

LOCAL AND OTHER MATTERS.

SABBATH MEETINGS.—Elder Milo Andrews, who returned from his mission to the East, on Saturday night, occupied the time in the morning. He treated at length on the condition of affairs in the Eastern States and the feelings that exist concerning Utah. He exhorted the congregation to cultivate intellectual development, and hold fast to the truth of the gospel, with perfect confidence in the overruling providence of the Lord for the protection of the Saints.

In the afternoon, President Geo. A. Smith gave a short account of his early missionary labors. He was followed by President Young, whose discourse was reported.

CHANGE OF TIME ON U. C. R. R.—The change in time of running trains on the Utah Central commences to-day. See their advertisement in to-day's paper.

ANNIVERSARY BALL.—The grand ball to-morrow night, on the anniversary of Washington's birth-day, promises to be one of the events of the season. A large number of influential gentlemen with their ladies will be present. We met to-day a number of officers from various military districts, who have arrived to participate in the enjoyments of the occasion.

To accommodate the non-dancers, the upper circles will be open to spectators as per advertisement in another column.

Message at Deseret Telegraph Office for L. Granger.

THEATRICAL.—The theatrical season closed on Saturday night, and the last performance, consisting of the "Avenger" and "Our Wife," was witnessed by a large audience. At the close of the drama Mr. McKenzie was loudly called for and appeared.

Messrs. Clawson and Cline have been Lessees of the Theatre for three years, during which time they have fairly earned the general popularity and respect which are accorded them, for the enterprise, taste and excellent management they have displayed.

LAKE TOWN.—Bishop Ira Nebeker, of Laketown, Rich co., called in this morning. The Bp., accompanied by Messrs. S. Kimball and James Keri reached this city on Saturday night. They left Laketown last Wednesday about noon and crossed the ridge of the mountains east of Laketown to Bear river, reaching Evanston on Friday morning; from the latter place they traveled to S. L. City by rail. On the mountains from Laketown to Bear river they found the snow, for seven or eight miles, about two and a half feet deep. In Bear River valley it was only about three inches deep, but about fifteen miles below Evanston it was again heavy. The day before Bishop Nebeker left Laketown, Mr. Salsbury of the Salisbury stage line, reached that place, trying to determine from the state of the roads, whether it were possible to run a line of stages from Evanston to Montana; he thought there would be no difficulty in doing so.

GETTING READY.—Dropping in the Theatre at noon to-day we found the flooring down for the grand ball to-morrow night. The scenery had all been removed, the parquette seats taken up and the work of preparation pushed forward with a vim.

COMPLEMENTARY.—We understand that on Wednesday night Messrs Clawson and Cline will give a complimentary ball to the theatrical company, the attaches of the theatre, auxiliaries and those who have assisted in the performances, since they have been Lessees of the theatre. Good such things elicit reciprocal feelings and esteem.

GOING.—Kate Deulin and John Wilson left by the cars this morning for the East. It is not yet definitely settled whether they will play in Omaha on their way to the Atlantic Coast.

LOWERING.—A murky sky and gathering clouds to-day are indications of another storm after the beautiful weather of the past few days.

SERIOUS ACCIDENT.—On Saturday afternoon last, Amos Neff, of Mill Creek, a youth of about sixteen years, had his hand and wrist terribly mangled by the bursting of a shot gun while firing at some prairie chickens. He was brought into the city, on Sunday morning, and it was found necessary to remove the thumb and forefinger, as well as a portion of one of the bones of the wrist. The operation was performed by Dr. Anderson, assisted by Drs. Bernhisel and S. B. Young, the youth being under the influence of chloroform. We understand he is doing well to-day, and will most probably save his wrist and three fingers.

TENTH WARD LECTURE.—Elder J. L. Barfoot will lecture to-morrow evening (Tuesday) upon the subject "Unseen Influences." To commence at 7 o'clock.

LABOR AND BURGLARY.—For the past few nights the people of the Sixth and Seventh wards of this city have been annoyed by the commission of several thefts, which seem to have culminated last night in a burglary, on the premises of Mr. Henry Riser, residing in the former ward.

Some time last week Major Leach and Mr. Wm. M. Cowley, of the Seventh ward, were robbed of a considerable number of articles of underclothing and bedding, hung out to dry upon clothes lines; and last night while Bro. Riser and family were at meeting some party or parties effected an entrance into a window of their dwelling and ransacked two rooms. Among the articles stolen were two watches, worth about thirty dollars, and three dollars and ten cents in money. The marauders evidently had drunk a lot of milk and took away all the provisions they could conveniently appropriate. The pockets of a number of garments hanging up in the rooms were turned inside out, but nothing beyond the foregoing articles was obtained.

The citizens in every part of the city should take warning by these nefarious transactions and have the windows of their dwellings securely fastened; and, as night approaches, empty their clothes lines. They must remember that times have changed somewhat; once it was perfectly safe to leave doors and windows open, and as for clothes lines, it mattered not whether full or empty, they were perfectly safe; but it is not quite so now. Times are hard and the railroad's finished, and it is necessary to adopt more precaution against dishonesty.

IMPERIAL RECEPTION.—The Chicago Times, of the 17th inst., contains a lengthy account of the first Imperial Entertainment

of the season, given by the Emperor Napoleon at Paris, on the 25th ult. Among the Americans present, were Augustus L. and Madame Chetlain, the former so long and favorably known to the people of this city as U. S. Assessor of Internal Revenue.

THE MATINEE on Saturday was a great success, and mirth and enjoyment reigned paramount amongst the youngsters, there being a crowded house. The weather was delightful, which doubtless induced a larger number to be present than otherwise would have been.

One little circumstance occurred which should not be overlooked. Some short time after the performance commenced, General Clawson, one of the Lessees, saw a large number of boys in the front of the building, no doubt desirous of seeing the performance, and gave them an invitation to step up to the box office and receive a present of tickets of admission, of which they very promptly availed themselves.

BLANKS.

We are now prepared to supply PROBATE and MEDICINE GRANTS to any parties who may personally apply to him at his residence behind the 14th Ward Co-operative Branch Store, at the S. W. Corner of the meat market, from 7 to 10 a. m., and from 4 to 6 p. m., who are required to bring a couple of small clean bottles or large vials with them for the medicine.

Should patients not be able to apply personally, those who attend on their behalf must be able either to describe distinctly the symptoms of the complaint or bring a written statement of the same, which, if severe, Mr. M. will if possible, endeavor to visit.

Free will offerings, however small, will not be refused on the score of the paucity of the same, but no demand will, in any case, be made either for medicine or attendance.

FLORENCE

SEWING MACHINE

In point of labor, there is the same difference between thrashing with a flail or using a Threshing Machine, that there is between sewing by hand or using a good Sewing Machine.

Inventive Genius gave to man Things pleasing to the sight, And such as man has often wished Would make his labors light: Then turned to woman with a smile, And made her heart rejoice, For she in every household sings Its praises with her voice.

'Tis the song, 'Tis the song, In every house wherever 'tis seen, There's a song, There's a song, Of the beautiful Florence Machine.

When woman toiled for daily bread, From early morn till eve, How many eyes were dimmed with tears, How many hearts did grieve! But now she has her "household pet," And on a which she'll sing, For labor is a pleasure now, And she can toil and sing.

'Tis the song, 'Tis the song, In every house wherever 'tis seen, There's a song, There's a song, Of the beautiful Florence Machine.

In every home, in every land, Its praise is sung along, It works alike for rich and poor, The humble and the proud; It is the pride of every heart, And every woman's care, "God bless the Florence Company," Is in every woman's prayer.

'Tis the song, 'Tis the song, In every house wherever 'tis seen, There's a song, There's a song, Of the beautiful Florence Machine.

Owing to rapidly increasing business, the Florence Company are now working two hours over time, running twelve hours daily. Until the completion of additions, which are now in progress, to their large factories, their agents are compelled to wait for their turn, as in our orders are registered and filled in the order of their receipt.

Northampton (Mass) Free Press.

Referring to the above, the Branch office of the Florence Company leave to the judgment of those admirers of the Florence, whose orders are now on file at the Salt Lake office. We hope by the 1st of March, to be able to offer a full supply of the various styles of these popular Machines.

CHAS. S. HAMMER, Gen'l Agent

The Florence Sewing Machine, has no fancy combinations or other complicated attachments, it has no uncertain, no coils or wire, its manufacture is conducted by a thoroughly RESPONSIBLE COMPANY, and in purchasing a machine you need have no fear of ever being unable to purchase needles and other findings. The Florence is the ONLY COMPANY that keeps its machines in repair free of charge, no matter when sold or where. It is our ambition to have every Florence Machine give entire satisfaction.

The Florence lays no claim to cheapness, we aim at perfect finish, every machine goes through the company's adjusting room, and must then pass the Inspector's office, before going out to Agents; the least inaccuracy will condemn it.

They are probably the highest priced Machine in the American market, and being built of HARD ENDED STEEL, by SKILLED WORKMEN aided by all the appliances that capital can bring to bear, it is offered at a price commensurate with the value of the article, and can be brought into honest competition with its numerous EASTERN competitors. It is a watch from Jergensen or Jaeger, may be compared with any other brand of Sewing Machine, and made them the Universal favorite, wherever prejudice is laid aside and honest comparison made.

That very excellent authority the American Institute, New York, awarded the FIRST PREMIUM to the FLORENCE over Thirteen Competitors, and in their report the committee very tersely remarked, "This is better than any of its class known to the Judges."

It may be proper to remark here that the Florence Machine of the present manufacture is vastly improved, and the first of these improved Machines ever offered in Utah are those sold at the Branch Office at Salt Lake. Among the recent purchasers from this office, we beg leave to refer to the following parties:
