THE EVENING NEWS.

Friday, - - - August 12, 1870.

LOCAL AND OTHER MATTERS.

THE DISCUSSION.—It was omitted to be stated in the hand bills and placards concerning the discussion between Professor Orson Pratt and Dr. Newman that children under eight years would not be admitted. The public will please govern themselves in accordance with this arrangement.

TOO MANY.—We learn through a letter from J. J. Allred, of Shonesburg, Kane county, that during the last days of July, that place was afflicted with "grasshoppers by the million." Of a more pleasing character is the item that Bishop Anson P. Winsor had returned home from Pipe Springs in the Kanab region, where he had succeeded in gathering between two and three hundred head of cattle and had planted thirteen acres of land with barley and corn, potatoes and other vegetables. Shonesburg had its celebration on the 24th of July and had just as lively and happy a time as any of the older settlements.

FLOCKING.—As we go to press, the streets in the vicinity of our office, are filled with streams of interested citizens, who are all wending their way in the direction of the Tabernacle, giving evidence that Prof. Pratt and Dr. Newman will have a large audience at the opening session of the discussion. We presume, however, that the interest of the people will increase as the discussion goes on, and that as the news spreads farther and wider, they will have increasingly large congregations.

THE DISPATCHES to-day are interesting with news from the seat of war in Europe. From the accounts, both French and Prussian, the French defeat at Froschweiler, on Saturday, was great; their losses are said to have been beyond computation, while all the officers of McMahon's staff were either killed or wounded; the wounded, on both sides were arriving from the field in hundreds; the scandalous tumult and confusion in the Corps Legislatif and the prospects before France are items which everyone will be more or less interested in.

TO THOSE DESIRING VACCINATION.—Dr. Murphey, of Second South St., has some pure vaccine lympht, procurred from thoroughly healthy subjects, with which he is prepared to accommodate his patrons and all who wish to be vaccinated or to have the operation performed on their children.

ABATING.—We were pleased to meet Judge F. D. Richards, of Ogden, this morning. He informs us that the small pox is abating in that city and the sick are doing well, the energetic and prudent measures adopted by the city officers with regard to this disease are bringing about the desired results.

SMALL POX IN TOOELE.—We were informed this morning, by Dr. Clinton, that he returned yesterday afternoon, from a flying visit to Tooele, whither he had been called as quarantine physician, by the Mayor of that city, to examine into a case of supposed chicken-pox, which had appeared on a child who had been lately taken by a relation on a visit to Ogden. Dr. Clinton, however, found it to be small pox, and prompt and effective measures were at once taken to prevent the spread of the disease. Dr. Clinton considers the authorities in Tooele deserve much commendation for the energy they have manifested in the affair.

PLEASURE PARTY.—An invitation having been extended by the Superintendants of the 13th Ward Sabbath School, to the teachers, scholars and friends of the same, to enjoy a day's recreation and amusement at the gardens of Bro. Mark Lindsey, 20th Ward; yesterday was the day appointed for the holliday and between three and four hundred persons responded to the invitation, who spent a most pleasurable and happy day amidst the attractions of those gardens. That no accident might happen and to prevent the monopoly of the swings and other attractions to the juveniles, a number of persons were appointed to take charge of the amusements. About noon two bands of music arrived to enliven the party, and the afternoon was spent in dancing, singing, games of various kinds and a few short addresses were delivered. We know of no place of equal attraction, so easily accessible to the children of the city and containing so many delights for their youthful minds as Bro. M. Lindsey's pleasure ground.

MENDON.—Veritas, writing from Mendon, Cache Valley, on the 3rd instant, says: "In these days of Co-operation and unity, we as a settlement are trying to keep pace with the times. Our Co-operative store is in a very healthy condition, is doing a flourishing business, and gives general satisfaction. The shareholders are buying a threshing machine to be worked on the co-operative principle, and I believe it is their intention to work it for 'what will pay' and not 'what can be made.' I hope a co-operative cheese factory will soon be established here, for there is no place in the Territory where greater facilities exist for carrying on this profitable branch of business. Notwithstanding the damage done by the grasshoppers we are reaping tolerably good crops. We had a glorious time on the 24th, and our election passed off in peace and good order."

TRAVELING.—The *Capital Chronicle*, published at Boise City, Idaho, says that portion of the Great West is in a flourishing condition. "The grain is ripening rapidly, and farmers are busily engaged in harvesting; melons are coming into market quite plentifully; ripe tomatoes are plenty on the Ranche; grasshoppers are injuring some portions of the valley; harvest hands are scarce and wages high; crops were never better in Idaho."

DON'T DO IT.—You boys who are in the habit of running after cows, while taking the herd out and bringing it home, until the poor animals become breathless, had better stop it, for it injures them not a little. Remember the good they do, and cease abusing them, not only by chasing them, but with rocks and sticks, or in any way whatever. Let this suffice, boys.

Z. C. M. I. DRUG DEPARTMENT.

AVERILL

Chemical Paint Company's PAINT.

THIS PAINT COMPRISES

Nearly Every Shade of

COLOR.

It Retains a Beautiful

SURFACE GLOSS,

Which is susceptible of being improved rather than diminished by the application of

SOAP AND WATER.

It is Ready Mixed

TO THE PROPER CONSISTENCY FOR USE

But, when exposed for any length of time, in open cans, it thickens, and

CAN BE THINNED WITH BOILED **Linseed Oil.**

☞ In applying it, the operator must not work too long on it with the brush, but apply it quickly and decidedly, as it partakes more of the nature of Varnish than of ordinary Paint.

Its Principal Constituent is

NOT LEAD BUT PURE ZINC.

AS EVIDENCE OF ITS FIRE-PROOF QUALities the following extract from a communication is appended:

BAY CITY, MICH., June 22, 1870.

Averill Paint Co.,
Cleveland, Ohio:

We have had a splendid test of the fire proof qualities of your Paint on the Episcopal Church. A heavy fire, adjoining, burned the paint to a black char, but the wood was uninjured, except in spots about the cornice, where the boards were burned off. The carpenters are now at work scraping off the burnt paint and the painters will cover the same boards again with the Averill Paint. Our insurance men are delighted with it, and that has secured us several orders. Even the painters say that it beats everything they ever saw.

Truly, Yours
Braddock & Hotchkiss

Sold in quantities of not less than One Gallon.

Purchasers must bring THEIR OWN CANS.

H. B. CLAWSON,
SUPERINTENDENT.

d217 tf

HOME AGAIN!

THE undersigned wishes this community to call on him and get their **TEETH Cleaned and Repaired.**

Aching teeth cured. Filling and extracting done according to the latest improvements. New teeth, in partial, half or whole sets, **Cheap,** on **Gold, Rubber and Silver plates.** Diagonally opposite the U. C. R. Depot, 15th Ward, Salt Lake City.

REVOLUTION IN MEDICINE!

THERE is no disease but walkeo's Vinegar Bitters will cure. Their great success in healing all ailments is proving to the world that Doctors are the greatest humbugs of the age. Mr. Walker challenges the medical fraternity to show him a disease for which his BITTERS are not a cure, and if it can be done he stands ready to donate FIVE HUNDRED DOLLARS to any benevolent Institution in the United States to be, named by the person who will prove that the above assertion is not true
