

## SALT LAKE CITY SCHOOLS

The winter session of the schools of this city will open Monday next.

Miss Marjorie B. Paine of the Bryant high school has been visiting in the east during the holidays.

Miss Clara Larsen of the Hamilton school has returned from a visit to Pleasant View.

W. D. Prosser, principal of the Bonville school, accompanied by Mrs. Prosser, daughter and niece, has been

Miss Anna C. Adams of the Lincoln entertained very pleasantly on Monday.

Miss Morris of Minneapolis, who is to succeed Miss Beason, late of the Lincoln, will assume her duties Jan. 25.

Miss Alice E. Rowe of the West Side high school is expected to return from her trip east today.

Miss Elizabeth Claborn, formerly of the West Side high school, left on Tuesday for a sojourn in Missouri.

Mrs. Banker of the Franklin entered

where she has been touring for several months. During her absence she has studied thoroughly the educational systems both there and in this country, and when resuming her work will bring an excellent equipment for her duties in the state training school.

Miss Scholes of the Grant has been having a pleasant sojourn in St. George during the holidays.

Mr. Bell, who taught in the Lincoln last year, is having a successful year in district 31, Salt Lake county.

Miss Cohn of the Fremont and Miss Palmer of the Grant enjoyed themselves at the Main street bowling alley on Tuesday.

Miss Goddard of the Eaton high school has returned from a pleasant

Instructor A. C. Reese of the Eaton high school spent his vacation very pleasantly at Spanish Fork. He returned on Thursday.

Principal G. N. McKay, who accompanied the remains of the late Miss Hill in their last resting place in Missouri, will not return until the latter part of next week.

Supervisor Pollock has remained in the city during the vacation enjoying the advent of the new year most pleasantly.

visit spent with her parents in Portland.

Miss Teresa Godbe of the Franklin entertained in behalf of her sister, Mrs. Rhodan, Mrs. Godbe, on Tuesday afternoon. Mrs. Spohn will be remembered as a former teacher in the schools of this city, and was most successful in her work.

Principal D. A. Nelson of the Fremont returned on Thursday from his hunting trip in Idaho, and reports a pleasant and successful outing.

Supervisor Wetzell has been preparing during the recess an outline of work covering the remainder of the year, in which the work will be so formulated as to apply to every grade throughout the schools, and for every week during each remaining month. It certainly has been a laborious task.

The friends of education in the city are pleased to learn that Supervisor Elliott has recovered from her recent indisposition, and is in readiness for her duties on Monday.

J. M. Chambers of Omaha, father of Miss Jessie M. Chambers, of the Lowell, is in the city visiting his daughter.

Miss Walker of the McCoy high school spent the holidays with friends in Eureka.

Miss Engelman of the Lowell will not resume her duties until about Jan. 15.

Miss Catherine Johnson will take the place of Miss Galbraith at the Jackson.

Principal J. H. Coombs and family returned today (Saturday) from their visit in Utah county.

Miss Mott has been assigned to the Grant during the temporary absence of Miss Scholes, now at St. George.

D. B. Coomb of the Hamilton has returned from brief visit to friends in Utah county.

Superintendent Christensen spent the holidays in the city with his family.

MISS BELLE LAWSON,  
Teacher of Beginners, Fremont School.

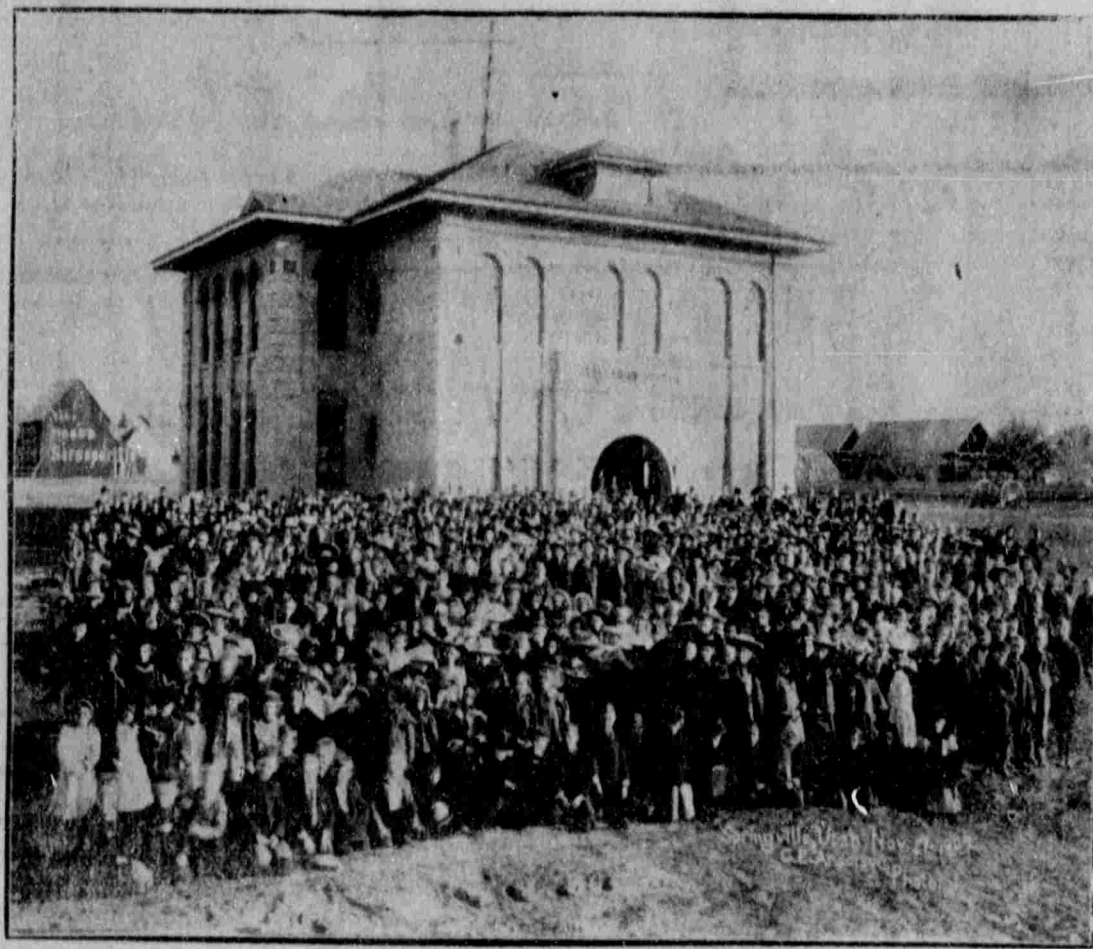

spending a few days pleasantly at Brigham City.

A letter from Miss Beason to a friend in this city states that she is enjoying her position in Seattle very much.

tailed very pleasantly several of the teachers of that school on Thursday.

Miss Rachel Edwards, who is having a leave of absence from the training school, has returned from Europe.

## SPRINGVILLE'S EDUCATIONAL PROGRESS.

THE NEW JEFFERSON SCHOOL, SPRINGVILLE, UTAH.

Dedicated November 17, 1902, at a cost of \$7,500.

The dedication of the Jefferson school revived so much of our educational growth that the following article is called forth, and will no doubt be of interest.

In giving a synopsis of the growth of the Springville schools one feature stands out boldly, that is the spirit of education.

The sturdy pioneers who entered Springville Sept. 15, 1856, brought with them the thought that they must not forget the little rosebuds given them by God.

Immediately after the rude homes were made, one of the fathers opened his house for the dear children of his neighbors and friends; offering them his services as teacher.

From that day to this Springville has not been behind in the matter of education.

At times there may have been a lull in its enthusiasm but that was on account of those at the head of the educational movement not manifesting a spirit of interest or progress along this line.

More settlers came, likewise more children were to be educated. At different times schoolhouses were erected in various parts of the settlement where many good teachers have started the

It was probably in 1858-'59 when grading was first begun. It has continued until at present it is in a most excellent condition. During the many years of this progress good teachers have labored for the benefit of educational improvement. From among the many, we may mention Mr. J. J. Walton, Mrs. M. B. Crandall, Mr. R. S. Home, Mr. D. H. Robinson, Mrs. Cora Groesbeck Snow, Miss Nell Sumelson and Miss Della Caffrey. The public school did not then afford a high school in connection with it, but the good citizens, so eager were they for the advancement of their young, succeeded in establishing a high school. Prof. C. D. Evans and S. P. Eggertsen may be mentioned with honor as the successful teachers of this school. Alone in the eighties many of the young men and women of Springville had a desire to enter the teaching profession, and for their preparation attended the B. Y. Academy at Provo, until able to successfully teach. After

being filled with a great love for teaching by that venerable teacher, Dr. Maeser, they returned to plant the good seeds they had received in the schools of Springville.

About this time the free school sys-

public schools. As the population increased the demand came for more school room.

Some of the citizens met and decided to build a central school building by bonding the city. In 1892 the building

composed of about one hundred and sixteen rooms, so Prof. Eggertsen, in connection with the other teachers, saw the necessity of increasing it. A great effort was made along this line and to-day the library contains eleven hundred and forty volumes, (the largest library in the state, east of the city of first and second class.) These books are read constantly by pupils of nearly all grades, and used for reference. Among the liberal donors to the library may be mentioned A. J. Southwick, O. M. Mower, Dr. Fred Dunn, Lyman S. Wood, H. M. Douglass, Heber S. Cummings, G. P. Thompson, Wm. F. Gibson, T. R. Kelley, P. E. Houts, D. C. Johnson, Milan Packard, Mark Cook, R. S. Bird, Zebina Allen, Mrs. S. A. Cooper, Neil Sumelson, Della Coffey, Mrs. S. W. Crandall, Deal Bros. & Mendenhall.

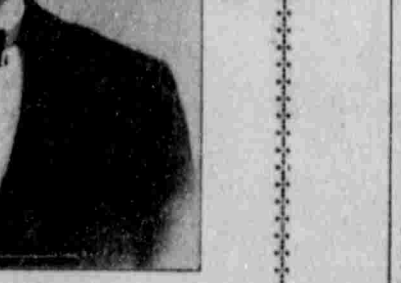

An attempt, which proved very successful, was made to grade pupils according to aptness, intelligence, and temperament. The teachers have been working upon this line for some time, and finally at the beginning of this year, the grading was made by years, so that beginners now have one whole year, the first grade one year, the second grade one year, etc.

During the past four years it has been a noticeable fact, that as the grades grow higher the classes are larger than they have been previously, until now the classes of the higher grades are nearly as large as those of the lower ones. At the close of last year a fair was held and the work of pupils was placed upon exhibition for an entire week. This no doubt will remain a feature of the school work at the close of each year, as the beginning was a very creditable one, over 500 parents having visited and registered their appreciation.

Through the suggestion of Miss Ida Allen at faculty meeting, the subject of art was discussed and heartily supported, which resulted in an art committee being appointed. The work was so well done that before the year was over a beautiful picture was placed in nearly every room and hall. This is having the effect of training the children to appreciate and recognize works of art. Some statutory will also be placed in the school rooms during the coming year, as our own sculptor, C. E. Dallin, has promised to make us a free gift of his "Paul Revere."

## PROFESSOR EGGERTSEN, PRINCIPAL

tem with the county organizations, the teachers' convention, began to aid in the upward growth of education and each interest was maintained that Springville schools were in a healthy condition. At times there may have been opposition from different sources but still there have always been patrons who sustained and supported the

## DUEBER-HAMPDEN WATCHES.

FACTS  
LIKE  
THESE  
ARE  
IMPRESSIVE

The DUEBER-HAMPDEN WATCH FACTORIES at Canton, Ohio, the twin factories, built side by side; in combination it is immeasurably the largest and most complete concern of its kind in the world.

In all respects the most perfect. Every dealer knows how victorious the DUEBER-HAMPDEN COMPANIES have been, when movement manufacturers, watch case manufacturers and jobbers in watches combined to prevent

the DUEBER-HAMPDEN COMPANIES from marketing their watches and drive them out of business.

Can we offer any better evidence of the superiority of the DUEBER-HAMPDEN WATCHES than the fact—

The combined efforts of the entire watch trade could not destroy their popularity?

The days of the inquisition in the watch business are over. Dealers are now at liberty to buy what watches they prefer.

But in spite of all this opposition, the output of the great DUEBER-HAMPDEN WATCH FACTORIES has steadily and constantly increased until at present it employs thousands of the most skilled work-people, producing a complete watch, watch movement and watch case.

The matchless reputation obtained by the DUEBER-HAMPDEN WATCHES is less than short of marvelous. The same minute and the same exact care is given in every detail to any size or grade from the ladies' small size, the No. 400—the smallest moderate-priced and accurate timekeeper made in America—to the gentlemen's watch, 12, 16, & 18 size.

The latest and greatest production of these factories is the 1902 thin model 16 size watch, cased in 18 and 14 Kt. gold and gold-filled, to which we especially call the attention of those who want the best. Write for "Guide to Watch Buyer."

Dueber-Hampden Watch Companies,  
CANTON, OHIO.

and the board immediately had men at work and soon by an expenditure of \$1,000, the building was increased in capacity one-third. Affording now eight class rooms, a library, and director's room, a store room and two offices.

In the year 1899 our present superintendent became principal of the public schools of Springville, and immediately Central school building became the educational center of the town, and people were drawn towards it. Society was organized, and during the year each member of the faculty gave a talk upon some educational subject; also prominent speakers from different places were engaged to lecture. To all of these meetings the public was invited.

A students' society was also organized. The students taking charge of their own meetings, arranging programs and being responsible for the success of the meeting. At present there are three organizations of the students, the High School, the Students' Society, and the Eighth Grade (or "Shamrocks").

Each meet on one Friday evening of each month. Music came up for discussion. A piano was purchased and paid for by voluntary donations from teachers and pupils, assisted by the district. Concerts were given and freely patronized by the public. A music teacher was employed for part of the day, and so soon as the beneficial results were noted, a teacher was engaged regularly, so that now music is taught every day in all departments.

The schools owned a library in 1899, composed of about one hundred and sixteen volumes, so Prof. Eggertsen, in connection with the other teachers, saw the necessity of increasing it. A great effort was made along this line and to-day the library contains eleven hundred and forty volumes, (the largest library in the state, east of the city of first and second class.) These books are read constantly by pupils of nearly all grades, and used for reference. Among the liberal donors to the library may be mentioned A. J. Southwick, O. M. Mower, Dr. Fred Dunn, Lyman S. Wood, H. M. Douglass, Heber S. Cummings, G. P. Thompson, Wm. F. Gibson, T. R. Kelley, P. E. Houts, D. C. Johnson, Milan Packard, Mark Cook, R. S. Bird, Zebina Allen, Mrs. S. A. Cooper, Neil Sumelson, Della Coffey, Mrs. S. W. Crandall, Deal Bros. & Mendenhall.

An attempt, which proved very successful, was made to grade pupils according to aptness, intelligence, and temperament. The teachers have been working upon this line for some time, and finally at the beginning of this year, the grading was made by years, so that beginners now have one whole year, the first grade one year, the second grade one year, etc.

During the past four years it has been a noticeable fact, that as the grades grow higher the classes are larger than they have been previously, until now the classes of the higher grades are nearly as large as those of the lower ones. At the close of last year a fair was held and the work of pupils was placed upon exhibition for an entire week. This no doubt will remain a feature of the school work at the close of each year, as the beginning was a very creditable one, over 500 parents having visited and registered their appreciation.

Through the suggestion of Miss Ida Allen at faculty meeting, the subject of art was discussed and heartily supported, which resulted in an art committee being appointed. The work was so well done that before the year was over a beautiful picture was placed in nearly every room and hall. This is having the effect of training the children to appreciate and recognize works of art. Some statutory will also be placed in the school rooms during the coming year, as our own sculptor, C. E. Dallin, has promised to make us a free gift of his "Paul Revere."

Bible reading was introduced during the past year at the morning chapel. Each morning a chapter is read from the Bible and occasionally a verse is taught as a gem. On Wednesday morning, at which time some citizen, student or special lecturer is invited to talk, a musical selection is also rendered. This has proven to be a very profitable part of the school work.

A strong effort has been made to teach the pupils politeness, recognition of all teachers, at all times, by raising the hat or bowing; and a regard for others' property. Special stress has been made to have pupils respect all school property, and so well is this felt that the teachers may indeed congratulate themselves, for the markings that are usually found upon our buildings are not there and the doffing of the hat is the rule rather than the exception.

At the beginning of the year 1902 a high school was established with Prof. Eggertsen in charge. The course laid out by the state superintendent is being followed. There is an enrollment of 20 students and it is the desire of the school board to make it a two-years' course and longer if possible. In speaking to Supl. Eggertsen about the high school he said that he was so thoroughly converted to the high school proposition that some law should be passed by the Legislature, so that small districts, like Mapleton, could send pupils to the nearest high school, free of charge and receive pay from the state instead of having the taxpayer pay a tuition, thereby taxing him twice. High school privileges should be given by the state to these small districts, for they cannot now, and never will be able to support a high school. It will be conceded that the excellent system of graduation in our schools must be approved by every citizen who gives the matter any thought, as the child will pass yearly from one round to another, until he has completed his course, and will be associated with those of equal ability, general temperament and educational desire.

The completion of the new Jefferson school building, dedicated by Patriarch O. B. Huntington, Nov. 17, called forth much praise and the board cannot help but feel the strong support they received from citizens, when at the dedication services they heard the children sing the song, dedicated to the building, composed by Miss Ida Allen, and the feeling given by patrons as they looked upon the blackboard and saw the drawings of the first house in which school was held; the adobe schoolhouse, and the willow, dirt roofed schoolhouse.

and likewise they would feel the respect paid to faithful teachers as they saw hanging upon the walls the pictures of O. B. Huntington, Utah's first teacher; Cyrus N. Sanford, Springville's first teacher; Symon S. Wood, Springville's first teacher in the adobe building erected by the people; and L. E. Eggertsen, Springville's first city superintendent of schools and principal for the past three years.

When the vote was taken for the erection of a new building there were many who felt it would be a burden and opposed it, somewhat, but at the evening exercises, when the building was completed and the board had gone so far beyond the five mills voted, spending \$1,500 more to complete the building and put in all modern improvements, such as convenient offices, wide stairs, large hallways, drinking fountains, wash basins and steam heat, Mr. P. E. Houts moved a vote of acceptance and thanks to the school board for reaching out to the completion of this magnificent school building with steam heat, and it was carried without one dissenting vote.

Speeches of congratulation of the board's work were made by T. D. Mendenhall, F. C. Boyer, O. B. Huntington, Jr., Ed. Child, G. P. Thompson, W. K. Johnson and Mayor Reynolds.

There are today on the school board men who have had a number of years' experience as such and also taught school in the district. Among the teachers are Miss Ida Allen and Miss Julia Allen, who have labored for the interests of the Springville public schools, and have been important factors in bringing about the school standing of today. Others have come and gone, but they have remained and given their home town their best efforts. The school authorities, under the present arrangement and organization, are:

## SCHOOL BOARD.

O. M. Mower, Dr. Fred Dunn, A. J. Southwick.

Superintendent and high school teacher, L. E. Eggertsen; music director, Aaron Roylance; Central school, N. K. Nielson, principal; Willis K. Johnson, Ida Allen, Ella Mower, Mary K. Thompson, Anna Sumelson, Mary Crandall, Jefferson school, Julia Allen, principal; Bertha Childs, Nellie Reynolds, Carrie Peterson, Park school, Harold Aleman, principal; Laura Robinson, Separate schools, Anna Peterson, supervisor primary work; Eliza Watson, Ross Elementary.

It is a noticeable fact that politeness

## Latoila

A Most Marvelous Toilet Preparation

Positively does away with the use of Dandruff Cures, Hair Oils, Cosmetics, Cold Creams, Flesh Foods, Shaving Soaps, Medicinal Soaps and Complexion Remedies. A simple but marvelous preparation which prevents baldness, dandruff, loss, dryness or premature grayness of the hair, the spread of disease, and improves the complexion.

## LATOILA

Does its work instantly. A few drops on the hair and a wonderful shampoo is instantly produced. A few drops on a sponge and you have a lather for the bath.

A few drops in a clean shaving mug, stirred with a moist brush produce shaving lather immediately.

invaluable to actors and actresses for cleaning up after the performance. Cleanses the skin as you never saw it done by a soap.

For manicuring put a few drops of Latoila in the water. It softens and cleanses the nails.

For general sanative purposes Latoila is unequalled.

For skin affections apply a heavy Lather of Latoila and allow it to remain on over night. For itching and irritations it has no equal. Chafing is cured by its use.

Latoila is a perfect flesh food, supplying the oil it demands to prevent dryness, chapping and other unsightly effects. It supplies to the hair the oil required to make it soft and wavy, instead of dry, stiff and unmanageable. Barbers and hairdressers are delighted with it.

Miss Marie Schultz, the Celebrated Contralto, Says:

"My hair has been coming out so rapidly that I was greatly worried. Nothing I could find that was recommended for the hair did any good. After three shampoos with Latoila it stopped coming out, the irritation and itching were gone and my hair was in fine condition. I recommend it to everyone, man or woman, for the hair and bath."

Latoila is used and recommended by physicians everywhere. Every test proves its merits. It is unequalled. Delightful—Fragrant—Antiseptic—Cleansing.

For sale by F. C. Schramm, Salt Lake City. Free Samples. Refuse Substitutes. The Latoila Co., New York.

ness and industry characterize the pupils. The higher grades are full of earnest workers, all aiming to complete the eighth grade and enter the high school.

A unity of feeling exists between school and parent. All efforts are tending to create a high moral tone in and out of school.

The schools of Springville are now on a high plane of prosperity, and if we judge from the results that must follow the devotion to school interests of citizens who voted so unanimously, Dec. 10, in mass meeting, to assess themselves 7½ mills for a new building, of the board, the intelligent leadership of our superintendent, and the united efforts of a strong corps of teachers, the schools must be placed in the front ranks.

Dr. Smith's

# Vita Oil

For Man and Beast.

There is no noted horseman in the United States who has not used Vita Oil, and there is no horseman who has used it, but what says it is the greatest remedy for the stable made.

Have the Z. C. M. I. give you some of our reading matter. Read what others say about it. Then get a bottle and you will be convinced after a single trial that there is no remedy for the horse or stable that equals Vita Oil.
