AFFAIRS OF WEBER COUNTY

Commissioners in All Day Session
—Increase Salaries of Deputy County Officers.

OGDEN'S VITAL STATISTICS.

Tabernacle Organ Recital a Brilliant Success—Habeas Corpus Suit in Behalf of Miss Rose Rolley.

Ogden, Jan. 15.—The board of county commissioners were in session practically all day yesterday. The morning session was entirely taken up in disposing of some tax matters. A two hours' executive session was held in the afternoon, at which the salaries of deputies were considered. In Sheriff Sebring's office B. R. Wilson was made chief deputy at a salary of \$100 per month. Robert Shaw, criminal deputy, \$85, and each of the other deputies, Cave, Clark and Ritchie will get \$50 per month.

In Recorder Wallace's office the salary of Seth Thompson was made \$32.50. Mrs. Evelyn West, \$75, Annie Brown \$75.

County Clerk Mattson's deputies all received a raise in salary. Ernest Brown, W. D. Van Dyke, Ernest Matthews will each receive \$33.30; Carl Ashton, \$30; P. F. Dalton, Frank Henderson, Miss Edith Reed and Jeannette Bingham \$25.

George D. Folkman was reappointed janitor at a salary of \$60 per month. Hon. Joseph Stanford, overseer of poor, sent a communication to the board calling attention to the fact that during the past year 14 cases of wife desertion occurred in Weber county. In most cases the wives were left without any means of support and the county had to lend assistance. Mr. Stanford recommends that the commissioners use their influence with the legislators to pass a law making it a felony for a man to desert his wife and family. The board appointed as a committee on this matter Chairman Madison, Clerk Mattson and County Attorney Hurst, who will use their influence for the enactment of such a law.

The board passed a resolution requiring the county attorney to attend all sessions of the board.

TABERNACLE ORGAN RECITAL.

Prof. McClellan Shows Grand Possibilities of Beautiful Instrument.

Ogden, Jan. 15.—The Ogden tabernacle rang with sweet music last evening as it never rang before, the occasion being the grand concert given by Prof. John J. McClellan and the Ogden tabernacle choir. The auditorium was filled with an appreciative audience, who received each number with rounds of applause. From an artistic standpoint it was a magnificent success. The new organ, under the master hand of Prof. McClellan, charmed the large audience. Everyone was pleased and felt that the \$5,000 spent for the instrument had been well spent. Mr. McClellan had selected a fine program with which to display the powerful notes that could be played on it as well as the very sweetest. He played 16 different selections during the evening, especially selected for the occasion, so that the people of Ogden might realize what a fine instrument they have.

The choir under the direction of Prof. McClellan sang three choruses in a most creditable manner.

HABEAS CORPUS PETITION.

Effort to Release Miss Rose Rolley From Durango Vile.

Ogden, Jan. 15.—An effort is being made by Attorney J. H. Shields, of Park City at the request of the relatives of Miss Rose Rolley, who is now confined in the county jail, to secure her release if possible on a writ of habeas corpus. The application for a writ has been made before Judge Howell, but as he was out of town yesterday, the hearing on the petition was continued today. The affidavit sets forth that Miss Rolley is being retained from her liberty by Sheriff C. A. Sebring, who keeps her confined in the county jail; that he is detaining the applicant on a certain writ of commitment issued by Judge A. B. Patton out of the juvenile court, who, it is claimed, had no right to order her held to the higher court, but should have sent her to the reform school, and in doing otherwise, his act was illegal. Should the writ be granted, she would be released, and she would be immediately returned to her home in Park City, where she is being cared for by her mother, Mrs. J. H. Rolley, who is a well-to-do business woman. The writ is being applied for by Attorney J. H. Shields, who is a well-known lawyer in Park City. HEIR TO SNUG FORTUNE.

Jacob Bigler, an aged and well known resident of this place, has had a snug sum of money, amounting to about \$20,000, perhaps more, come to him as an inheritance from a family estate in Germany. Mr. Bigler's mother died recently, therefore the dividing of the inheritance to the several heirs.

Mr. Bigler came to America in 1870. He has spent most of his life in Utah, however, he lived in Arizona for a few years. Fourteen years of his time he has been spent in Mt. Pleasant, where he has many friends who are pleased and congratulate him upon the fortune he has fallen heir to.

Last Friday evening the Mt. Pleasant Commercial club held a business meeting and a "smoker" combined. The question of starting a steam laundry was discussed. From present indications a \$1,500 plant is not an unlikely proposition. Mr. Ole Hansen, local creamery man, will advance the money and put up an up-to-date plant if assured support, which the club decided to give as much as possible. After the meeting was over, luncheon was served, with toasts and sentiments.

FEDERAL BUILDING SITE.

North-West Corner of Court House Block Accepted.

Special Correspondence.

Provo, Utah Co., Jan. 15.—A petition was received from the Consolidated Wagon & Machine Co. and others, asking that a sidewalk paving district be established on the east side of academy avenue between First North and Sixth North streets. A similar petition was received from L. O. Taft and others for a pavement on the south side of Center street from Seventh East street to Academy avenue. Mayor Frisby reported that property owners on Fifth West street, north from Center street, and on Center street west on the north side from Fifth West street, were opposed to paving, and Councilman Giles reported that he believed the property owners on the south side of Center street from Academy avenue, west to Fifth West, would pave. All were referred to the committee on streets and alleys.

A communication addressed to Mayor Frisby, by Secretary of the Treasury Shaw, accepting the Federal building site on the northwest corner of the Court house block, was read for the information of the council, and Mayor Frisby stated that he expected to confer with a representative of the attorney-general on the matter of title within a day or two.

The committee on irrigation reporting on the watermaster's report, recommended that the city attorney and the watermaster be instructed to collect \$1,400.35 delinquent water taxes. Report adopted. The committee on cemetery lots be notified that if the rates are not paid by April 1, the delinquents will not be supplied with water thereafter till the amounts due are paid.

The order providing for an electric light bond election was taken up. Councilman Van Wagon was opposed to the measure, because the city could not bond for more than about half enough money to build a plant. He would prefer to have the money spent on the streets rather than spend the money that could be obtained from the sale of bonds and additional taxes to build a plant to enter into competition with the light company already operating.

The other members, however, were of the opinion that as the people had twice signified their desire to have a municipal lighting system, they should have an opportunity to vote on the matter. The order passed its first reading and was laid on the table till next meeting, at which time the city attorney will give an opinion on the amount for which the city can bond, and the committee on electric light explain how it is proposed to raise the money needed in excess of the amount which can be obtained from sale of bonds.

The petition from E. T. Harding and others came in later, asking for a sidewalk paving district to be created on the north side of Center street from Fifth West street to Eighth West street; referred to the committee on streets and alleys.
