

50,000 shares at the par value of \$40, per share. This will irrigate 50,000 acres of land. The stock was all taken up within 70 days after the corporation was affected. Overtures were again made to the government for support, with favorable results. A contract was executed by the Strawberry Valley Water Users' association, signed, and forwarded to the chief engineer of the reclamation service to the effect that the government would take the work in hand and complete it for the sum of \$1,000,000, to be paid for in ten annual installments.

After being tapped from the west side the Strawberry valley water is led through a deep canyon to the Spanish Fork river and from thence to the mouth of the Spanish Fork canyon. Here it is taken out through a canal running along the foot hills southward, taking in the towns of Payson, Salem, Santaquin, Benjamin, Lake Shore, Mapleton and Spanish Fork. It will reclaim 25,000 acres of arid, but fertile land, and supplement the present water supply for 25,000 acres more. The present canal will come under the canal is valued at \$20 per acre when water can be had it will run from \$80 to \$100 per acre.

Payson will receive the chief benefit of this big reclamation project, and with the increased water supply furnished thereby, is in a location, being

best quality of paints, oils, varnishes and glass, of which he is justly proud. Remember the Douglass store for the latest styles of ladies' winter and summer dress goods.

#### PAYSON SILVER BAND PAVILION.

THIS beautiful dancing hall was opened on July 4, 1902. It is built of brick at a cost of \$3,000, having an arched roof; contains a gallery for spectators, dressing rooms, refreshment room, and has a floor space of 60x125 feet. The floor is of polished hard maple, resting on fifty rubber cushions. There is no noise made in dancing and the rubber cushions yield to the rhythmic movement of the music, giving a most delightful sensation to the dancers.

The music is furnished by the pavilion orchestra. Dancing Friday evenings and holidays. The manager, George A. Peony, is well known throughout this part of the country for his love of high class amusements, and for the gentlemanly and courteous manner in which he conducts his place of business.

set table. Hospitality and good, easy comfort fills the whole place. It is centrally located, one block north of the Payson opera house. It contains a free telephone service, and is equipped with all the modern appliances for electric lighting. Tourists and commercial traveling men will find the Huish House a most desirable home while stopping in Payson.

#### JUSTIN A. LOVELESS.

JUSTIN A. LOVELESS, notary public and conveyancer, of Payson, has a well equipped office for the transaction of all business pertaining to the purchase and sale of real estate in Payson and vicinity, and all business entrusted to him is attended to with accuracy and dispatch. Address, Payson, Utah.

#### LOVELESS & STARK.

AMONG the most progressive of Payson's business houses is that of Loveless & Stark, manufacturers of and dealers in harness, saddlery, horse, sheep and stock men's supplies. The firm began business in 1889, and from a humble beginning

within 20 miles of the great Tintic mining district which furnishes a ready market for the products of the farm. Manufactured products, to become within a short time one of the most prosperous, as it is now one of the most progressive municipalities in the great State of Utah.

The immense benefit to be gained to the citizens of Payson alone by this move can be better realized when it is understood, that while with the present supply not more than 4,000 acres of land can be irrigated, that with the completion of the project 15,000 to 20,000 acres will be brought under the water right, which will insure to the community a rapid, steady, substantial growth. As a result of the work already accomplished an impetus is being felt in the direction of increased confidence in the investment in business enterprises and real estate.

#### WILLIAM D. DIXON. DRY GOODS AND CLOTHING.

THE biggest men's and boys' furnishing house in this part of the state. A full and complete line of Millers' clothing for men and the celebrated Eiderheim, Stein & Co.'s clothes for young men and boys. They are made of the highest grades of cloth and cut in the latest and most approved styles. Men who want nobby suits need not send away from home; go to Dixon. He can fit you out fully as well as the high priced city tailor.

This store also carries the Jones, Payne Hat company's hats and the Star Brand shoes. Mr. Dixon's pride, however, is the beautiful display of dress goods manufactured by the Broadhead Woolen Mills of Jamestown, N. Y. This line has been the big seller in Payson for 20 years, and not one complaint has been made except that they are too long lived.

Ladies, call in and have a look at those elegant dress patterns.

#### J. L. TOWNSEND. GENERAL MERCHANDISE.

MR. TOWNSEND was formerly in the drug business for 20 years, was succeeded by his son, who afterwards went to Salt Lake City, obtained the confidence of the people and built up an extensive trade; but unfortunately his health failed him and he was compelled to retire. Mrs. Townsend took control and changed to the general merchandise business. Through careful management and industry she has built up her trade, doing as high as \$30,000 worth of business in the year 1901.

The stock on hand is now valued at \$5,000. Her line of ladies' and children's furnishing goods is without a doubt the best in the city. They are stylish, up-to-date and substantial. She also carries a full line of ladies' and children's shoes.

Among the ladies' furnishing goods are tailor made suits, coats, hats, skirts, furs, etc. The hats are trimmed or made to order, and are perfect beauties.

Go to Townsend's for your swell clothing. They are prepared to supply the Christmas demand in toys, presents, etc.

#### MRS. H. GUTHEIL. CONFECTIONARY.

THIS is the only exclusive confectionary store in Payson, carries a choice assortment of McDonald's famous candies and fruits. Bakery in connection.

#### SAMUEL DOUGLASS. GENERAL MERCHANDISE.

THIS is one of the early stores of Payson and was established in 1885 by William Douglass. He and his sons conducted the business together, increasing their trade by sound business management and fair dealing with the people. In 1894 the father became deceased, and Samuel, because of his careful training in business affairs and good common sense, was equal to the occasion, and instead of the business suffering, it is now in a flourishing condition. It is conducted on a cash basis and is one of the most solid mercantile houses in the country.

They have in stock about \$20,000 worth of goods, consisting of a fine line of gentlemen's furnishing goods, dry goods, ladies' furnishing goods, boots, shoes and notions.

Mr. Douglass also carries a line of the

#### CHARLES C. F. DIXON'S MEAT AND GROCERY STORE.

THIS big grocery and meat store is located in the Douglass block. The proprietor, Mr. Dixon, is one of the most wide-awake business men in Utah. The people all over know him—he is one of them. He enjoys their confidence and gets their trade because his goods are the best and his prices are right.

He carries all kinds of fancy, staple and green groceries, cigars and tobacco. The meat department is equipped with all of the modern cold storage appliances for the caring of meats. His meats are the best. Mr. Dixon knows a good beef when he sees it. Only choice animals get into his shop. He also carries fresh fish and oysters in season.

Mr. Dixon also deals in coal and he is prepared to supply either Rock Springs or Sweet Water coal for the winter trade.

#### THE HUIH HOUSE.

THIS house is conducted by Mrs. Huish, one of Payson's most loved and respected ladies. It is a veritable home for traveling men, because of the well furnished and comfortable rooms, and the generous and neatly

has grown until it now furnishes not only the citizens of Payson, but many of the surrounding towns and cities with a general assortment of everything in their line.

Mr. Loveless is the present mayor of the city, and Mr. Stark was recently elected justice of the peace for the city for the ensuing two years. Both were born and reared in Payson, and have great confidence in the future of the city, and peak in the highest terms of its resources and possibilities.

#### Christmas With Lewis and Clark.

Some rain at different times last night and showers of hail, with intervals of fair starlight. This morning at day we were saluted by our party under our windows. A shout and a song. After breakfast we divided our tobacco, which amounted 2 Carrots, one half we gave to the party who used Tobacco, those who did not we gave a handkerchief as a present. The day proved showery all day, the Indians left us this evening all our party moved into their huts, we dried some of our wet goods. I received a present of a Fleese Henry (choice hosiery), vest, drawn & Socks of Capt. Lewis, pr. Moccasins of Whitehouse, a small Indian basket of Gutierrez (Goudrich) & 2 Dog weasels black roots of the Indians. Our Dinner today consisted of more Elk boiled, split fish & some roots, a bad Christmas dinner, warm day.—From "Newly Discovered Personal Records of Lewis and Clark."

AMERICANS WHO ARE TO BE SHOT IN MEXICO FOR INSURANCE FRAUDS.

The trial of Dr. C. S. Harle, Leslie B. Hulbert and William Mitchell, in Chihuahua, Mexico, charged with murdering two men for insurance money, has come to an end after three years and the trio have been condemned to be shot. There is no further ground for appeal, it is said, and the three will be stood beside their coffins, blindfolded, with a file of soldiers as their executioners, before the first of the year.

Two of the men, Mitchell and Hulbert, are New Yorkers. Hulbert is a graduate of Cornell. He was an attorney in Rochester and was also an assistant in the district attorney's office in Monroe county. He got into trouble through obtaining divorces illegally and fled the country. He took the name of C. T. Richardson. As C. T. Richardson, in Chihuahua, he became an agent for the New York Life Insurance company. He did fairly well writing insurance and not till he wrote to the home office asking for a favor was suspicion directed toward him. The clerk remembered that this agent had recently been in Mexico and that two persons insured by him had died suddenly and that the attending physician in both cases had been the same. In each case there was a beneficiary and there was no other kin to the insured.

The clerk reported the case. An investigation followed and it was discovered that several coffins filled with stones had been buried, and in each case Richardson, or Hulbert, reported to the office that the death of the insured was without suspicion. Richardson and his confederates then split up the proceeds. Further investigations disclosed an extensive poison plot, where several persons insured by Hulbert died under suspicious circumstances. It was for these crimes that the men were ordered to be executed. Mitchell was the man who died under various names, and Dr. Harle was the physician who signed the death certificate.

THE UNIVERSITY OF UTAH is ever dedicated to progress. Its development is along those lines that will do the greatest amount of good to the greatest number of students. Ever fostered by the hard work of the people of the State of Utah, it stands at the head of the Public School system, and ranks as the leading institution of the entire inter-mountain region. Since the obtaining of the sixty acre tract immediately east of Salt Lake City, seven first class buildings have been erected, so that now the UNIVERSITY stands as a splendidly equipped institution.

Three large State Institutions comprise the UNIVERSITY OF UTAH: the school of ARTS and SCIENCES, the MINING SCHOOL, and the STATE NORMAL SCHOOL.

#### THE SCHOOL OF ARTS AND SCIENCES.

The school of ARTS and SCIENCES is the chief institution of the UNIVERSITY. It aims at giving the student the very best training possible. The classes are conducted by well qualified professors, and the library is one of the best in the West. This department offers the degree of BACHELOR OF ARTS, which is recognized by most of the leading colleges and universities of America. Nearly all the courses are elective, giving the student a broad scope in choosing those subjects that will be for his best good and in accordance with his individual likes. The best educators recognize the fact that the study of the culture subjects is the best thing to develop the heart and soul of man. The SCHOOL OF ARTS and SCIENCES of the UNIVERSITY aims at the development of the higher life, and its curriculum is thoroughly in keeping with the needs of the times.

#### THE STATE SCHOOL OF MINES.

The STATE SCHOOL OF MINES was formally established as a department of the UNIVERSITY in 1901. No place in the world is better situated than the UNIVERSITY of UTAH for a SCHOOL OF MINES. Located in the very heart of the mining district of Utah, all the students have recourse to the large mines and smelters, thus making their courses practical and real. The School of Mines offers "to students studies and courses of instruction relating to mining, metallurgical, electrical, and such other branches of engineering as pertain to the pursuit and development in all the branches of the mining industry."

try of Utah." The facilities for doing work in CHEMISTRY, METALLURGY, ASSAYING, MINERALOGY, PHYSICS, ELECTRICAL ENGINEERING, and SHOP WORK are unexcelled. The buildings are all new and are erected in accordance with the most approved style. AN HYDRAULIC LABORATORY is under way of construction, which will be one of the best in the world for the testing of water wheels, water meters, etc.

#### THE STATE NORMAL SCHOOL.

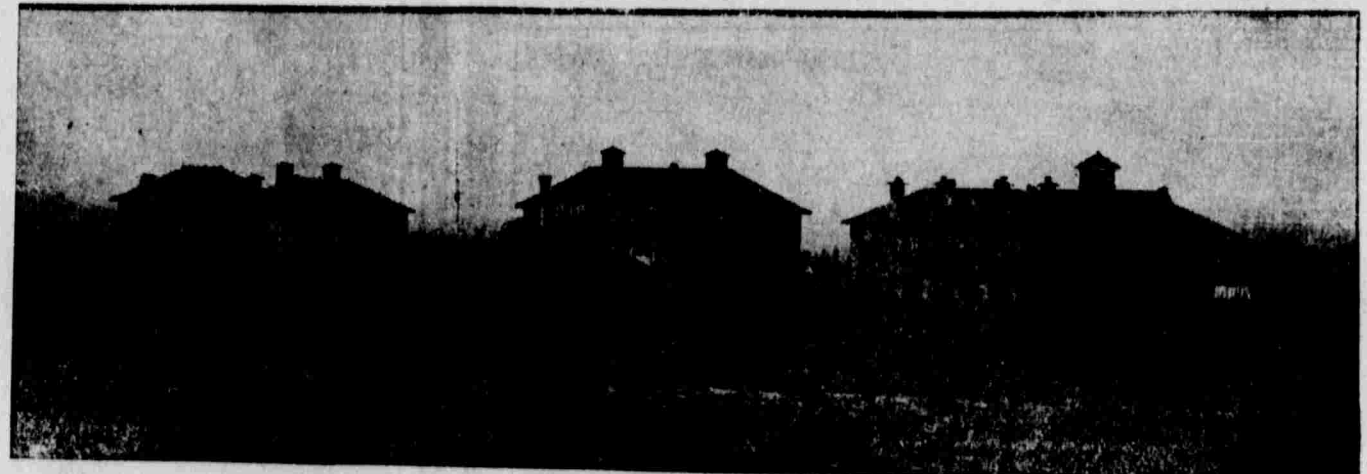

America is full of Normal schools, few of which stand high. The STATE NORMAL SCHOOL of UTAH is the best in the inter-mountain region. It is well equipped with laboratories, and apparatus for domestic science and manual training. The course extends through four years and includes practice in teaching and pedagogy. In connection with this DEPARTMENT, a first class TRAINING SCHOOL is maintained where students receive practical training in the different grades. AT CEDAR CITY, Iron County, is located the BRANCH NORMAL SCHOOL, where a well equipped institution provides instruction in the first three years of the normal course. After finishing this work students complete this course at the University, Salt Lake City.

The University offers courses in biology and anatomy and kindred subjects which are accepted as two years work toward graduation by prominent medical schools in the east and west.

The subjects of law, economics and sociology given in the University are accepted toward graduation in the law courses in leading universities in the country.

#### PHYSICAL EDUCATION.

Every student in the University is compelled to take physical education at least four years. A larger part of the gymnasium has recently been constructed and with the new equipment affords splendid opportunities for physical training. Students are required to take a physical examination. The strength and weaknesses of each are tabulated and a complete diagnosis is made. Prescribed work is given the student whereby he may improve his physical condition as well as his class work. Athletics at the University are of a high standard and both the faculty and student body are united in giving the very best training in physical education.

REAR VIEW UNIVERSITY OF UTAH BUILDINGS.

## UNIVERSITY OF UTAH Salt Lake City

The Head of the Public School System of the State.

#### THE UNIVERSITY INCLUDES:

The School of Arts and Sciences, The State School of Mines, The State Normal School

The School of Arts and Sciences offers a wide choice of subjects leading to a broad and liberal education.

The School of Mines gives four year courses in Mining, Civil, Mechanical, Electrical, and Chemical Engineering.

The shops and laboratories are splendidly equipped, and the surrounding mines and smelters of various kinds, afford exceptional advantages for thorough and practical work in all these courses. Study mining in a mining country.

The State Normal School is praised for the excellence of its work by leading educators in the United States. It provides normal and kindergarten training, and also college-normal courses. Manual Training and Domestic Science are features of the Normal School.

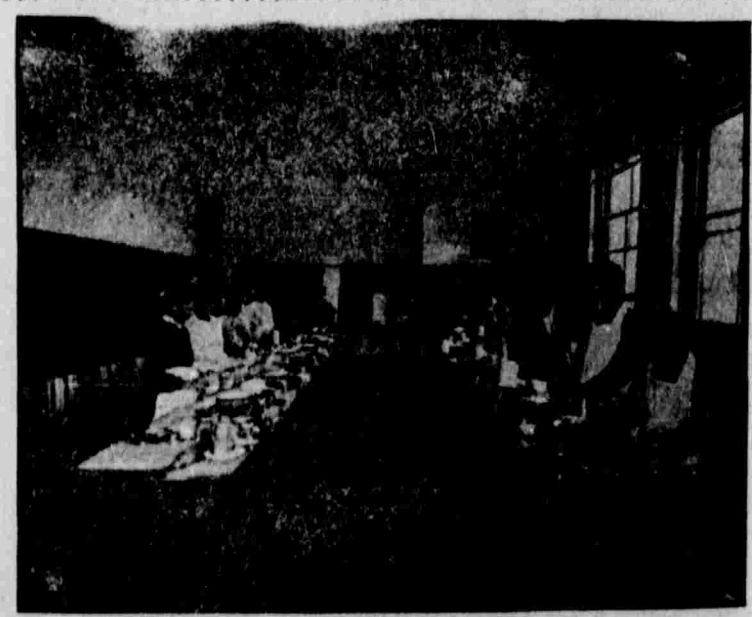

Expenses are low. No tuition is charged, but an annual registration fee of ten dollars is required.

The University offers excellent advantages for a broad, liberal and practical education.

Catalogue free upon request.
