

IMPEACHMENT OF JUDGE SWAYNE.

House Committee on Judiciary in
Its Report Recommends Pro-
ceedings Against Him.

HARSH, CRUEL AND TYRANNICAL

Said to be Under Malign Influence of
A Bad Man—Charged With Vi-
olating U. S. Statutes.

Washington, March 25.—(Resolved,
That Charles Swayne, judge of the
district court of the United States in
and for the Northern district of Florida,
be impeached of high misdemeanor.)

This is the recommendation of the
house committee on the judiciary to
the house in the report of the commit-
tee filed today by Representative Pal-
mer of Pennsylvania, chairman of the
sub-committee which investigated the
case against Judge Swayne. After dis-
cussing the charges in detail against
Judge Swayne, the report concludes as
follows:

"Judge Swayne has so conducted
himself as to earn the reputation of
being susceptible to the malign influ-
ence of a man of notoriously bad char-
acter.

"He has shown himself to be harsh,
tyrannical and oppressive, unmindful
of the common rule of a just and up-
right judge.

"He has continuously and persistently
violated the plain words of a statute
of the United States and subjected
himself to punishment for the commis-
sion of a high misdemeanor.

"For these reasons the honor of the
judiciary, the orderly and decent ad-
ministration of public justice and the
welfare of the people of the United
States demand his impeachment, and
removal from the high place which his
conduct has degraded."

ARMY-NAVY WAR.

Admiral Dewey Resents Intrusion
Of Army Into Naval Affairs.

Washington, March 25.—At a meet-
ing of the joint army and navy board
a few days hence Admiral Dewey and
Rear Admiral Sigsbee, representing the
general board of the navy, will open
war on the proposed intrusion of the
army into naval warfare.

Admiral Dewey wants a decision now
on whether there is to be one navy or
two. If the joint board decides that
there shall be two admirals, Dewey
will carry the fight into Congress.

The objection is to the proposed pur-
chase of submarine boats to operate
with the land batteries in harbor de-
fense work. Admiral Dewey's oppo-
sition is based on the theory that if the
war department get one submarine it
soon would want more, and that it then
would seek to have monitors and bat-
teries built for the defense of bat-
teries.

Fire Forces Patients Out.

Escanaba, Mich., March 25.—A fire
in the county hospital caused a panic
among the 60 patients, many of whom
were forced to leave the building by
means of ladders and fire escapes.
Some who were thought to be at the
point of death were compelled to stand
outside in deep snow for half an hour
before shelter was found. Many of the
patients may never recover from the
effects of the exposure. Financial loss
small.

Gold Bricks from Alaska.

Seattle, Wash., March 25.—The

tle. The balance will be forwarded to
San Francisco. The vessel also brought
20 tons of fresh halibut from Juneau
and Wrangell narrows.

The ship had 33 passengers. No bad
weather was encountered on the trip,
but it was unusually cold.

Has Accomplished Much in Way
Of Avoiding War.

Paris, March 25.—Gen. Reyes has left
Paris for Bordeaux, whence he will
start today for Colombia. Before his

have been opposed to war throughout
and I feel that I accomplished a great

deal in avoiding actual hostilities. I
return with the same pacific spirit,
feeling that it is for the benefit of
civilization. There will be no re-
course to war, and I am also desirous
of avoiding placing any obstacle in
the way of building the canal and
otherwise carrying out the canal pro-
ject, which will result to the benefit
of Colombia by increasing business
activity in that region and inducing
the investment of American capital.

"Concerning the differences between
the United States and Colombia and
Colombia and Panama, I hope and be-
lieve they can be arranged in a man-
ner honorable to all concerned. The
matter of adjustment is a question for
the future, but it will be my policy if
I accept the presidency to seek an hon-
orable adjustment.

"Recy. Hay's suggestion of a plebis-
cite in Panama seems to be a good
plan. I do not doubt that some way
of arriving at a settlement will be
found."

The general gave the impression that
he was likely to accept the presidency.
The inauguration will take place on
Aug. 7.

FRANZ SIGEL'S SON.

While Insane He Tries to Kill a
Neighbor's Wife.

New York, March 25.—Rudolph F.
Sigel, a son of the late Gen. Franz
Sigel, has tried to kill Mrs. Urah,
the elderly wife of a neighbor at Egg
Harbor, N. J. Sigel, who had been dis-
charged from an asylum where he had
been under treatment, settled near Egg
Harbor several years ago, and took
up the work of cultivating berries and
other crops. He acted strangely at times,
but was considered harmless.

Early in the morning he suddenly
walked into Urah's house and attacked
the old lady with a knife. She received
several stabs in the head and neck, but
escaped from the house screaming for
help. Policemen captured the madman,
who was hurried to an asylum.

Several hours later, it was discovered
that one of the Sigel children was mis-
sing. It is now feared that it was
killed and the body hidden.

L. W. SHURTLEFF TALKS.

Says He is a Mormon but Not a
Polygamist.

St. Louis, March 25.—Judge L. W.
Shurtliff of Ogden, Utah, president of
the "Mormon" Church for the district
embracing Ogden, and an intimate
friend of President Joseph P. Smith of
the "Mormon" Church, is in St. Louis
in the interests of the Utah world's fair
commission. Speaking of "Mormon-
ism," he said:

"I am a 'Mormon' but not a poly-
gamist. Of course, some 'Mormons'
who had plural wives before the mani-
festo against polygamy was issued by
the Church have continued to live with
them. President Joseph Smith, so
stated on the witness stand recently. I
think it took a great deal of nerve for
a man to get on a witness stand and
make such a statement, but President
Smith was equal to the occasion."

To Save Bonilla's Life.

New York, March 25.—Friends in this
city of Dr. Policarpo Bonilla, ex-pres-
ident of Honduras, who is reported to
be in prison under sentence of death on
a political charge, are preparing a pe-
tition to save his life. It will be for-
warded in a few days to President
Manuel Bonilla, who is not related to
the former chief executive. The sign-
ers believe Bonilla's offense lay only in
his advocacy of free speech.

Wisconsin Wins Insurance Case.

Madison, Wis., March 25.—In the cir-
cuit court the case of the state insur-
ance commissioner against the Equi-
table Life Assurance Society of the
United States was decided in favor of
the state. The case is one in which
the state sought to compel the insur-
ance company to distribute several
million dollars of surplus funds among
policy holders in Wisconsin. The case
will be appealed. The suit affects near-
ly \$200,000,000 of surplus that has been
withheld by insurance companies doing
business in Wisconsin for the last 30
years or more. The decision will af-
fect more than 30 companies.

FIVE NEGROES SHOT TO DEATH.

Were Taken from the Guards by
A Crowd of Masked Men
And Murdered.

MAKES NINE IN ONE WEEK.

The Killings Are the Result of Race
Troubles—Mob Now in Pursuit
Of More Victims.

Little Rock, Ark., March 25.—A spe-
cial to the Arkansas Gazette from De-
Witt, Arkansas county, says five ne-
groes, who had been arrested as a re-
sult of race troubles at St. Charles,
were taken from the guards by a crowd
of men and shot to death.

The victims were Jim Smith, Charley
Smith, Mack Baldwin, Abe Bailey, Gar-
rett Flood.

This makes nine negroes that have
been killed within a week on account of
race troubles. The killing of Randall
Flood, Will Baldwin and Will Madison
by a constable's posse Wednesday
morning, while the posse was seeking
two negro offenders named Griffin, be-
gan the slaughter. The search for the
sheriff's posse was fired on by a negro,
Aron Slinton, from ambush. The posse
returned the fire, killing Slinton.

Five other negroes, Jim Smith,
Charles Smith, Mack Baldwin, Abe
Bailey and Garrett Flood, were ar-
rested. Last night a crowd took them
away from the guards and shot them to
death.

It is reported late this afternoon that
the Griffin boys have been captured. If
so, probably they will be killed.

Campaign Against Yellow Fever.

Guanajuato, Ecuador, March 25.—An ac-
tive campaign against the spread of
yellow fever and malaria, involving the
destruction of mosquitoes, has been
started here as the result of suggestions
of Dr. Gruener, the resident officer of
the United States marine hospital ser-
vice.

Riots in Marseilles.

Marseilles, March 25.—Riots of a
somewhat serious nature attended the
strike of the dock workmen yesterday,
owing to the efforts of the police to pre-
vent picketing. There were numerous
collisions between the police and the
rioters in which several men were in-
jured. None of the strikers was suffi-
ciently injured to entail hospital treat-
ment. A few arrests were made, but
the prisoners were soon released.

Pauline Hall After a Divorce.

New York, March 25.—Divorce pro-
ceedings have been instituted here by
Pauline Hall, the actress, against Geo.
B. McLellan, the well known theatrical
manager, whom she married in 1892.

Rosa Delmonico Dead.

New York, March 25.—Miss Rosa Del-
monico, last of the immediate family of
the famous Swiss restaurateurs, is
dead at her home here. She was 65
years old and died within a month ago
had maintained full charge of the busi-
ness which fell into her hands upon the
death of her brother 20 years ago.
Her sisters' sons, who have taken the
family name, will now take control.

Steering Rates Cut.

New York, March 25.—Another cut
has been made in westbound steering
rates, this time by lines carrying Hun-
garian immigrants to New York. The
rates are reduced by five continental
dollars in one instance from \$24
to \$24.50. These companies apparently
are aiming at the Cunard, which has
invaded the Mediterranean field and
will establish a line next month, with,
as stated, the co-operation of the Aus-
trian authorities.

Christian Ministry Interests.

New York, March 25.—To stimulate
interest in the Christian ministry as a
profession, a conference of representa-
tives of 40 leading eastern educational
institutions is being held here at Union
seminary.

President Hall of the seminary, in
opening the conference, declared that
the pressure on educated young men
not to enter the ministry is tremen-
dous, and that the drift of college grad-
uates has been away from theological
seminaries.

Russia's New War Minister.

St. Petersburg, March 25.—Gen. Sa-
khharoff, the new war minister, like Gen.
Kurapatkin, is devoted to his profes-
sion. He evades social functions,
where he is seldom seen except on state
occasions. The minister has distin-
guished himself as a fighter. With 17
scouts he routed 100 Turks and later
carried orders at Shipka Pass under a

hot fire, for which he was promoted
colonel.

Gen. Sakharoff had been chief of the
general staff since 1898, and brought
the mobilization department to a pitch
of excellence unrivaled except by that
of the German army. He is known as a
tireless worker who rises at 5:30 in
the morning and goes to bed at mid-
night.

HALL PLEADS GUILTY.

To Indictment Charging Larceny
Of \$238,000.

Boston, March 25.—Wallace S. Hall,
formerly manager of the Boston office
of the American Surety company of
New York and treasurer of St. Luke's
home for convalescents, has pleaded
guilty to indictments charging larceny
of \$238,000 from those institutions. Sen-
tence has not been passed.

To Modify Alaska Mining Laws.

Washington, March 25.—The senate
committee on territories has authorized
a favorable report on the bill to modify
the mining laws of Alaska, the most
important change restricting each per-
son to not more than one claim on any
one creek. The committee authorized
a favorable report on a bill to exempt
the Western Alaskan Construction com-
pany from paying the tax on railroads
of \$100 a month. The exemption is
limited to five years, with the provi-
sions that the company build ten miles
of road each year. The Western is the
only railroad in Alaska.

Prize for Flying Machine.

Paris, March 25.—M. Deutsch having
offered a \$5,000 prize for the first fly-
ing machine making a flight in a circle
of one kilometer, Ernest Aardheacot
has added a like sum and has appealed
to the sporting press for further sub-
scriptions.

Gift for Sick and Wounded.

St. Petersburg, March 25.—The em-
press has accepted, with an expression
of great pleasure, the \$5,000 donated by
the Westinghouse company to her fund
for the relief of the sick and wounded.

No Arbitration Treaty Proposed.

Berlin, March 25.—The foreign office
informs the Associated Press that the
report that the Great Britain proposed an
arbitration treaty to Germany in Janu-
ary and that the matter has been under
consideration since that time is un-
founded.

FIGHT WITH A MADMAN.

Italian Sailor Shot the Officer
Who Tried to Iron Him.

New York, March 25.—Details have
been received here of a fight which oc-
curred aboard the British steamship
Arabian, bound from this port to
Montevideo, in which a mad Italian
stoker had killed a fellow stoker and
then shot down all the officers who tried
to put him in irons.

The vessel sailed for the south Feb.
11. When nearing Bahia, the Italian
struck down another stoker with a bar,
and then, in a fit of madness, the cap-
tain, who ordered him in irons. Drawing a
revolver the man shot down every one
who approached, and fled to the hold.
A hose was trained on the hatchway
and he was kept below until the ship
locked at Bahia, where the authorities
dragged him ashore, charged with mur-
der, two of the wounded men having
died. The captain, who was severely
wounded, has recovered.

Government Wins Bark Suits.

San Francisco, March 25.—Four suits
brought by the United States against
persons for unlawfully cutting and re-
moving tan bark from government land,
have just been decided by United States
Dist. Judge De Haven in favor of the
government, but for amounts less than
those demanded in the complaints. The
trespass was committed upon lands in
Mendocino and Humboldt counties.

Barley for Japan.

San Francisco, March 25.—One thou-
sand tons of barley for the Japanese
government is to be carried by the
steamer Coptic, sailing on April 2 for
the Asiatic coast. This is part of a
large shipment ordered some months
ago, before hostilities began with Rus-
sia. Several hundred tons of the barley
were sent out on the Siberia, but the
bulk of it is to go on the Coptic, and
the disability of most of the Russian
warships on the coast of Asia makes it
almost certain that the grain will reach
Yokohama in safety and not be cap-
tured by the czar's ships for the cos-
sack cavalry.

Liability for Transfer of Bonds.

New York, March 25.—A decision has
been handed down by the appellate di-
vision of the state supreme court af-
firming the decision of Justice Scott in
which a member of the New York stock
exchange and three railway companies
were held liable for losses sustained
through the unauthorized transfer of
registered bonds. It is the first decision
of that nature and was based on the
suit of the Jennie Clarkson home for
children, the treasurer of which sold
through a broker a lot of bonds with-
out which the home was ended and fled
with the money. It was shown that
the treasurer had forged a resolution of
the home's directors enabling him to
procure the transfer of the bonds to his
self.

Human Dandruff Germs Denude a Rabbit!

CONVINCING EXPERIMENT by DR. SABOURAUD of the Pasteur Institute.

This experiment proves that dandruff is a contagious dis-
ease due to the presence of a microbe growing in the seba-
ceous glands of the scalp. It also proves that unless the
formation of dandruff is stopped—by destroying the germ—
it will lead to falling hair and incurable baldness. Prof.
Unna, Europe's noted dermatologist (ask your doctor about
him) was the first to discover the microbe nature of dan-
druff and baldness. His discovery was later verified by Dr.
Sabouraud, at the Pasteur Institute, Paris, France. The
doctor inoculated a rabbit with human dandruff germs and
in due time the rabbit began to lose its fur. "In between
five and six weeks," says the official report of the Pasteur
institute, "the rabbit was completely denuded, in fact it had
become entirely bald."

Dandruff is annoying. Falling hair is an injury. Baldness is a calamity.

If you are indifferent about your hair and let it "take care
of itself," you should not grumble when it is gone. Careful
people now try to save their hair and Newbro's Herpicide
enables them to do this in a very pleasing manner. It is
the first scientific HAIR-SAYER and it is growing wonder-
fully in popularity. Everyone should endeavor to protect
the scalp against dandruff infection and the surest way, is
to carefully avoid "exposure" to dandruff germs and to re-
ly upon Newbro's Herpicide as a scalp prophylactic. One
of the chief forms of "exposing" the scalp, is to use an un-
sterilized public hair brush. The hair brush should be as
exclusive as the tooth brush. It is important to remember
that:

1. Dandruff is a contagious disease caused by a microbe
2. Dandruff is a forerunner of itching scalp, falling hair and baldness.
3. Chronic baldness is incurable.
4. The CAUSE of dandruff can not be washed out of the scalp with soap and water.
5. The only way to cure dandruff and stop falling hair is to kill the germ that causes it.
6. The only safe remedy, so far discovered, that will absolutely kill the dandruff germ is Newbro's Herpicide.

Kill the scalp germ and the hair is bound to grow natu-
rally.

Almost marvelous results follow the use of Newbro's Her-
picide. It contains no oil, grease, sediment or dye. It de-
lights the ladies by keeping the hair light and fluffy and by
giving it a silken gloss.
