

A GLIMPSE AT CANADIAN AFFAIRS.

The Toronto (C. W.) *Leader*, of Aug. 28th, says that intelligence of a startling character has come into its possession, through a channel which left no doubt of its truthfulness—the import of which was that certain persons in Canada had been detected in a treasonable correspondence, the object of which was to invite and, if possible, induce the Federal Government to invade the Province, overthrow British supremacy and bring it under subjection to the "Lincoln Dynasty." The matter had been investigated by Mr. Archibald, British Consul, at New York, by whom the facts, so far as divulged, had been communicated to the Imperial Government. The names of the treasonable correspondents had not transpired; and well for them, says the *Leader*; as such an attempt to betray Canada into the hands of a foreign power and "place on the necks of the people a yoke of despotism more intolerable than that of Turkey or Russia," would expose the betrayers to the terrible retribution of an indignant people.

Those who have supposed ours the only degenerate and corrupt government on earth have come wide of the mark. A most glaring instance of bribery by the Provincial Government itself—not an obscure representative, greedy aspirant or soulless contractor—has just come to light. There is no room to doubt, says the *Leader*, that the present Canadian Government did offer a bribe of fifty thousand dollars a year to the Grand Trunk Railway Company for its support in the late general election.

The *Leader* christens this a "damning fact." It is a question long since settled in our minds, however, that such agents do not possess intelligence enough to damn them, only temporarily, as they themselves, as professing Christians, confidently expect. To put money in their pockets is the only object of their aspirations. This is the God they adore and their zealous worship, if not commendable, may be said to be plausible. When obtained, the gold has already exuded its gnawing canker-worm and remorse, if not ultimate abjection and utter financial as well as moral ruin become so largely an ingredient in their cup of temporal gratification as to mete out to them a full present recompense for their ignorant folly and crime, without carrying such cases before any future retributive tribunal.

These men, wherever they are found, fail in the final attainment of the gilded butterfly of their pursuit. They have not discovered the "philosopher's stone" of this world's well being. They have sought it where it was not to be found. They have gleaned no fruit from the experience and history of men in their own day and in generations past. In their blindness they will greedily reach out after wealth or power, or sensual indulgence, as the ultimatum of human happiness, but the phantom still eludes their grasp. They ever want and are never satisfied; and this is "hell" enough for men who have no just appreciation of what heaven is.

THE SHORTEST ROUTE TO NEW YORK.

The St. Louis and other western papers have of late been discussing quite freely the merits and demerits of the several railroad routes through the States from west to east, a matter in which the traveling public are particularly interested.

The most direct route from Chicago to New York, it is now decided, is that by way of Pittsburg, over the "Pittsburg, Fort Wayne and Chicago Railway." The route by way of Toledo, Buffalo and Albany has hitherto been regarded as the shortest and best in many respects. To give the palm to the route via Pittsburg will be news to the railroad itinerants of the country.

Not only is the Pittsburg and Fort Wayne road shown to be nearly one hundred miles shorter than that by way of Toledo, Buffalo and Albany and sixty miles less distance than by way of the Toledo and Erie road, but the fare is lower—having been recently reduced to \$18 from Chicago to New York—and only one change of car. This reduction, of course, refers to first class fare.

The "Mormon" emigration, for the past few seasons, have passed from New York to Albany, thence to Suspension Bridge, thence by the Great Western, or North Shore line through Canada to Detroit; thence by the Michigan Central to Chicago; thence by the Chicago, Burlington and Quincy road to Ogle-

by; thence per Hannibal and St. Joseph rail to St. Joseph, where river boat was taken up the Missouri to Florence. On this route there have been some three changes of cars between New York and Chicago. The advantages in favor of the Pittsburg and Fort Wayne road are not trifling—being a diminution of distance, less interruption from changing cars and reduction of rates.

BETTING ON TIME.

A few days since, as we are informed, a man of money en route for the newly opened opihors of Idaho, in the presence of some of the epauletted chivalry bailing from Camp Douglas, offered to bet five hundred dollars in gold—the money in hand—that Charleston would not be taken during the ensuing six months and that the Federal flag would not wave over the "ruins" of Fort Sumter for forty-eight hours at any one time, within the same period. Suspecting that the betting gentleman was a little disaffected towards the "Great American Eagle," one of the officers hard by asked him if he was a loyal citizen—to which the man of money replied, "I am a defender of Constitutional liberty." None present, it is said, would risk taking the bet.

Being politically, religiously and morally opposed to gambling of whatever kind, we never lay a bet nor take a wager, but sooner or later Charleston will most certainly fall, and the opinion is entertained, that if the emigrant or wayfarer's bet had been taken, he would have lost his money.

DESERET SOCIETY OF ARTS.—The Directors of this association acknowledge the receipt, from Nat Stein, Esq., of a handsome collection of engravings, enclosed in a superb folio. They also acknowledge the receipt of a liberal donation from W. Jennings, Esq. Both donations in aid of the purposes of the Society. E. L. T. HARRISON, Sec'y.
