THE RICH STRIKE IN THE MAMMOTH.

The Management is Stoping on a Body of Horn Silver.

LOWER MAMMOTH STRONGER | NEARLY 20 TONS SACKED.

Manager Poland Returns From the Highland Boy-Kremlin Patents its Ground-Mining Notes.

Considerable Interest is felt in the rich Some of the latest assays are said to have shown better than \$29,000 per ton in silver and gold, but it would be im-possible to estimate the average value by a few such assays. Some idea of the richness of the ore may be gathered rom the fact that the management the Mammoth expects to place on the market within the next few days, the richest car of ore ever shipped from the district. Over 300 sacks have been filled with the rich ore, which makes over half a car now ready for market. Regarding the statement that the ore was near the Silveropolis lines, Mr. McIntyre says the nearest point is not within 20 feet of the lines. At the present time, Mr. McIntyre says, the ere is being followed up towards the Cunningham stope and away from the Grand Central lines, and it gives every indication of opening out into a magnificent body

WILL DOUBLE ITS FORCE.

Working Force at the Highland Boy

Will Be Increased to Over 200 Men. Manager H. F. Poland returned from the Highland Boy at Bingham last eve-ning, after spending the day in looking over the changes, which are being made there preparatory to increasing the out-put to 500 tons per day next week. These changes will be completed as soon as the tram terminal is changed from tunnel No. 6 to tunnel No. 7. It will be necessary to shut down for three or four days in order to accomplish this work. The work of laying twentypound rails and making switches by tunnel No. 7 has been completed for a distance of probably 1,500 feet. It is the intention to run three mule trains it this tunnel conveying the ore from the chute which connects with the upper evels to the tram at the mouth of th tunnel. The company is employing 118 men at the mine, but this will be increased to about 230 as soon as the increased extraction of ore begins. For some time past the company has not paid so much attention to development work and, owing to the fact that near ly 1,000,000 tons of ore are estimated to be in sight in the mine, it is probable that by far the greater part of the force will still be kept on the extraction of ore. The mine is said to be looking better than ever.

CAUSED A SENSATION. The Discovery of Gold Pellets in the

Crop of a Wild Goose. Vancouver, B. C., Dec. 28.-A mild sensation has been caused in New Westminster by the discovery of \$12.50 in coarse gold as big as flax seed ! crop of a wild goose, which was killed at Pitt Lake, 28 miles from Westmin-Many prospectors have started the scene of the supposed gold

Kremlin Patents.

The Kremlin Mining company made final payment on its claims today, and received patents covering the ground The property is located in Brooklyr Guich, Bingham, adjoining the old Chicago property, from which some ora was shipped years ago. A shaft some 300 feet deep has been sunk on the Kremlin, and while no ore has been shipped, some very good ore is said to be exposed in the bottom of the shaft where a good flow of water was encountered some time ago,

Mining Deeds Recorded.

Special Correspondence, Provo, Dec. 28.—Notices of consolida-tion of the High Roller, Nos. 1 to 5, both inclusive, has been filed with the county recorder. The claims are situated in Santaquin Mining district and are owned by the High Roller Mining com-

Quit claim deeds from M. H. Hardy and Elizabeth Hardy, and John B. Kellogg, to the Provo Anthracite company have been flied with the county recorder. The first two named grantors convey the southeast quarter of section 22 ownship 6 south, range 3 east, and the last named grantor conveys the northeast one-fourth of the southeast one-fourth; the southeast one-fourth of the northwest one-fourth, and the west ction 22, township 6 south, range 3

The lands conveyed are coal lands in Rock canyon, east of Provo City, where the Provo Anthracite company is doing a great amount of development work ith the expectation of uncovering a large deposit of anthracite coal.

Utah Stocks in Boson.

Dispatches from Boston show an upward tendency in copper stocks, in which the l'tah stocks share. It is confidently expected that prices will go still higher. Utah stocks were in good demand today with the following prices quoted: Hingham Copper and Gold, \$16.874. Centennial Eureka, \$26, and United States, \$11.

Trinidad Asphalt.

The annual output of asphalt from the remarkable lake on the Island of Trinidad is amounting at present to 80, as 2.07 inches in 1890.

The least monthly precipitation was that there are still 4.000,000 tons in

> Constipation, Headache, Billousness, Heartburn, Indigestion, Dizziness,

25 cents. Sold by all medicine dealers.

sight, says the Denver Mining Reporter. A curious fact about the lake is that the deporat is being renewed constantly from below at the rate of about 10,000 tons yearly. The area of the lake is about 114 acres. Its surface is generally so hard that it will support the weight of a man on horseback, but at the center it is semi-liquid and bubbling, and seems to be about 125 feet in depth. It is reported that there are valuable deposits of the same mineral on the mainland of Venezuela, near by.

John F. Cowan's Success.

According to the Pony (Montana) Sentinel John F. Cowan, of this city, is meeting with good success at the Strawberry group, good success at the Strawberry group, where he has had a number of men employed the past few months. Since making a 200 foot raise from the lower to upper tunnel he has been drifting on the lead and last week the miners encountered a shoot of ore about four feet that assayed across the fact \$28. t is free milling ore and will be pounded up this winter in Cowan's mill. Sev. ral changes are being made at the mill.

MINING NOTES.

The Swansea of Tintic reached the market today with 6 cars of ore. The Cygnet Mining company market-

ed 3 cars of ore today from its Stockton Four cars of ore were on the market today from the South Swansea of Tin-

The Taylor-Brunton sampler reported 0 cars of ore from Tintle and 13 from

Stockton today. H. T. Sappington, who came down rom Butte this week, reports new strikes being made everywhere in that

mining camp. Senator-eject Ravenal McBeth of Custer, Idaho, reports an unusual amount of activity in the Blackbird district in the Gem State.

group at Tintic reports a big cave in that property, in which a great deal of manganese exists. The cave is said to be fully 18 feet long. Manager T. R. Jones of the American Smelting and Refining company, who was out of town yesterday, says that he shut down at the Mingo smelter is only temporary. It will be started up

again about February 1st. Recent assays of ore taken from the 525-foot level of the Shoebridge-Bo-nanza show as high as 58 ounzes silver and 82 per cent copper. Several asays show from 10 to 21 per cent copper, with good silver values, which lead the management to expect good returns from the shipment now being prepared for market.

The Homestake Mining company, operating in the Blue Ledge district, has amended its articles of incorporation by reducing the capital stock from \$500,000 in \$1 shares to \$10,000 in 10-cent shares. The amendment also provides that the annual meeting shall be held on the first Monday in August at the company's office, which has been transferred to Park City.

The La Reine Mining company filed an amendment to its articles of incor-poration with the county clerk yesterday afternoon, increasing its capita stock to \$300,000, with shares at \$1 each J. Conway is president of the pany, and it was he who issued the call for a stockholders' meeting last No-vember. In his absence the certification of today's amendment was made by Vice President F. H. Schmidt and Secretary A. S. Day,

LOCAL MARKETS.

The prices prevailing today on a number of farm products are given below.

These prices are those which the farm, ers receive from the dealers and will not be confounded with the consumer's bushel, while oats are quite firm at \$1.10 hundred.

DIES ON THE COAST. Mrs. Sewall, an Old Resident of This City, Passes Away.

The sad intelligence comes from San Francisco of the death at that place of Mrs. Isabel Young Sewall, an old and respected resident of this city. Her death occurred yesterday morning and was the result of cancer of the stomach. Her affliction did not become serious

sabel Rogers, and she was married to Samuel Newman, of San Francisco, about six months ago. She was born in Canada sixty-eight years ago, and while a child went to Iowa with her parents. The family joined the "Mor-mon" Church and in 1848 crossed the plains and settled in this city. She remained a faithful and active member of the Church up to the last. She was dearly loved by all who knew her, and the grief over her death is extended into many a household.

The remains will be brought to Salt Lake for burial. The funeral will be held from the home of her sister, Mrs. Ann Dewey, perhaps on Sunday next. Deceased leaves three children in Utah, Mrs. Mabel Young Monohan, of Provo, and James and Nathan Young, of this

UINTAH CREAMERY COMPANY.

Articles of incorporation and agreenent of the Uintah Creamery were filed n the secretary of state's office today. The company's principal place of business will be at Vernal, Uintah county It is capitalized at \$7,500, which amount is divided into 300 shares of \$25 each. The following are the officers of the company: T. C. McNeill, president; George D. Merkley, vice president; S. P. Dillman, M. M. Batty and W. H. Siddoway directors, and Ward E. Park

secretary and treasurer,
There are sixty-six residents of Vernal that have subscribed for stock in the corporation ranging from 50c to

eleven o'clock hour is more convenient for the public and has therefore readopted that time to hold the Saturday recital. DEATH OF CHAS. H. CROW.

Old and Well Known Citizen Succumbs

Prof. McClellan has decided that the

to Kidney Trouble. Charles H. Crow, the well known harness and saddle dealer and ex-policeman, died last night at his home, 960 East First South street. He had been suffering of kidney trouble for the past twelve days. He was a ploneer into this State, having come here in 1859. He was 70 years of age, and his life was useful to others as well as to himself. He leaves a wife and six sons.

HOWAT-HAMPTON.

Popular Young Salt Lakers to Wed

and Go to Mexico. Robert Roy Hampton, of Salt Lake, aged 25, and Margaret E. Howat, aged 22, also of this city, were granted a license to wed today by the county clerk. The contracting parties will be married at 4:30 tomorrow afternoon at the home of the bride's parents, Mrs. and Judge Andrew Howat, 1963 East Second South street. Rev. Mr. Brown will perform the ceremony that will make the happy couple man and wife. The wedding will be a quiet one, only the immediate friends of the bride and

groom are to be present. Both of the young people are promi nent in Ealt Lake society. Mr. Hampton is a son of Benjamin Hampton, the well known mining man. Miss Howat is the accomplished daughter of Judge and Mrs. Andrew Howat. Mr. Hampton recently graduated in medicine with high honors from an eastern colege. He leaves on tomorrow night's train for Santa Barbara, Mexico, where he will practice his profession. Miss Howat will follow in about two months. The "News" extends congratulations to the young couple, and wishes them unbounded success and happiness in their matrimonial venture.

PUSHING THE CAMPAIGN. Americans Meeting With Success in the Philippines.

For a Cold in the Head

Laxative Bromo-Quinine Tablets.

Manila, Dec. 28,-A pushing campaign has been carried on by the Fortieth infantry during December in Northern Mindanao. The town of Jiminez was captured, as was also the insurgent stronghold in the mountains further in-land. The coast town of Langarin was captured by a detachment of 500 troops. who scattered the enemy in that vicinity, killing and capturing several. A portion of the troops thus engaged have returned to Cagayan and joined in the campaign which Brig.-Gen. Kobbe is personally prosecuting.

Gen. McArthur's proclamation is resulting in many arrests of alleged in-surrectionists in Manila and vicinity, a few of those taken into custody being prominent. One prisoner was shot dead and another wounded in attempting to

Inventor Westlake Dead.

gram received here announces death at his home in Brooklyn, N. Y., today of Wm. Westlake, one of the founders of the Adams & Westlake company and widely known as an in-ventor. Mr. Westlake held over 209 personal patents, among the best known being the open-top hand lantern, which made possible the system of lan-tern signalling used by railways. Mr. Westlake was born in Cornwall, England, in 1831, and came to the United States in 1844. In 1857 he became chief tinsmith of the old Milwaukee and Lacrosse railroad. In 1861 he formed a business partnership with Master Mechanic Rice of that road for the manufacture of railway supplies. The firm was burned out in the great fire of

Fraud by Orientals.

Chicago, Dec. 28.—A special to the Record from Vancouver, B. C., says: John Watchorn, agent of the United States immigration department at Tacoma, left today for Washington, where he will lay before the authorities the details of a complete system of fraud

perpetrated in defiance of United States custom laws at the international boundary line between here and Sei With Inspector Healy of Var Commissioner Watchorn has earthed the facts of how a earthed the facts of how a large number of Japanese laborers were rail, roaded across the border. The Japanese were hired out to farmers in Washington and Oregon through large Japanese contractors.

Two months ago Secret Service Officer Sargent was sent from Washington, and with the inspector here has been making a full investigation. He reners

making a full investigation. He reners that about 1.700 indigent Japanese in all have been taken across since Ap-

STUDYING ECONOMICS.

Proceedings at the Convention in Ses. sion at Ann Arbor. Ann Arbor, Mich., Dec. 28.—President Angell, of the University of Michigan, extended a warm welcome to the economists and historians who came from Detroit today to hold joint sea, sions of the American Historical Association and the American Economic Association. Prof Paul S Reluson of the University of Wisconsin, was unable to be present, but his paper on "The French Experiments With Politi-Vancouver, B.
