

DESERET EVENING NEWS THE SEMI-WEEKLY NEWS

THE GREAT COUNTRY PAPER OF THE WEST

Is Issued Mondays and Thursdays and contains all the cream of the Daily and Saturday News.

LOCAL BRIEFS.

The level of the Great Salt Lake is reported one inch higher than at the same time last year.

There was a largely attended open air meeting Saturday night, in front of the Kenyon hotel, as the concluding revival meeting of the week, with Revs. D. A. Brown of the First Baptist church, and Benjamin Young as the speakers.

Last evening's lecture in the First Congregational church by Dr. Bancroft on the ravages of consumption was rather slimly attended, as the lecturer is not very well known here; but those who were there enjoyed the evening very much.

A valuable hound belonging to B. F. Redman was poisoned by strichnine yesterday, so that he had to be shot. The animal lay for some time on the sidewalk, helpless when its owner saw nothing could be done, and consented to have Policeman Brown shoot it.

G. S. Stummel was run down last evening, at State and Fourth South streets, by a buggy occupied by several young men who were evidently enjoying themselves. Stummel was unable to get out of the way in time, as he is a cripple. He escaped with a gash in his shoulder, and will be laid up for several days.

H. Senow, secretary of the Japanese-American industrial corporation, left last evening for San Francisco. He has been stomping in the city for several days. He spoke very hopefully of the early ending of the Japanese-Russian war and said that there could be only one ending and that would be a successful one for Japan.

The feast of the passover begins Wednesday evening next, with the Hebrews of this city. On Thursday morning there will be services in the Jewish temple on Fourth East street, the subject being "The Coming of the Messiah," and on Friday evening, Rabbi Freed will speak on the crucifixion from the Jewish standpoint.

Miss Grace Dell Davis made a fine address yesterday morning before the Patriotic Order Sons of Christian Endeavor. The attendance from town was up to the full number allowed, viz., 19, and for the visitors Miss Evans of the Central Christian church, was in charge and Hon. C. E. Marks, member of the last Legislature, gave the "boys" a successful one for Japan.

Wednesday evening at the West Side High school the annual contest for medals offered by the Sons and Daughters of the American Revolution, will occur. Those who will compete in patriotic declamations are Carrie Craddock, Josephine Devereaux, Daphne Bateman, Jenifa Glaser, Webster Cary, Roy Delighton, Joseph Alley, and James Alley.

Alfred Brown, a colored woman who has been arrested before for drunkenness, made considerable trouble for Patrolman T. J. Christensen. The woman was creating a disturbance in a roomhouse when the officer drove up with the wagon and proceeded to arrest her. He at once had his hands full. The woman broke away and dashed away over fences and through alleys. Officer Sperry relieved Price and the latter started in hot pursuit. He finally overhauled the woman and landed her in jail. Drunkenness and disorderly the peace are the charges against her.

The Mutual Provident association, composed of women employees and employers has secured a office at the corner of South Temple and Third East streets and will convert it into a home for members of the association and a general club house. The work is in the hands of Mrs. L. L. Archer, Mrs. Hal W. Brown and Mrs. H. C. Wallace, and has enough support to make the movement self supporting. A reading room is to be included, and donations of good literature are being collected. The house includes 15 rooms which will be rented to members who are employed ready for occupancy on the 1st of May.

Arrangements for the two spring debates on the University of Utah and other colleges, have been completed and bring both events on the same evening, May 12, while one team composed of Oscar Carlson, Henry Soule and Benjamin Howells, is debuting Denver university. In Salt Lake theater, another team composed of Karl Hopkins, Daniel Alexander and Dale H. Park with Mr. in debate with Colorado college at Colorado Springs. The question for the Denver debate is "Resolved, that the Monroe doctrine should be abolished," and for the Colorado college debate, "Resolved, that the closed shop system is beneficial to American industry." On both of these questions Utah supports the affirmative.

Beautiful services over the remains of Miss Lillian Broberg were held yesterday afternoon in the Seventeenth ward assembly rooms, Bishop Walter J. Beatie presiding. The house was filled with sympathizing relatives and friends, and touching music was furnished by the organists. The speakers were Elvina Goss, S. McAllister, Martin Christopher, George Reynolds, Mrs. Charles Williams, Andrew Jensen and Bishop Beatie. All referred in the highest terms to the sterling worth of the deceased, to her purity of life and her integrity to the cause of truth. There was a profusion of beautiful floral emblems, bearing mute testimony to the respect felt for the departed girl. Interment was in the city cemetery.

The Sixth ward Sunday school was reorganized yesterday forenoon. Elder Arnold G. Glauque, superintendent since 1895, was honorably released, as were also his assistants, Jas. N. Lambert and James M. Fulmer, Presidents William McLachlan and Charles H. Hyde of Pioneer stake. Superintendent Jas. N. Lambert, his assistants and several members of the Sunday school board were present. A pleasing incident was the presentation to the reorganized school a silver gold-lined loving cup engraved as follows: "Presented to Superintendent Arnold G. Glauque April 16, 1905. From the Sixth Ward Sunday School, in appre-

ciation of long and faithful service 1881-1905." Elder Hyrum H. Evans was sustained as the new superintendent, and Edward Eardley and Geo. A. Smith as his assistants. Elder Glauque's release was occasioned through his being a member of the High Council.

Zion's Savings Bank and Trust Co., the largest and oldest Savings Bank in Utah, pays 4 per cent interest on any amount from \$1 to \$5,000. Write to us. Dr. F. Smith, President; George M. Cannon, Cashier.

Quadrilles at Saltair Tuesday night. YESTERDAY'S LECTURES.

Dr. Talmage and Prof. Mill's Continuation Sun ay School Series.

The University Sunday school convened yesterday, and two most interesting lectures were given in the respective classes by Dr. Talmage and Prof. Mills.

Under the title of "Miracle and Parable," Dr. J. E. Talmage continued his series of lectures in the course on "Jesus, the Christ." The incidents following the eventful Sabbath in Capernaum, as treated in the last lecture, were followed, though with reiterated caution as to the uncertainty of chronology, of the exact details, and with repeated emphasis on the importance of such as compared with the invaluable lessons themselves. After the miraculous manifestations in the synagogue, Jesus retired to the home of Peter and there healed the wife of the future Apostle's mother. Then as the eve of the Jewish Sabbath came and passed, when it again became lawful for a Jew to bear burdens, the people flocking about him, beat him, then sought refuge in his house from their hostile father, Jones is now under arrest and will be given a hearing in the near future.

It appears that Anderson, who is a bar tender in the Green Light saloon on Commercial street, has a habit of coming home intemperately and making it desirable for his family to leave him alone in possession of the premises, they seeking what refuge might be most available. Especially is this so in the case of one daughter who sometimes entertained a young man whom the father did not care to have on the calling list. Yesterday the trouble started by the father's arrival with the young man was followed by his taking the family ax and chasing the young man with it not only clear of the premises, but a block down the street. The police were called by neighbors at this time and Officers Furster and Price responded. When they arrived they found the man had quieted down and as no one wished to appear against him, he was not arrested.

On the morrow, a great while before the dawn, he went into the desert to pray; and there the eager people found him out, but declaring that His ministry was not confined to that place alone, and intimating that His mission was not to be summed up in miracle working. He went through the towns of Gaffee, Provo, teaching the doctrine of the kingdom.

In the course of this journey a leper came to Him—one of those called accursed, ostracized from society, unclean both ceremonially and literally, doomed to wear the badge of infamy as for one dead, compelled to associate with fellow unclean ones for another, like himself. There was no light or recent attack of the dread disease with which the Great Physician had to deal; for we read that the man was "full of leprosy."

Seemingly setting at defiance the Rabbinical rules, certainly abrogating their binding limitations, He laid His hand on the leper, and the afflicted one was healed.

Then came the scribes and the Pharisees, doors of the temple to watch and criticize, perchance to marvel, assuredly not to worship. In their presence came several men bearing with them a paralytic, and finding the crowd too dense to penetrate, ascended with their burden to the roof and lowered the couch with the palsied patient into the room where the Master was. Seeing such a manifestation of faith in the leper, the scribes said, "This man is surely of God; for who else can forgive sins?"

The regular meeting of the Pioneer Stake Sunday School Union will be held Monday, April 17, at 7:30 p.m., in the Seventh ward assembly room. A full representation is desired.

JAMES N. LAMBERT, Sup't.

JESSIE BUCHANAN, Secy.
