit called at the recorder's court to qualify on the bond. But the sum total of real estate received by the three as a pledge amounted to but \$100,000, and Nelderland, \$50,000, and Nelderland, \$50,000, while Judge Murphy ruled that Andrews must furnish a pledge of \$100,000. Judge Murphy also ruled that Mr. Windsor could not qualify on account of his being a non-resident. Accordingly Andrews remains in the Wayne county jail.

## Anarchist Arrested at Leghorn.

Leghorn, Italy, Oct. 28.—An Italian named Gateni, who returned here from America, has been arrested on suspicion that he is the person who, on Sunday, placed a bomb on the steps of the bishop's palace, with the result that it afterward exploded, killing a boy and wounding two others.

## Doukhobors Leaving Canada.

St. Paul, Oct. 28.—A brief dispatch to the Pioneer Press from Yankton, South Dakota, says that 1,600 Doukhobors, men, women and children, have just arrived at the town of Yankton, and are carrying their sick and infirm on stretchers. They are in want of food.

## Power Preferred to Speed.

Washington, Oct. 29.—Acting Secy. Darling has settled the question which has divided the naval construction board relative to the proposed cruiser Tennessee by accepting the recommendation of the majority of the board, which is in favor of power instead of high speed. The decision was influenced, perhaps, by Admiral Melville himself, who assured the acting secretary that the majority plans, though short in speed, would give the government a most formidable and desirable warship. Therefore, by direction of Mr. Darling, the advocate-Gen. Lemly today sent out advertisements calling for proposals for the construction of two armored cruisers. The Tennessee class of about 14,000 tons displacement, the bids to be opened Jan. 6, 1903.

## Escaped From an Asylum.

Sherrif and City Marshal in Mad Race for Her.

Indianapolis, Oct. 28.—A special to the Centinel from Valparaiso, Ind., says: An exciting race between Sheriff La Court of Porter county, upon one side and City Marshal Blimes of Valparaiso and Dr. J. C. Sharpe of Jacksonville, Ill., upon the other, with the liberty of a young woman the stake, set this city wild this afternoon. The objective point was the Pennsylvania station and upon the result of the contest hinged the freedom of Miss Stella Josephine Teller, cousin of United States Senator Henry M. Teller of Colorado.

Miss Teller, after some family trouble concerning certain property, was placed a year and a half ago in a private asylum at Jacksonville, Ill. She escaped from that institution three months ago and came to this place, where she has quietly resided since her escape. Recently she engaged a legal counsel and prepared to fight a suit for \$50,000 against one of her brothers, who was the whereabouts, and Dr. Sharpe of the Jacksonville institution came here to take her back. Arriving here Dr. Sharpe enlisted the services of

# WHAT A SAMPLE BOTTLE OF SWAMP-ROOT DD.

To Prove what the Great Kidney Remedy, Swamp-Root will do for YOU, Every Reader of the Deseret News May Have a Sample Bottle Sent Free by Mail.

W. F. Lohnes, a prominent business man of Springfield, O., writes the following strong endorsement of the great Kidney remedy, Swamp-Root, to the Editor of the Springfield, Ohio, Republic.

"Having heard that you could procure a sample bottle of Swamp-Root, free by mail, I wrote to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle and it was promptly sent. I was so pleased at trying the sample bottle that I sent to the drug store and procured a supply. I have used Swamp-Root regularly for some time, and consider it unsurpassed as a remedy for torpid liver, loss of appetite and general derangement of the digestive functions. I think my trouble was due to too close confinement in my business. I can recommend it highly for all liver and kidney complaints. I am not in the habit of endorsing any medicine but in this case I cannot speak too much in praise of what Swamp-Root has done for me."

(W. F. Lohnes)  
43½ West High Street.

The mild and extraordinary effect of the world-famous kidney and bladder remedy, Dr. Kilmer's Swamp-Root, is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

EDITORIAL NOTE—If you are sick or "feel badly," begin taking the wonderful discovery, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

You may have a sample bottle of this wonderful remedy, Swamp-Root, sent absolutely free by mail, also a book telling all about Swamp-Root, and containing many of the thousands upon thousands of testimonial letters received from men and women who have been cured of all sorts of ailments. The book and sample bottle are sent free of charge. Write to Dr. Kilmer & Co., Binghamton, N. Y., be sure to say that your read this generous offer in the Salt Lake City Daily Deseret News.

If you are already convinced that Swamp-Root is what you need you can purchase the regular fifty-cent and one-dollar size bottles at the drug stores everywhere. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

City Marshal Billings and went direct to the hotel where Miss Teller was stopping, placed her in a hack and started post haste for the Pennsylvania station. Her attorney, who was waiting for the sudden turn of affairs and hurried to the station with a blank habeas corpus writ, arriving two minutes before the train pulled in. The writ was signed, a notary public who happened to be a passenger on the train affixed his seal. Circuit Judge McMahon hastened to grant the necessary order and Sheriff La Court, by a burst of speed, arrived at the station. The Jacksonville physician was compelled to release his former patient.

## Pacific Ocean Record Broken.

San Francisco, Oct. 28.—The Pacific Mail company's new steamer Korea arrived at noon today from Yokohama, breaking the record across the Pacific. The steamer made no stop between the coast of Japan and her home port, and came flying through the water at the average of nearly 500 miles a day. Yokohama, in a direct line to San Francisco, is 4,700 miles. The Korea sailed from the Japanese port on the 17th and made the passage in ten days, averaging 470 miles a day.

## May Be Northern Pacific Bandit.

Butte, Mont., Oct. 28.—A man giving his name as Michael Mulachy is in jail here under suspicion of being the one who held up the Northern Pacific train in the Yukon canyon country. The police say he exactly answers the description given by the passengers on the express and by the train crew. He refuses to speak or to give an account of himself during the past three days. He will be held for examination.

## BRYAN IN A WRECK.

His Special Crashes into a Caboose But No One Seriously Injured.

Cripple Creek, Colo., Oct. 28.—The Bryan special crashed into the caboose of a freight at Arena, in Brown canyon, 16 miles above Leadville, at 11:19 o'clock this morning. The special remained on the track, but the caboose was thrown from the track and three people saved their lives by jumping. They were: Minnie McKelvey, Leadville, bruised about the hands and face by falling on rocks; Charles Roberts, Turret, bruised about body by being thrown from the platform of the caboose; J. L. Isoreth, Salida, bruised about head by falling on rocks.

Two others in the caboose were thrown to the track, but were not hurt. The freight had pulled in on a siding to let the special by. The caboose had not cleared the main line when the special swept around a sharp curve and crashed into the caboose.

# REBELS FORCED TO SURRENDER.

Uribe-Uribe and Men Under Him Give Up the Fight.

## MANY ARMS TURNED OVER.

Means That Life of the Rebellion Has Received Its Deathblow in the Interior.

Panama, Oct. 28.—The revolutionary general, Uribe-Uribe, with 10 cannon, 2,500 rifles and 300,000 rounds of ammunition, has surrendered to Gen. Marjarrés at Rio Frio, near Santa Marta.

The revolutionary forces under Gen. Uribe-Uribe, which were defeated Oct. 14 at La Ciénaga, retreated to Rio Frio and took up positions there. Gen. Marjarrés, with 2,000 men, proceeded against the rebels from La Ciénaga and engaged the enemy two days ago. The government general succeeded in surrounding the rebels and forcing them to surrender. Gen. Castillo was with Gen. Uribe-Uribe.

The news of this attack was received here by Gen. Perdomo and Gen. Salazar this morning in a telegram from Gen. Marjarrés. Details of the engagement are lacking, but heavy casualties on both sides are reported. The surrender of Uribe-Uribe is said to complete the pacification of the departments of Magdalena and Bolívar. The revolutionists now occupy the isthmus only.

In the fight of Oct. 14 at La Ciénaga the revolutionary forces consisted of 1,000 men.

## NEWS IS CONFIRMED.

Washington, Oct. 28.—Confirmation of the news of the surrender of Gen. Uribe-Uribe was contained in the following dispatch received at the Colombian legation here tonight:

"Panama, Oct. 28.—Uribe-Uribe and Castillo surrendered at La Ciénaga with a large quantity of arms and ammunition."

The legation officials declare that with the surrender of Uribe-Uribe the life of the rebellion in the interior of Colombia has received its deathblow and that the complete pacification of that portion of the country must inevitably follow. He was, they say, the acknowledged leader of the movement against the government, and by energy and perseverance in raising and equipping troops and securing assistance from the outside has kept the revolution going so many years. The movements of Gen. Uribe-Uribe have taken him into various portions of the interior of Colombia, his early operations being in the state of Bolívar, later in the state of Santander, and finally in the state of Magdalena. In the state of Santander, at the head of an army of over 10,000 men, he seriously menaced the capital, Bogotá, until he was defeated by a superior government force on the 26th of May, 1900, when the casualties numbered 1,500 men in all.

Gen. Uribe-Uribe has been assisted by the officials here that Gen. Uribe-Uribe received substantial assistance from the government of Venezuela, he having visited Caracas and frequent interviews with President Castro. Last year he visited the United States, and for a time was in correspondence with the officials of the legation, with a view of reaching honorable terms of capitulation, but the efforts in that direction were without results, and Gen. Uribe-Uribe returned to Colombia and again took up arms against the government.

Gen. Castillo, who surrendered with Uribe, is about 50 years old and previous to joining forces with Uribe-Uribe was a guerrilla who gave the government a great deal of trouble.

GENERAL REJOICING.

Colon, Oct. 28.—The government gunboat Gen. Pinzón arrived here this afternoon from Savannah. She was especially sent from that port by the governor of the department of Bolívar to bring to the isthmus news of the capture of Uribe-Uribe and Castillo at Rio Frio. Both these generals were made prisoners.

## REPLY TO COLOMBIA'S NOTE.

State Department Anxious for Speedy Settlement.

Washington, Oct. 28.—It was learned today that a prompt answer had been made by the state department to the latest Colombian note respecting the Panama canal treaty, which note was transmitted to the department Monday. It has been reported that it deals almost entirely with Colombia's representations regarding the sovereignty of the isthmus, which the Colombians feel has been seriously invaded by the acts of Commander McLeah and Admiral Casey in preventing the prompt movement of troops across the railroad. This matter, as before stated, is now the subject of negotiations between the Colombian government and Minister Hart at Bogotá, and an early adjustment is looked for.

The state department is anxious that a speedy settlement be reached in order to facilitate the completion of the Panama canal treaty. Mr. Concha, the Colombian minister, received ample and specific instructions empowering him to proceed in this matter, which has been retarded only by the controversy which has arisen regarding the transit on the isthmus.

## Bonnie Hoyt Dead.

Chicago, Oct. 28.—Bonnie Hoyt, a member of the chorus of "The Prince of Pilsen" company, now playing at the Studebaker theater, died today under pathetic circumstances. Miss Hoyt joined the company in Boston. Two weeks ago she became ill and was removed to the Anna Ross sanitarium

## HE EXPLAINS.

Mr. Druehl of the Smith Drug Co., Tells What He Knows.

A Boston Paper Investigates the Merits of Vinol.

A Subject That is Agitating the Whole Country.

(From the Boston Herald.)

There has reached us rumors of a new discovery. Something that will revolutionize the practice of medicine. A remedy that has given sufferers from wasting diseases hopes of renewed health and prolonged life.

Of enough importance have these stories appeared that a special interview with Mr. Druehl, of the Smith Drug Co., who is interested himself in this new preparation which is called Vinol, was thought advisable. Our reporter had no difficulty in finding Mr. Druehl's place of business. The first man he met said: "Oh yes, Mr. Druehl is the man who has the wonderful new remedy that will cure everything that people always thought cod liver oil would help." and he was speedily directed to Mr. Druehl's enterprise, which is located at 100 North Street in business from the word go, but rather objected to the fame of this preparation being spread abroad as a discovery.

"Why," said Mr. Druehl, "this is no more a new discovery than was the moon when it was first viewed through a telescope. The discovery existed simply in the fact of finding out a means of getting at the truth we were after. Perhaps the method might be considered a discovery, but what we have found has been known for years, and it is nothing more nor less than the valuable medicinal properties that have always existed in the cod's liver, and for which cod liver oil has been prescribed by so many physicians. You have just what you need. Cod liver oil, perhaps you have taken it yourself, is something that is very valuable in all sorts of wasting diseases, and in itself is extremely disagreeable. Why I firmly believe that a great many cases of consumption, even, could be cured if it were possible for the patient to take enough cod liver oil to let its virtues become manifest. For those who have a tendency to sore throat, bronchitis, coughs, colds, for every one of an anemic disposition, it has always been considered as simply invaluable, and yet it has more often been necessary to abandon its use than it has been possible to devise a way of administering it.

Two eminent French chemists started in and got interested in the matter, and after years of study they have succeeded in extracting from the liver of the cod just what is necessary, and have left behind that obnoxious, greasy, vile-tasting fatty matter, the thought of which even has turned the stomach of some people. That is all over now. We have found a way of getting the kernel out of the nut.

This Vinol that is so much talked about is just exactly that. It is the concentrated essence of medicine found in the cod's liver that does the good. The grease is like the shell of the nut, absolutely useless, only in the effort from the shell of the nut because besides being useless it is extremely obnoxious and disagreeable to sight, taste and smell.

We have now taken this extract and put a sufficient quantity of it in a delicious-tasting wine. We have also added a small amount of organic iron. This heightened the tonic effect of the wine. The extract of the cod's liver comes in just the right proportion to do the greatest amount of good. "Here, drink this," Druehl said, "and you will see the difference. It is just what you need, and it is just what you need, and it is just what you need."

The reporter hesitated. The thought of cod liver oil was anything to do with him, brought back memories of the past, when he himself had made heroic struggles to take that awful medicine. "Go ahead and drink it," said Mr. Druehl. The reporter did so, and looked up. "Yes, I know, but that is all right. I thought you were going to give me some of that Vinol you were talking about. You have just taken, and it is just what you need, and it is just what you need."

Mr. Druehl laughed. "Well, that is Vinol that you have taken. Now you know just what it is. I have told you the truth. It did not taste bad, did it?" And it surely did not. "Now," said Mr. Druehl, "let me tell you something about it. You have just taken, and it is just what you need, and it is just what you need."

been asked to locate them. Meanwhile, the Studebaker management has taken charge of the body, and if the relatives cannot be found will give it a suitable burial.

## Part of Crew Marooned.

San Francisco, Oct. 28.—A story of mutinous conduct on the part of the crew and the leaving of the men on one of the Ladrone Islands is brought back by the bark Gayhead. The whaler sailed from this port nearly a year ago with a crew made up for the most part of Chileans and Mexicans. They became surly and discontented after a few weeks, demanding food never carried in a whaler, and when the Gayhead reached Guam the men refused to work. Short shift was made of them, for fifteen of the Spanish-Americans were hustled ashore and their places were filled with husky Ladrone Islanders, who have for generations past proved themselves desirable men in whalers.

## Soft Coal Mines Merge.

Pittsburg, Pa., Oct. 28.—The Gazette tomorrow will say: Negotiations are under way for a merger of the Pittsburg Coal company and the Monongahela River Consolidated Coal & Coke company, with combined authorized capitalization of \$10,000,000 and assets of \$10,000,000. Consolidation of these interests will launch by far the strongest bituminous concern in the world. The combined coal output of the two concerns is about 2,000,000 tons a year. The plan is to make the Pittsburg company lease and the purpose to economize operations.

## Walked With Half His Foot Gone.

Oakland, Cal., Oct. 28.—With half of his foot taken off by the wheels of a freight car, Frederick Provost walked two miles this morning to the receiving hospital where his wound was dressed and where he now lies. His walking with the injured foot is considered miraculous by the hospital authorities. Provost came in on an early morning train from Portland, Ore., and at the Sixteenth street depot attempted to alight from the train, upon which he was beating his way. He slipped and his foot went down several inches, and was horribly mangled. Almost half the foot was taken off, but Provost arose, refused the assistance offered and unaided walked to the receiving hospital, a distance of almost two miles. He was almost prostrated by the pain and loss of blood when he reached that institution, but is now resting easily and is considered out of danger.

## Our Biggest Forest Reserve.

Portland, Or., Oct. 28.—Few people know that the largest forest reserve in the United States is in this state, the Cascade range forest reserve, containing 7,254 square miles. It is the largest of all the reserves, extending from the Columbia on the north southward across the state nearly to the California boundary. The total area of the reserve is 4,833,888 acres, of which 4,161,764 acres, or 85 per cent, are forested; only 5 per cent, or one
