WASHINGTON, 8. — The Star says: Sergeant McGowan, of the Signal Ser-vice, who got into trouble by refusing to receive a colored man as his assistant in his office at Pensacola, Florida, is not to be court-martialed for disobedience of the orders as was at first human, and to massing them together intended. He brought a strong influ-

in one Territory as lojurious to the Inence to bear and succeeded in having his punishment ilmited to reduction of his rank to that of private. The col-ored observer who has been in charge of the Pensacola office ever since he was assigned to duty there, will short-ly be relieved, as his presence in an official canacity is distantial to the dians and an impediment to their civilization. The discussion was opened by G=u. Armstrong. He was utterly opposed, he said, to the immediate admission to citizenship of the Indians, but gave

his assent to the remaining proposiofficial capacity is distasteful to the tions citizens of Pensacola. He would not

Dr. Kendali also favored striking out the word "absorption."
Hon. J. H. Oberly, superintendent of Indian Schools, strongly opposed the words referred to. He argued they were inconsistent with the enderse-ment of the Coke bill, which favors the present system of reservations with the officer making the selection. Major Dye, chief of police, was to-day handed a letter from a Mr. Hutch-inson, who is in the land business in Kansas City, stating that the writer had traded land for \$5,000 worth of 7 ment of the Coke bill, which favors the present system of reservations with allotment of lands in severalty on such reservatious.

The writer would like to know about their value. Major Dye has written a letter in reply stating that no such bonds have ever been issued by the District, and that they are freudulent. He base reservations. Senator Dawes, chairman of the Senate committee on Indian affairs, made an address on the problem, Indians, who made the r made an address on the problem, speaking in warm praise of the excel-lent work of the Mohunk conterence, as influencing public opinion in the right direction. He referred to the decided progress made in the Indian cause since the various Indians' Rights Associations had been organized, and said progress had been made in Con-gress and there was a better under-standing of these important questions and that they are fraudulent. He has also notified the Kansas City police, asking that they make an investigation. Secretary Whitney was the only ab-sentce from the Cabinet meeting to-day. Among the topics considered were the Chinese troubles in Wyoming and other Territories, and the other difficulties encountered in enforcing the Chinese Bastriction Act standing of these important questions by the people of the country. He be-lieved Congress would speedily pass the Coke bill or a kindred measure, the the Chinese Restriction Act. The executive committee of the

Washington branch of the United Labor League of America has issued a Sioux bill and other needed legislation. These measures would secure the alcall for a convention of representatives of all the leagues in the country, to meet in New York on October 20th. The following explains itself: loting of lands in severalty, industrial education and final citizenship. Mr. Dawes has refrained from taking any part in the discussions of the confer-
