

CONGRESSMEN IN LOVE WITH ARIZONA

Party That Visited Territory Are Unanimously in Favor of Statehood.

NO JOINING WITH NEW MEXICO

All Express Themselves in the Highest Terms in Praise of Her Resources And Schools.

Prescott, Ariz., Oct. 15.—The congressional party divided today. Tawney and several others went to Crown King mines and the rest made trips in carriages through the mountains, to the granite quarries and Whipple barracks. The post is being greatly enlarged, and the work was inspected by the visitors. The congressmen in the party today expressed themselves as follows on statehood for Arizona:

Representative Adams of Wisconsin—"I voted once for jointure because I knew no better. I know better now. I am Arizona's captive and surrender completely. I am against jointure."

Representative Cushman of Ohio—"Arizona's schools alone should entitle her to become a state if nothing more, but she has a great deal more. She deserves statehood now and until she gets it she will find a warm advocate and friend in me."

Representative Minor of Wisconsin—"We are all with Arizona and if the easterners could only visit this state they would change their minds. It would be a crime to limit Arizona to New Mexico, although the latter is a great territory also. Both are large enough."

Representative Tawney of Minnesota—"Were the members of Congress to come here and see, I doubt if they would go so far to vote for jointure. I know now the conditions and my next vote will meet with Arizona's approval."

Representative DAVIS of Minnesota—"The day will come when Arizona will get single statehood. If I can help I will. I am astonished at the wonders of the territory, agricultural interests, mining facilities. No better schools nor higher states of civilization exist in the entire country."

Representative DAVIS of Minnesota—"Senator Beveridge's report on Arizona was true. The territory has changed wonderfully in a short time. I am from the west and will always vote with the west, and I do not want to see any more such big states as Texas. I believe Arizona is now fit to become a state."

Representative Maynard of Virginia (the only Democrat in the party)—"If it was not for family ties, home associations and native love for dear old Virginia, I would sell my ticket and stay in Arizona, and if I ever move it will be to this territory, which will soon be a state."

Representative Marshall of South Dakota—"I believe it a wrong to both territories to even breathe the idea of jointure. I voted for it once, but I have revised my ideas and I am going home and preach the gospel of rich and great Arizona to my colleagues. No higher state of civilization, no better schools and no more patriotic people can be found in the United States than these."

FIVE TRAINMEN KILLED IN A REAR-END COLLISION

Oskaloosa, Ia., Oct. 15.—Five trainmen were killed today at Seaton, Ill., when a heavy double-header freight train on the Iowa Central railroad ran into a bunch of cattle on the track. Both locomotives and 11 loaded freight cars were in a heap.

DEAD.
George A. Caffal, engineer.
Harry Summers, engineer.
Harry Barr, fireman.
M. H. Bralley, fireman.
D. T. Morgan, brakeman.
All lived at Oskaloosa except Bailey, whose home was at Monmouth, Ill.

The wreckage caught fire and the mangled bodies of the trainmen were only saved from the burning debris by the quick work of the conductor, aided by farmers living near by.

Engineer Summers was caught in the cab of his locomotive and cooked by steam. He lived several hours, although large pieces of cooked flesh fell from the bone.

Bakery Blown to Pieces.

Great Falls, Mont., Oct. 15.—A special to the Tribune from Glasgow says: An explosion occurred in the bakery shop of Edward Euglett here today. The shop, which was a small frame building, was blown to pieces and the proprietor was so badly injured that physicians say he cannot live. As Euglett is unable to talk the cause of the explosion can only be conjectured. It is known that he recently was using dynamite for blasting purposes and it is supposed that he had some of it stored about the place. There was no other person in the shop at time of the explosion.

Shearn for District Attorney.

New York, Oct. 15.—The Municipal Ownership League tonight nominated Charles J. Shearn for district attorney.

RUSSIA FIRST NOTIFIED PRESIDENT ROOSEVELT

St. Petersburg, Oct. 15.—Spencer Eddy, the American charge d'affaires, at 3 o'clock this afternoon officially informed the foreign office that the emperor of Japan had ratified the Russo-Japanese peace treaty Saturday. The French minister at Tokyo at the same hour informed the Japanese government that Emperor Nicholas had signed the treaty.

As a graceful mark of appreciation of the part he took in bringing about the conference at Portsmouth and the resultant peace, President Roosevelt was the first person to be notified by the Russian government that Emperor Nicholas had ratified the treaty. As soon as the emperor's signature had been affixed to the instrument and before the treaty had been brought back to Petrograd for the countersignature of Foreign Minister Lamoriniere, the news was sent directly to the president. Official notification to the French government, according to the foreign office, followed several hours later, when Count Lamoriniere had completed the ratification by his signature.

The government took no steps to make known to the people of Russia the fact that the emperor had signed the treaty, before the receipt of the official notification that the instrument had been ratified by the signature of the emperor of Japan, and the first news, therefore, was communicated through the Associated Press dispatch from Washington.

As soon as the treaty had been fully ratified, the foreign office communicated the fact to the war, navy and other ministers, and the necessary orders were immediately issued to bring home some of the ships interned in neutral harbors.

The date for the exchange of prisoners of war has not yet been fixed. Thomas Smith, American vice-consul at Moscow, sent to Medved today several thousand rubles which had been received from Japan for the Japanese prisoners there.

The ratification of the peace is formally announced this morning in the Official Messenger, which says that its operation began yesterday. The text of the treaty is not given.

AMERICAN FISHING RIGHTS. Their Restriction by Newfoundland Land to Be Resented.

Gloucester, Mass., Oct. 15.—As a result of the policy recently adopted by the Newfoundland government to restrict American fishing rights on the coast of Newfoundland, Congressmen Augustus P. Gardner and Benjamin A. Smith, one of the largest vessel owners of this city, left for Washington to discuss the matter with the secretary of State Root. Originally it was decided that the collectors of the port, William H. Jordan and a committee from the board of trade, should accompany Congressmen Gardner and Mr. Smith, but this plan was abandoned, inasmuch as it was felt that Messrs. Gardner and Smith were fully qualified to deal with the situation.

The object of the trip to Washington is to obtain from the head of the state department an interpretation of the treaty of 1818 by which American fishermen were guaranteed certain fishing rights on the Newfoundland coast. A similar trip to Washington was made last spring, but thus far no interpretation of the treaty has been made by the department of state.

At their conference which probably will be held tomorrow, Congressman Gardner and Mr. Smith will ask Secy. Root for an immediate interpretation. The vessel owners of this port say they are prepared to make a test case of the matter. If any Gloucester vessels are interfered with by the cruiser Florida, The Newfoundland government claims Newfoundland fishermen are shipped at Gloucester, and in order that the cause of this complaint may be eliminated, the schooner Dauntless, Capt. Charles T. Young, will sail from this port tomorrow with a crew of 24 men, 11 of whom were shipped here, and none of whom belong to Newfoundland. Capt. Young believes that he cannot be interfered with by the Newfoundland authorities, and he is planning to sell his catch of herring to other Gloucester fishermen who will bring it to this port.

Stamford, Conn., Oct. 15.—An attempt to wreck the westbound express of the New York, New Haven & Hartford railroad, which leaves here at 3:12 and is due in New York at 4:05, was foiled this afternoon a few moments before the train was due. George H. Scofield, a town operator, while walking the track to his home, found near a curve a big bar of iron firmly wedged

against one of the rails. The bar was imbedded in stones and it was with difficulty that Scofield pulled it out. Search for the would-be train-wreckers was begun but without result up to a late hour tonight.
