

TWO EARTHQUAKES VISIT SALT LAKE

The Disturbance Extends From Southern Idaho Points to Midvale.

TREMORS DISTINCTLY FELT

No Extensive Damage Was Done, However, Though Many Walls Cracked Slightly Over City.

Earthquake shocks were felt last night in this city and throughout a strip extending from northeast to southwest and from Malad, Lewiston, Preston and other southern Idaho points to the north to a point slightly north of Lahi and American Fork. The strongest disturbances were recorded at a point about 11 miles north of Ogden. As far as can be learned no extensive damage was done. Geologists are in the hills today looking for possible upheavals and open seams. The average of reports from various places puts the shocks at occurring at 7:30 and 8:20. The record of the seismograph at the University places the time for the Salt Lake valley at 7:41 for the first shock and 8:21 for the second. Both shocks lasted for several minutes. Professor Fred J. Pack of the University assigns as the cause of the seismic disturbance, a shifting of rock ledges in the Wasatch mountains. Brigham City and Logan report the disturbances as occurring at 7:30 and 8:20. From Preston, Lewiston and other Idaho points the reports are to the effect that the shock was made light but keenly perceptible and as occurring shortly before the time given at Logan and Brigham City. At Park City the shock was not felt. At Ogden it was felt strongly, while at the Hot Springs north of Ogden the wave was extremely heavy. At some points the force of the disturbance was so great that generators were temporarily out of commission and the power lines in consequence were dead for a short time. In other places the power lines were not interrupted.

QUOTES PROF. GILBERT.

Professor Fred J. Pack of the University is of the opinion that the shocks of last night may have been merely forerunners of greater disturbances. He quotes Prof. Gilbert in regard to this view, stating that the basin is under a peculiar geologic structure known technically as fault planes. These may cause a readjustment of the more recent strata, and in the "slipping" may cause the greater shocks. The geological aspect of the possibility is a journal of the California shocks on April 15, 1906. Prof. Gilbert of the U. S. geological survey has repeatedly forecast the destruction of this region by earthquake. The experiences of many Salt Lakeers have come into the news offices today by telephone. The reports indicate they are the same that the houses seemed to shift from under them, walls to crack, dishes rattled, windows cracked in some cases, people on streets covered in their sleep, and a distinct nausea. Drop lights swung like pendulums and those in the higher stories of large buildings reported strong tremors. The sensation being much like that to be had in a small boat when riding a wave.

At Saltair last night the disturbance was peculiar. Attendees who were in the shooting gallery at the time report that the swinging targets and ceiling commotion. A cat which has adopted Saltair as a home rushed from her sleeping mat and jumped into the lake out of sheer fright. It had not swam a marked degree. The building swayed under the influence of the tremor and the attendants were of the opinion that a pile was sinking under them. The lake was set in motion to a marked degree. The building started rolling over the bathhouse pier. Many of the buildings today show evidence of the severity of the shock, being twisted, boards cracked and leaning far from the perpendicular. At Lucin cut-off of the lake was rolling high and waves passed over the structure.

FELT SHOCK ON TRAIN.

Passengers on a northbound train when nearing Logan last night at the time of the shock felt the shock on the moving train. So strong was it that the engineer brought his train to a standstill and the disturbance had ceased. It was thought that the train was stopped and an examination was made. The train proceeded after the second shock. The Army in Pierpont street was shaken to quite an extent. The seams at the junction of the building cracked open throughout the building and in many places plaster was shaken from the ceiling. Rifles leaning against walls fell down and in the shop of the Signal corps the blue blouses and trousers were shaken from a shelf and upset.

Throughout the city many clocks stopped at the first shock. Operators in both telephone offices were restrained with difficulty from rushing from the buildings. At the hotels guests from California were especially perturbed, at the Keyton a party rushing from their rooms and into the street, not returning until after the second shock and then only when persuaded by some employees that such slight disturbances were common here and had never been known to do any damage. It is believed that the highest ground swayed the most and that if any evidence of the shocks is found at all it will be along the west slope of the Wasatch range. The north and east halves report heavy shocks and second homes in the higher districts report windows broken and a marked swaying of their beams during both shocks.

At the smelters south and west of the city molten metal in the huge pots was set in motion, and in one case at Midvale, stopped over the sides of a pot.

THE ONE TONIC FOR DELICATE PEOPLE

Nursing Mothers and Women Who Need More Strength Find Dr. Williams' Pink Pills Perfectly Adapted to Their Wants.

Some women recover their strength very slowly after an acute illness, after child-birth and other conditions of extreme debility. What is needed to assist nature is a tonic and, especially in the case of the nursing mother, one must be taken that is a safe tonic, one from which the increased strength of the mother will be shared by the child. Debilitated persons are very liable to have weak digestions and in such cases the tonic remedy must be one that is acceptable to the most delicate stomach.

Dr. Williams' Pink Pills give to the blood the elements necessary to make it pure and red. For this reason they are the best tonic for all run-down conditions of the body. The experience of Mrs. L. Davis, of No. 409 Park avenue, St. Paul, Minn., proves the worth of these pills. She says:

"For two years after the birth of my child I was in a greatly run-down condition. I was too weak to do my work. I was very pale and thin and reduced in weight. It seemed as though there was no blood in my veins. I could not get rest at night as I was very nervous. I was subject to splitting headaches. The doctors said I was suffering with lack of blood and was all run down. They did not know any good and I was discouraged. On one visit to the doctor he said that he would try one more thing and if that did not help me he did not know what to give me. When I left his office I took up the prescription and went to a drug store where I bought a box of Dr. Williams' Pink Pills. They seemed to help me and I soon began to have an appetite. I continued to improve until I could do my work and was finally cured."

If you are interested in the remedy that cured Mrs. Davis, write today for our booklet, "Diseases of the Blood." It is free and will be sent postpaid. Dr. Williams' Pink Pills are sold by all druggists, or sent, postpaid, on receipt of price, 50 cent paper box; six boxes for \$2.50, by Dr. Williams Medicine Company, Salem, N. Y.

and barely missed several handlers. No accidents are reported from any points, however, in consequence of the disturbance.

TREMORS WERE PURELY LOCAL.

Dr. Pack, in a statement to The News this morning, said that the shocks places them at 7:41 and 8:24:45. The first shock is conclusively shown by the record to have been the most severe. We were particularly fortunate in seeing the record of the second shock made, which is a very rare privilege. I would say that the disturbance was purely local and was caused by a slipping in the fault plane in the northern portion of this fault plane. Salt Lake lies directly in this great fault plane and recently, speaking geologically, a great earthquake visited this section as the result of the great fault movements at Farmington and at the mouth of Cottonwood canyon. If such a disturbance as this should visit this region again, I am sure that not a house would be left standing in this valley. The disturbance which I mention as having occurred recently, occurred since the Lake Bonneville period, but I could not place it in an expression of years.

Prof. Pack said that he would have at the fair tonight records of last night's earthquake shocks for general distribution.

ACHES AND PAINS.

You know by experience that the aches and pains of rheumatism are not permanently, but only temporarily, relieved by external remedies. Then why not use an internal remedy—Howe's Serravallo, which corrects the acidity of the blood in which rheumatism depends and cures the disease? This medicine has done more for the rheumatic than any other medicine in the world.

WOMEN MEET TOMORROW.

Opening of Sessions of State Federation of Clubs at 2 p. m. Tomorrow the 18th annual convention of the State Federation of Women's clubs will be held, opening at 2 p. m. at the First Congregational church, a program of unusual interest being planned, including an address of welcome by Gov. Speyer, greetings from Mrs. J. C. Boyle, an address of welcome from Mrs. E. D. Miller, president of the federation, and other officers, and other interesting features. From 2:30 to 3:30 the Holmes art gallery will be thrown open for the club women, and in the evening a reception will be held at the home of Mr. and Mrs. David Keith.

On Friday the visiting club women will be guests at a luncheon given by the federation at the V. M. C. A. luncheon and rest rooms, and the federation later will meet at the Ladies' Literary club for their afternoon session. In the evening a notable reception will be given at the First Congregational church, including a talk by the noted author Arthur Walbridge North, the meeting being open to the public. On Saturday a luncheon will be given at the Utah university, followed by a talk on domestic science by Miss Lucy Van Cott, and afterward an automobile ride will be organized for two hours. The Holmes gallery will also be open on Saturday from 2 to 3 o'clock p. m. Mr. H. L. A. Culver has consented to be present at both occasions to answer questions regarding the collection, with which he is familiar. Notable programs are planned for each session.

ON TRACK OF ROBBERS.

D. & R. G. Detectives Working on Glenwood Bank Case. Last week a gang of bandits robbed a bank in Glenwood Springs, Colo., securing \$10,000. The robbers escaped to the mountains and are now supposed to be located in the fastnesses of the Rockies. Besides the police and sheriff's department of Glenwood, the Denver & Rio Grande detectives are on the track of the highwaymen. It is thought the men who robbed the bank are the same ones who have perpetrated a number of train robberies during the winter. An abandoned camp was recently discovered on a ledge in the

remote mountains, sheltered by hills on three sides, and it is presumed the bandits held camp at this spot for some time. It is estimated that they have \$50,000 in loot and plenty of provisions so that they can withstand a long siege in the mountains if necessary.

WET FROM THE PRESS.

The October number of the Rocky Mountain Bell Telephone News is out, hot from the talented editorial quill of Editor A. G. Mackenzie. As usual, the Telephone News is full of good reading matter, with full text illustrations, including well written descriptions of the building of the new toll line through the Sheridan basin country, rapid service on toll lines, an account of a lively trip through Idaho by automobile (illustrated), and by no means least, "Some Company Weddings" with the just tones of two of the operator's biographies. The statement of collections, covering nearly a page, ought to attract any one interested in bookkeeping statistics. The typographical arrangement of the paper is as usual, attractive.

What Do You Think of the Best Known New Pianos Worth \$500, Selling for \$365? Well, this is just the kind of Bargains that are being offered every day this week, by the

CONSOLIDATED MUSIC CO. 109-11-13 Main St., This City.

The above offer is not on a Second Hand Instrument. It is on one of the regular line instruments just in from the factory. The reason for the big cuts in prices is that the big company is remodeling its enlarged premises, and stocks are in rather a disordered condition. To offset the consequent inconveniences, and stimulate trade just at this particular time, unusual and unequalled bargains are offered the people.

Buy Now If You Ever Intend to Buy at All. It is not believed that such Prices on Similar Values will Ever Again be offered in this State. This company certainly does not intend to duplicate them. There's a Necessity for them right now, which may not arise again.

Ten Dollars Will Take One Home. Just because the prices on Pianos and Organs are ridiculously low, don't run away with the idea that you must pay cash. This company is big enough to extend you all the credit you want, and they will make the payments very easy for you. Buy today.

Regular Line Pianos Are Selling Like This: \$450 Sample for \$328, \$450 and \$500 Pianos \$450 Instruments \$315, Best Known Makes \$368, \$400 Instruments \$296, \$350 Best Known \$365, \$400 Mission Style \$295, Make \$243.

Second Hand Piano Prices Unmercifully Slashed. \$4.00 Bush & Gerts \$185, \$500 Chickering Bros \$295, \$700 Chickering Sons \$365, \$500 Hardman \$217, \$325 Winter & Co. \$198, \$425 Lindeman \$193, \$425 Upright, maker's name withheld for \$280.

\$125 New Style Estey Organ Goes This Week at \$76. This is only a starter. There is \$120 Kimball Parlor Organ to be sold at \$67. Another of the Very Best Sellers among the Kimball line, worth \$100, will be offered to the first purchaser for \$59. And then there are four "Specials" will be sold this week at the remarkable price of \$58. These organs are all new and from the regular lines.

Utah's Greatest Piano and Organ Sale. Greatest because never before have such remarkable bargains been offered to the public, and because no other music house is now offering any inducements that approach those being offered by the Consolidated Music Co. An Unequaled Sale. No Time For Delays: You Should Buy Today. These bargains are being "snapped" up by the shrewd and careful buyers, those who want to make big savings on the purchase of pianos or organs. It's your loss if you do not buy now. Get busy, make up your minds, and come in today.

One-Third Off All Small Goods. Edison and Victor Talking Machines and Records excepted. All Band and Orchestra Instruments, Music Rolls, etc., will be sold during this Great Remodeling Sale at just One-Third off the regular prices. All new goods are in perfect condition. Better buy now while you've got such a big advantage. 5,000 Copies of the Latest Sheet Music to Be Sold at 10c. Two Big Companies Consolidated.
