WOMAN'S TRIUMPH.

A Severe Surgical Operation. It is Endured without taking Ether. Return of the Disease prevented.

From the Correspondence of the Kingston, N. Y. *Freeman.*

The case of Mrs. Edward Meyers, of Roudout, New York, furnishes an apt illustration of woman's power of endurance. This lady had been treated for months in the usual way for Erysipelas of the hand, without benefit. Not until her hand had become a mass of putrid flesh did she turn to Dr. David Kennedy, proprietor of the "Favorite Remedy," which is made at Roudout, N. Y.

He informed her that it was impossible to save the hand—it must be amputated. She received the terrible intelligence quietly, declined to take ether, stipulating merely to hold her husband's hand during the operation, and underwent the painful process without moving a muscle or uttering a groan. Dr. Kennedy then gave "Favorite Remedy" freely to cleanse the blood and prevent a return of the disease, and Mrs. Meyers now lives and rejoices in her great deliverance.

Dr. Kennedy's "Favorite Remedy" is fast becoming a trusted household friend in all cases of Female Weakness and diseases of the blood, Kidney and Liver complaints, and Constipation of the Bowels.

Dr. Prentice,

Recently from London, Eng.,

Whose unequaled success in the treatment of

EYE, EAR AND CATARRH

Astonishes Everyone,

Has been induced to again postpone his departure until

Sept. 1st.

The following are a few of the many cases of cross eyes Dr. Prentice has straightened in this city in less than one minute:

Geo. A. Smith, Salt Lake City.
Susie M. Shettler, Salt Lake City.
Frank J. Hocking, Salt Lake City.
Florence Peppers, Salt Lake City.
Lester Riggs, Salt Lake City.
Sarah Wilder, Salt Lake City.
Joseph McRae, Salt Lake City.
David M. Cambell, Providence, Cache County.
Catherine Bivens, eye turned outward.
P. Pugsley's grandson, totally deaf in one ear, restored to hearing, and many others.

FILES.

Piles are almost instantly and painlessly cured by Dr. Prentice, and the cause forever removed.

I have been afflicted with Hemorrhoids (or Bleeding Piles) for the past twenty-five years. For several weeks past the pain has been so intense that I was forced to quit work. I found no relief either day or night, and was frequently compelled to walk the floor all night long, as it was impossible for me to sleep. In this condition I called on Dr. Prentice at the Continental Hotel, who, after a painless operation of less than one minute, relieved me from all pain, and I have been able to sleep and rest well ever since.

I consider myself perfectly cured, and unsolicited offer this testimonial for the benefit of those who may be similarly afflicted. HENRY GREGORY, 149 N. West Temple Street.

Dr. Prentice can be found at the Continental Hotel, Salt Lake City, until

SEPT. 1st.

MADD HANDCOMB.

Mr. B. H. Shettler, of Zion's Savings Bank, has a bright and intelligent little daughter nearly nine years old, but she has suffered the unfortunate disfigurement all her life of being badly cross-eyed. Susie M. Shettler's parents were very loath to trust any one to operate on her eyes. But they had faith enough to trust Dr. Prentice, and he has made the eyes perfectly straight, which was done in less than a minute, and Susie Shettler is now a handsome little girl, while her parents are well pleased.

JUDGE CARLTON'S LETTER.

SALT LAKE CITY, August 7, 1888.

Dear Doctor:—Before leaving for the east I wish to express my appreciation of your treatment of a complicated case of the eyes. I have tried for several years to do far-seeing glasses, and I had concluded that I could get none that would be of any benefit to me. But after I saw the wonderful benefit of your system, I take pleasure in saying that the glasses furnished by you have restored my vision both for reading and far-seeing to the same condition as in my boyhood. I resolved to have you furnish me glasses after I witnessed your system to a beautiful young lady of sixteen years, from Summit County, afflicted with a complicated condition of the eyesight. She told me she had never been able to distinguish one's face at a distance of six feet. With Dr. Prentice's glasses she could see as well as any one. As she looked up and down the street, and for the first time in her life saw the distant mountain tops, she was greatly delighted, and inquired with childish simplicity, "Do other people see this way?" It seemed that a new world was opened to her view, so novel and beautiful as "Eden's rosy bowers," appeared to our first parents.

Yours truly,
C. B. CARLTON,
Chairman Utah Commission.

EVENING NEWS.

Wednesday, August 22, 1888.

THE RAIN.

He opened the windows of heaven today
And poured us a blessing down—
On the thirsty field, and the stony way,
And the hot and dusty town.

The light on the mountain is faint and sweet,
And bright is the flowery plain;
In the silent woods where the lovers meet
The mosses are green again.

I lifted my plant in my feeble hands,
And held it out to the shower;
For the rain that waters the widespread lands
Will freshen a widow's flower.

And there came a thought of the friendless heart
Shut up in a lonely place;
Oh, carry it forth, ere its life depart,
And give it the streams of grace!

Oh, carry it forth to a purer air
From its dark abode of pain,
Till the dust of self and the stains of pelf,
Are washed away by the rain.

—*The Quiver.*

PRUNING FRUIT TREES.

Why do we prune fruit trees? Ask this question of the orchardists of California, what answer would they make?

Three-fourths of them would probably answer: "We prune our tree to let the light into the fruit, and to properly form the heads of our trees." The other fourth would scratch their heads and perhaps have to answer: "We prune because our neighbors do, because it is the fashion." These are very lame reasons and have no force whatever. He that prunes to let the sunshine into the inside of the head of the tree as it is usually done from the inside outward makes the greatest mistake, for he has no use for light there, and exactly the means he employs to let the sunshine into the heads of his trees, results eventually in shutting it out very completely, for he begins by cutting the twigs from the center of his trees and trims outward, or in other words, begins at the trunk of the tree, or at the base of the large branches, cutting from them the smaller branches. This causes the foliage at the extremities of such branches to thicken up, and by such continued cutting from the inside of the head, the foliage will become so thick at the outer end of the branches that eventually no fruit or new twigs can grow in this space, with the result that he will have the poorest possible tree for fruit, or, in fact, a cluster of high headed trees all growing from the same root—one that a person could stand at the trunk of and not be within ten or twelve feet of a leaf or fruit. I have seen thousands of such trees; old trees forming a half-globe with fifteen to twenty feet of lost space in their heads, with long, bare branches with dense clusters of leaves and a few small fruits of apples at their extreme outer ends. That is the result of cutting out the inside of the head of a tree to let the light in, and the cure for such a result is as bad or worse than the cause. The usual practice is, when the tree will no longer bear any good fruit, to cut a number of the main branches entirely out. This may result in giving a crop or two of fairly good fruit, but as the chance for foliage (and foliage a tree must have to live) is only at the end of the branches left, the opened space is soon closed up, and the case is worse than it was before, for the wounds made by cutting such large branches do not heal, decay sets in and soon permeates the whole tree.

Therefore, I say all such pruning is wrong, and also say that all pruning of trees in orchards until twelve or fifteen years after planting is wrong, very wrong, for start their heads at the right height, according to the vigor of the variety, and do no pruning whatever, they will give more and better fruit than they can do under any system that can be adopted. Let all orchardists try this plan on at least a few trees and see if it is not the right one. I have; tried it thoroughly and know it is.

The idea of getting out the central branches so as to "form the top goblet shape" seems to me very unsound, and the result would be a tree that would all split asunder with its first heavy crop of fruit unless every branch was propped up. Some fruit growers want more sun and air in the inside of the head of the fruit trees, and this is exactly what experience has taught me we do not want at all, and what we always have too much of from the bright skies of the prairie states and California. One of the two very worst enemies are these two things, especially too much sunshine. And this brings up the great question of why we think we must prune to get good fruit.

We inherited our notions about pruning largely from the British islands and Western Europe. In these countries, especially England, the greatest want is more sunshine. They are obliged to prune their fruit trees to mere skeletons so as to get a little light to the fruit. Here, the best fruit in every way is such as can be grown shaded by the foliage. Besides, our fruit trees are mostly brought from those cloudy, foggy, wet climates, and of necessity must be acclimated in our bright ones. Such it seemed to me was our only excuse for pruning, and if we give it one moment's thought we will see that it is no excuse at all, and should lead us to the reverse of their practice.—*Rural Press.*

WANTED TO GET OUT.

A VOICE THAT STARTLED AN EXPRESS MESSENGER.

He was an express messenger on the Santa Fe a few days ago, says the Kansas City *Journal*. It was a night run, and there were two messengers in the car. Just as it began to grow dusk the train stopped at a small station and a dead body was taken aboard. Nothing in particular was thought of this, however, and as there was nothing to do, and the train would not stop again for a long distance, both messengers prepared to go to sleep. One of them decided that the box containing the body would be a good place to rest on, and so he arranged himself comfortable thereon and went to sleep.

How long he slept has no idea, but suddenly, as if in a dream, he heard a voice say:

"Let me out?"

The messenger started, lay half awake for a moment, when in no uncertain tones came the words, apparently from within the head of the box on which he slept:

"I—n you, let me out."

It was quite a distance from where the box lay to the other end of the car, but the messenger is positive he cleared it in two jumps. Trembling with fear, he shouted to his companion, but before he had a chance to tell his story that self-same voice exclaimed:

"I want to get out of here."

Neither of the men spoke for a moment, and then the one who had first heard the voice said: "Jim that corpse wants to get out."

Jim thought for a moment and then said: "Well, I reckon it wouldn't be right to keep him in there if he wants to get out."

So the two cautiously made their way to the head of the box and debated what to do, when the same muffled voice was heard to remark:

"Polly wants a cracker!"

Then the mystery was explained. Some one at Denver had expressed a parrot to a friend in Kansas City. Its cage had been set away and forgotten, and the bird had naturally become hungry and thirsty. So it waited as long as it could, and then made itself heard in the manner that so horrified the express messenger.

Pomona, Cal., August 18.—Hiram Bell and family of Ontario were driving to Lugonia beach this afternoon for a vacation of a few weeks. They rode in a large covered wagon. While passing through Pomona Mr. Bell, who had been holding his infant child in his arms, laid it down to assist his wife in driving. For a moment his attention was attracted from the baby, which rolled off the wagon seat and fell beneath the wheels. The child's head was terribly crushed, and death followed a few minutes later.

Chicago Editor—See here, sir, this won't do. You refer to the lamented Mr. Greatman of Chicago as having been "gathered to his fathers."

New Man (from the East)—It is a Biblical term, sir, and I have seen it used in Philadelphia.

"It won't do here. Mr. Greatman's mother was divorced and remarried half a dozen times, and it might look like a reflection on the family."

Beauty

Is desired and admired by all. Among the things which may best be done to enhance personal beauty is the daily use of Ayer's Hair Vigor. No matter what the color of the hair, this preparation gives it a lustre and pliancy that adds greatly to its charm. Should the hair be thin, harsh, dry, or turning gray, Ayer's Hair Vigor will restore the color, bring out a new growth, and render the old soft and shiny. For keeping the scalp clean, cool, and healthy, there is no better preparation in the market.

"I am free to confess that a trial of Ayer's Hair Vigor has convinced me that it is a genuine article. Its use has not only caused the hair of my wife and daughter to be

Abundant and Glossy,

but it has given my rather stunted mustache a respectable length and appearance."—R. Britton, Oakland, Ohio.

"My hair was coming out (without any assistance from my wife, either). I tried Ayer's Hair Vigor, using only one bottle, and now have as fine a head of hair as any one could wish for."—R. T. Schmittou, Dickson, Tenn.

"I have used Ayer's Hair Vigor in my family for a number of years, and regard it as the best hair preparation I know of. It keeps the scalp clean, the hair soft and lively, and preserves the original color. My wife has used it for a long time with most satisfactory results."—Benjamin M. Johnson, M. D., Thomas Hill, Mo.

"My hair was becoming harsh and dry, but after using half a bottle of Ayer's Hair Vigor it grew black and glossy. I cannot express the joy and gratitude I feel."—Mabel C. Hardy, Delavan, Ill.

NOTICE

Of the Intention of the City Council to Extend Water Mains on East Temple and Seventh South Streets.

NOTICE IS HEREBY GIVEN BY THE City Council of Salt Lake City of the intention of such Council to make the following described improvement, to-wit: Extending and laying iron water pipes or mains along the following streets, namely: Beginning at the terminus of the mains on East Temple Street at the intersection of Fifth South Street, and running thence southward along East Temple Street to Seventh South Street, thence eastward along Seventh South Street to a point midway between First and Second East streets, and defray three-fourths of the cost thereof, estimated at six thousand nine hundred and seventy-five dollars ($6,975,) by a local assessment upon the lots or pieces of ground within the following described district, being the district to be affected or benefitted by said improvement, namely:

All of lots 6, 7, 8 and 1, block 33;
All of lots 2, 4, 5 and 6, block 34;
All of lots 7, 8, 1 and 2, block 22;
All of lots 5, 4, 3, 2, 1 and 8, block 21;
All of lots 6 and 7, block 15;
All of lots 3, 6, 7 and 8, block 16;
All of lots 4 and 3, block 20;
All of lot 4 and 5, block 17. All in plat A, Salt Lake City Survey.

All protests and objections to the carrying out of such intention must be presented in writing to the City Recorder on or before Tuesday, August 28th, 1888, being the time set by the said Council when it will hear and consider such objections as may be made thereto.

By order of the City Council of Salt Lake City, made August 3d, 1888.

HEBER M. WELLS, City Recorder.

SALT LAKE CITY, August 4th, 1888.

LEGAL NOTICE.

In the Probate Court in and for Salt Lake County, Territory of Utah.

In the Matter of the Estate of John P. Davis, deceased.

Order appointing time and place for Settlement of Final Account and to Hear Petition for Distribution.

ON READING AND FILING THE PEtition of Daniel Lunn administrator, with the will annexed, of the estate of John P. Davis, deceased, setting forth that he has filed his final account of his administration upon said estate in this court, that all the debts have been fully paid and that a portion of said estate remains to be divided among the heirs of said deceased, and praying, among other things, for an order allowing said final account and of distribution of the residue of said estate among the persons entitled.

It is ordered that all persons interested in the estate of the said John P. Davis, deceased, be and appear before the Probate Court of the County of Salt Lake, at the Court Room of said Court, in the County Court House on the 28th day of August, 1888, at 11 o'clock a. m., then and there to show cause, why an order allowing said final account, and of distribution, should not be made, of the residue of said estate among the heirs and devisees of the said John P. Davis, deceased, according to law.

It is further ordered that the Clerk of this Court cause copies of this order to be posted in three public places in Salt Lake County, and published in the DESERET EVENING NEWS, a newspaper printed and circulated in Salt Lake County, three weeks successively prior to said 28th day of August, 1888.

ELIAS A. SMITH, Probate Judge.

Dated July 28th, 1888.

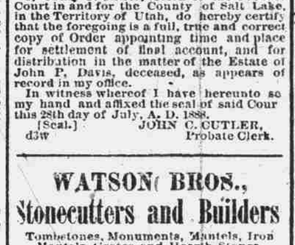
THE PATENT

Wire Gauze Oven Door

IS THE LATEST IMPROVEMENT ON THE



It Produces Practical Results in Baking and Roasting never before attained in any Cooking Apparatus, and will

Revolutionize the Present Methods of Cooking

ITS THEORY

Is that all Food Baked or Cooked, should be cooked in fresh air freely admitted to the oven. This is done by discarding the close oven door heretofore used, and substituting for it a door containing a sheet of Wire Gauze nearly as large as the door itself.

Through this Gauze Door the air freely circulates, facilitating the process of cooking, and producing food that is unequalled in flavor and nutrition, and actually cooked with less consumption of fuel than in an oven with a closed door.

It makes an enormous saving in the weight of meat.

It also produces larger Loaves of Bread, requires less attention from the cook, and promotes the health of the family by the SUPERIOR QUALITY OF THE FOOD COOKED IN IT.

OPINION OF AN EXPERT.

MRS. MARY B. WELCH, Teacher Domestic Economy, Iowa State University, says: "My deliberate judgment is that the oven of the Range, as compared with others, is not only more equally heated in every part—front and rear—but as a result of its superior ventilation the food placed therein is better cooked, while retaining a sweeter flavor, and a larger proportion of its best juices. I find, also the consumption of fuel in this Range is much less than any other for same work.
