

# THE EVENING NEWS.

Wednesday, April 17, 1872.

## PRICE OF GOLD.

Corporation Duty of Bank of America,  
Salt Lake City and U. S. B.  
Buying at \$1.00, selling at \$1.00.

## LOCAL AND OTHER MATTERS.

The members of the High Council are requested to meet at the City Hall on Thursday morning at ten o'clock.

RETURNED.—W. W. Ritter, Esq., got back from a trip to the east yesterday.

THEATER.—A liberally filled house attended at the Theatre last evening to witness the play of "Hamlet." Mr. James M. Hardie sustaining the title role with much vigor and energy.

This evening the same gentleman will appear in the double character of "Vivian and Louis Del Franchi," the "Comedy Brothers," for the farewell benefit of Mr. J. W. Dunne, who has accepted an engagement at Denver. Mr. Dunne is a young and promising actor, and the play selected is very attractive. Moreover the characters to be personated by Mr. Hardie are well suited to that gentleman's abilities and style.

After the drama, comes a "Grand Ole," consisting of "Song and Dance," Harry Loraine's "Pantomime," "The French Girl," Gould's "Clog Exercise" by Master Willie Clawson, and a "Hornpipe" by Mr. Logan Paul. The Tenth Ward brass band will also be there with their inspiring music. A good house may therefore be presumed upon.

CALENDAR.—We had an agreeable visit yesterday from R. D. and T. F. Wagener, Esq., father and son, who are on their way from the eastern States to Oregon. They express pleasure and surprise at the progressive appearance of this city and its surroundings. They are staying at the American hotel.

MORSE MEMORIAL.—The following was among the dispatches received last night:

WASHINGTON, 16.—The hall of the House of Representatives was decorated with flowers on the occasion of the memorial services in honor of Morse. The speaker of the House presided, assisted by vice-President Colfax, and the present of the cabinet, Judges of the Supreme Court, and members of the Senate, in person or by proxy, occupied seats. The Senators and Representatives occupied other seats on the floor. The ceremonies opened with prayer by Rev. Dr. L. C. Ladd. The speaker Blaine delivered a brief introduction speech. Resolutions appropriate to the occasion were adopted, and Senator Patterson made some eloquent remarks.

Telegrams were read from London, Paris, Bombay, Batavia, Singapore, Hong Kong, and dispatches from Boston, St. Louis, San Francisco, New York, Philadelphia, Montreal, and a great number of other cities.

Fernando Wood, the only member of Congress who voted for the first appropriation to aid Morse, gave an eloquent rehearsal of the occasion. Speeches were made by many others. The proceedings closed at 11 p.m.

Accounts also came over the wires last night from nearly all the large cities in the Union, of memorial services in honor of the late illustrious inventor, showing that the call for simultaneous demonstrations throughout the nation was almost universally responded to.

SOMETHING LIKE A SAVIOR.—The settlement of the Great Basin was commenced by the "Mormons" while yet the whole region was in the hands of Mexico. By the aid of our hardy pioneers and the "Mormon Battalion," the country was brought under the U. S. Government. Since that time Utah has not only made the rapid settlement of the surrounding Territories possible, but has been a very Egypt to them, supplying them freely not only with the bread of life but also with the bread that perisheth, which latter they have eagerly applied for in times of necessity, and again not only with the staff of life, but with many of the more desirable trimmings, such as eggs, cheese, tea, coffee, etc., and has been also a centre of all other mercantile supplies of the Rocky Mountain region.

The California emigration of '49 owes Utah a heavy debt of gratitude, as does the state of Colorado, which is in a somewhat higher degree as do the settlers of Montana, Colorado, Idaho and Nevada.

In 1858 Utah presented a fine field where the bulk of the concentration portion of the gold could be profitably staked out of the way while antagonistic politicians made certain important moves upon the national chess board. That army, with its horses, mules, and cattle was largely sent to Utah for its assistance and comfort.

The national iron highway would now and perhaps during the remainder of this year have rendered an untold amount of wealth and means of communication of far-reaching, and boldness of conception, had it not been for the aid rendered in its construction by the "Mormon" settlements of Utah.

The best, if all, though at considerable inconvenience, to the welfare of a number of her citizens, a judicial decision, authoritative, complete, and definitive, has been elicited, securing, in a great measure, not only the rights and liberties of the people, from local judicial usurpation, and insuring in the same degree the rights and liberties of the people. On this account Utah deserves and will be likely to receive the gratitude of all the other Territories, and will be considered as one of the United States in particular; and in a general way the Savior of the Federal Constitution and this grand and glorious Union of States.

A MILLION.—Among the crowd who followed the belligerent Silver to the City Hall yesterday was the person who is accredited with sending over the wires from Salt Lake, the notorious sensational dispatches, which have frequently drawn forth such uncompromising comments from the press of the country upon their author, and also the individual of the gloomy mind who predicted the destruction of Salt Lake would run with blood if Utah became a State.

At half an hour an amusing incident occurred; he of gloomy mind said, with a smile, that he thought he had a million dollars' worth of lead in his pocket, and the ball was on hand if needed. (In silver and gold we suppose.) Everybody present looked around to see the million dollars, but nobody could see it nor whence it came.

Unfortunately for Joseph, and for sensation mongers, Joseph was not martyred as he wished to be, for although he struck, kicked, and abused the officers, the latter did not retaliate in the least, which was very creditable to the officers, as they were possessed of a virtue which should be exhibited by every law officer—that of patience. It would have, we presume, vastly suited the gloomy mind to see the destruction of Salt Lake run with blood.

It will doubtless cause some little astonishment at the amalgamation of gold and silver, especially as it is well known that a certain deposit of the latter metal has long been considered "wild-cat," even by those who would like to be its friend.

Gold and silver are not entirely unalloyed.

THEATRE.—We understand that Mr. and Mrs. F. M. Bates, the accomplished artists will arrive shortly, and open an engagement on Monday evening at the Salt Lake Theatre. The California press are enthusiastic in their praise. Mrs. Bates will open the evening right away the rôle of "Mimi" in the great historical opera of that name, in which she is unsurpassed, and will be supported by Mr. Bates, the popular and standard actor, and the entire strength of the company. We promise our theatre-goers a rich treat.

FINED.—Auer & Murphy were fined in Alderman's Court, \$100.00, for selling liquor without license.

Notice was given by the defendants of an appeal of the case to the District Court.

VERY RAINY this morning.

ACCIDENT AT SEA.—We regret to learn that the steamer on which Elder G. N. Barker embarked, at San Francisco, March 29, for the Sandwich Islands, met with an accident at sea. When a day and a half out from San Francisco, the steam chafed burst. Water was sent of the accident, with resulting damage to the ship, and the steamer was compelled to return to San Francisco, arriving there April 3rd. Elder Webb had been very sick, but he is expected to start again for the Islands by the steamer that was to leave San Francisco April 6th. It is to be hoped that a more prosperous and pleasant voyage awaits him.
