

KARL HAU MAKES REQUEST OF COURT

Granted. He Related Interview With Wife in Which She Told Of Intention to Suicide.

HE MAKES AN ADMISSION.

Baroness von Reitzenstein Correct in Saying She Recognized Him— Judge Demanded Explanation.

Karlshaus, Germany, July 19.—The third day of the trial of Karl Hau, who is accused of the murder of his mother-in-law, Frau Molitor, at Baden Baden last November, brought a climax of dramatic interest. Testimony was given by the sisters and brother of Hau's wife, who committed suicide since the incarceration of her husband, and the letters she wrote just before taking her life, together with the statement made by Hau after his arrest, that he was in jail on June 7, were read in court.

Lieut. Molitor, who is stationed at Metz, swore he suspected Hau from the first. His explanation of the dispatch sent to Frau Molitor by Hau from Paris was that his mother, as Hau knew, was easily agitated and excited over bad news. The accused daughter Olga was dangerously ill in the hope that his receipt would cause a stroke of apoplexy.

Describing his talks with the late Mrs. Hau, his sister, after his return from London, the lieutenant said his sister's first theory was that some enemy of Hau had killed her husband in order to throw suspicion on her husband. It fell to the lieutenant to explain to his sister all the circumstances of the case, pointing to the guilt of her husband, and his recital finally convinced her that Karl was the murderer. She broke down and groveled in the struggle against conviction, but finally yielded to the evidence. At her request, the lieutenant

WANTS CRAFT TO KNOW

The "American Lumberman" Gets a Remarkable Article From a California Friend—The Editor's Comments.

The remarkable article following, with the Editor's comments thereon, is taken from the "American Lumberman," the able exponent of the lumber interests of the country:

Editor "American Lumberman," Chicago, Ill.: Dear Sir—We are aware that there is a great deal of Bright's Disease and Diabetes among the lumber fraternity in general, and many others, and I feel as though it is my duty to say to the suffering that we have a remedy on this coast which has a record for alleviating the sufferings of 85 per cent of the patients who have tried it. In one case in particular (a man 73 years old that the doctors had given up), I have cured him in a year and a half. The old gentleman of it and today he is working at his business as a photographer and says that age is against him, of course, but he does not anticipate that he will die of Bright's Disease.

I have in mind another case which five eminent doctors of California and the East had given up. This was a very prominent man, and the attending physicians said he couldn't live two hours. His family tried it and it kept him alive for five weeks. Owing to a climatic change he died, but I am satisfied that had he acted on my advice and taken it a year sooner, he would be alive today.

Several men of prominence and wealth have been saved. One I would mention in particular is a former Justice of the Supreme Court, who was given up by the doctors twelve years ago, but is alive today. And I know of many people, both rich and poor, it has helped.

About six years ago a couple of Southern Pacific railroad conductors contracted Bright's Disease and they went up into the mountains to camp; the doctors said they could not live more than a year, and somebody suggested it to them and I have been informed by parties who know them that they are again at their posts and consider themselves fully cured.

I am not doing this for any pecuniary gain for myself, neither will I give the name of the medicine, but if anybody interested will write to me, sending stamps for reply, etc., I will see that they are supplied with literature sufficient to satisfy any one (except, perhaps, a physician) of the value of the preparation and that it will prolong life if not cure the disease. All I ask is that the party send stamps with his or her inquiry (10 cents would probably be enough to cover the postage on the reading matter to be sent).

While I do not consider myself quite as good an authority on matters of this nature as a lumberman, I feel that I am in duty bound to let your readers know of the existence of this thing and that it will help such as are afflicted with these diseases, and probably cure them.

If there will be any charge for this end me the bill and I will gladly receive it. I feel that this is the least I can do to help my fellow men who are in duty bound to let your readers know of the existence of this thing and that it will help such as are afflicted with these diseases, and probably cure them.

I do not know of more than one or two doctors on the coast who recede of need it for the simple reason that the party will not give the complete formula to the medical fraternity, therefore, they will not prescribe it. I have, however, they have prescribed it under a different name and have reaped the benefit of its cure.

MATT HARRIS, San Francisco, Cal., Dec. 2, 1905. (The cure comes highly recommended. Mr. Harris' standing in the lumber trade and as a man is known to many of the fraternity. "The Lumberman" is pleased to give prominence to this statement by Mr. Harris, and as for sending him a bill, our answer is similar to that given by the little boy with the apple, when asked for the core: "There ain't nothin' to be no core."—EDITOR.)

The idea of a specific being so effective as to cause an enthusiastic spectator to advertise it at his own expense, and the declaration of a great paper national circulation to accept pay same is an experience that no history has.

How to Cure Liver Trouble

There are usually several ways to do a given thing, but it is the aim with all of us to find the best and shortest way. It is just so in the cure of disease. People suffering from liver trouble imagine that all they have to do is to take some thing that will physic them. There is more than that in the cure of so serious a disorder as liver trouble.

When that drowsy, closed up feeling comes on you go to a drug store and ask for a 50 cent bottle of Dr. Caldwell's Syrup Pepsin. Take a dose or two and watch results. It will not only clean out the bowels and stimulate the liver, but it will get the blood circulating so that you feel active again, and arouse the functions of the stomach so that your appetite returns and you feel like your old self again. A simple laxative or purgative could not do that. Dr. Caldwell's Syrup Pepsin is not only a wonderful laxative but it is a tonic, and it is a blood purifier. It is a blood purifier, and it is a blood purifier. It is a blood purifier, and it is a blood purifier.

It does not grip—it acts smoothly, oiling the intestines so that the passage is smooth and agreeable. It is a pleasant, pleasant, pleasant taste and pure in quality. It is an excellent, economical home cure, and its results are permanent. It is absolutely guaranteed to do what is claimed for it.

Use it for occasional or chronic constipation, dyspepsia, indigestion, biliousness, sour stomach, bloated stomach, flatulency, diarrhea, and the dozen and one other ills of the stomach, liver and bowels. It is the greatest of household remedies and no family should be without it. It is a family remedy, and it is a family remedy. It is a family remedy, and it is a family remedy.

A guaranteed permanent home cure. THE PUBLIC VERDICT: "No Laxative So Good and Sure as Dr. CALDWELL'S SYRUP PEPsin." This product bears every guarantee No. 17, Western, St. Louis, Mo.

PEPSIN SYRUP CO. 105 Caldwell Bldg., Monticello, Ill.

decorations will not be made until tomorrow morning. The committee on contests and awards will meet tonight to announce the prize awards, among them being the following who won prizes:

Lodges making best appearance in line—Third prize, \$100, El Paso. Lodge appearing in unique uniforms—First prize, \$500, El Paso. Leaneat Elk, \$25—J. Ed. Nois, Pasadena, Cal.

Tallest Elk, \$25—Carl M. Koenig, Sacramento, Cal. Smallest Elk, \$25—Jerry D. Sullivan, Rosebury, Or.

Special prize of \$500 for the largest band in line—Guadalupe military band of Mexico, which accompanied El Paso lodge.

ARMORED CRUISERS COMING FROM CAVITE.

Washington, July 19.—The armored cruisers West Virginia, Colorado, Pennsylvania and Maryland of Admiral Dayton's Pacific fleet, are expected to start from Cavite for the United States in 10 days or two weeks. They may stop en route at Japanese ports; this, it was stated at the navy department today, is optional with the officer in command. It is extremely unlikely, however, in view of the fact that the vessels are to come home by way of Honolulu. The movement is made in accordance with orders issued a month ago and made public by the bureau of navigation at the time, and is simply to put into effect the plan of the department to form the Pacific fleet on lines similar to that of the Atlantic fleet, that is, to divide up of various divisions. The four ships named are to form one of the cruiser divisions of the Pacific fleet.

The four ships are now in the vicinity of Chefoo, China, where they have been engaged in target practice. This practice on the Pennsylvania has been delayed by the appearance of a smallpox outbreak on board. The whole division will, according to present program, sail for Cavite on the 24th of July. Here some changes are to be made in the personnel of the crews, and various stores are to be taken aboard. The run will then begin for San Francisco. It is said to be possible that the Pennsylvania may carry on her way from Chefoo to Cavite to take on coal.

The four ships form the mainstay of Admiral Dayton's Pacific fleet now in Asiatic waters. Their withdrawal will leave but few American naval vessels of any great consequence in that section of the world, and it means the practical transfer of the headquarters of the Pacific fleet to American waters if Admiral Dayton returns to San Francisco on his flagship, the West Virginia. The department is anxious that these ships have a long cruise and that they may engage in some of the maneuvers with the ships now on the Pacific coast. The present expectation is that they will be ordered to Magdalena to participate in the autumn maneuvers of the vessel attached to Admiral Swinburne's squadron of the Pacific fleet.

The withdrawal of Admiral Dayton's ships from Asiatic waters will leave the Chattanooga, Cincinnati, Cleveland, Galveston, Raleigh and Denver, with numerous smaller vessels, including gunboats, monitors, collers, etc., in charge of American interests in that part of the world.

ROAD FINED \$30,000.

Raleigh, N. C., July 19.—The Southern Railway company was today fined \$30,000, and Thomas L. Green, ticket agent of the company, fined \$5 in the state court here for selling railroad tickets at a rate in excess of that provided by the recent state law for a uniform rate of 24 cents a mile in North Carolina. The court required Green to promise not to sell tickets at the illegal rate. Green made the promise and paid the fine.

LOUIS LARSON'S WILL.

Helena, Mont., July 19.—The will of Peter Larson, who bequeathed the bulk of his estate to his wife and daughter. To a brother, Louis Larson, of Dwight, Ill., is given \$50,000. Andrew Hans Larson, who lives in the country, gets a like amount. Each of
