PRICKLY ASH

BITTERS

The majority of the ills of the human body arise from a derangement of the **Liver,** *affecting both the stomach and bowels. In order to effect a cure, it is necessary to remove the cause. Irregular and Sluggish action of the Bowels, Headache, Sickness at the Stomach, Pain in the Back and Loins, etc., indicate that the Liver is at fault, and that nature requires assistance to enable this organ to throw off impurities.*

Prickly Ash Bitters *are especially compounded for this purpose. They are mild in their action and effective as a cure; are pleasant to the taste and taken easily by both children and adults. Taken according to directions, they are a safe and pleasant cure for* **Dyspepsia, General Debility, Habitual Constipation, Diseased Kidneys, etc., etc.** *As a* **Blood Purifier** *they are superior to any other medicine; cleansing the system thoroughly, and imparting new life and energy to the invalid. It is a medicine and not an intoxicating beverage.*

TUTT'S PILLS

TORPID BOWELS and DISORDERED LIVER.

From these sources arise three-fourths of the diseases of the human race. These symptoms will indicate their existence: **Loss of Appetite, Bowels costive, Sick Headache, fullness after eating, aversion to exertion of body or mind, Exaggeration of fancy, Irritability of temper, Low spirits, a feeling of having neglected some duty, Dizziness, Fluttering at the Heart, Dots before the eyes, Highly colored Urine, CONSTIPATION,** and demand the use of a remedy that acts directly on the Liver. As a Liver medicine **TUTT'S PILLS** have no equal. Their action on the Kidneys and Skin is also prompt, removing all impurities through these "scavengers of the system," producing appetite, sound digestion, regular stools, a clear skin and a vigorous body. **TUTT'S PILLS** cause no nausea or griping nor interfere with daily work, and are a perfect

A BATTLE IN THE NORTHWEST TERRITORY.

THE CITY OF PANAMA SEIZED BY UNITED STATES TROOPS.

MCGILLICUDDY AND RED CLOUD AGAIN LOCK HORNS.

APACHES ON THE WAR-PATH, ETC., ETC.

O'Brien the Lawbreaker.

NEW YORK, 24.—The examination in the case of Captain John O'Brien of the Provincial Steamship Company's steamer *City of Mexico*, who was arrested yesterday for volating the neutrality laws by delivering munitions of war to rebels against the government of the United States of Columbia at the port of Savanillo, was begun today before the United States Commissioner. John C. Austin of Austin & Lord, brokers of the *City of Mexico* was examined. He said the steamer was chartered by Perez & Williams of this city to carry a cargo, including arms, to correspondents in Savanillo. Witness did not know that there was actual insurrection going on and hostilities between the government and insurgents in the United States of Columbia; he thought it was a dispute between parties something like the fight between the Democrats and Republicans in New York.

The men who boarded the steamer at Savanillo and proceeded to Rio Hacha were passengers, he said, and his account of the episode at Rio Hacha was that the Columbian authorities boarded the steamer and arrested the passengers, which brought a protest from Captain O'Brien.

John McCarthy, mate of the *City of Merico*, testified that when he shipped he understood the voyage was to Kingston and return. On March 11th, while in Erie Basin the vessel was loaded with arms and ammunition. Two Spaniards got aboard also. One of them said he was a brother to the revolutionary president of Columbia. During the passage packages of arms became loosened and that aroused the suspicions of the crew. The vessel reached Savanillo March 21st. The Captain was ashore four days, and on March 28th 200 officers and men armed and uniformed were taken aboard, and the steamer sailed at once. At Rio Hacha, which was reached next day, the port officers came out to see the ship's papers, and were taken [prisoners by the soldiers. The steamer was flying the American flag.

McCarthy testified that he and the crew objected to that sort of thing, but witness was afraid he would be shot if he interfered seriously. The steamer then cruised down the coast and bore down upon a schooner by order of the General commanding the troops. McCarthy says he notified the firemen and crew of what was being done, and then returned to the General with the American flag in his hand, saying: "We all are American citizens, and we will be damned if we are going to capture that vessel. It is nothing but piracy." The capture was not made, and the following day the troops disembarked at Savanillo. The seven prisoners taken from the port officer's boat were sent to Barrenquilla." They said the United States would have to make reparation. The *City of Mexico* then proceeded to Boca Del Torro, where she loaded with fruit and returned to New York.

Captain O'Brien was to-day bailed in $2,000. The steamship will be libelled by the Government.

A Battle Between Middleton and Riel.

WINNIPEG, 24.—Another Battleford dispatch, in the course of an account of the Fort Pitt fight, says that before the firing commenced Factor McLean, of the Hudson Bay Company had a parley with Big Bear, who assured him that it was the intention of the Indians to kill the police only, and that civilians might leave the fort in safety. Anxious for the women and children, McLean accepted Big Bear's terms and left with about thirty civilians of all ages, who are now with the Indians. The remainder of the garrison, outnumbered by the enemy, retreated down the river on a scow, taking the guns and ammunition of the fort with them.

Winnipeg, 24.—A Clark's Crossing messenger, just returned from the north, brings the following particulars of an engagement with the rebels, which occurred at 9.15 a.m., 15 miles south of Batouche: The insurgents had taken ground on the edge of a deep ravine, from which they poured a deadly fire into the advancing column. When the messenger left the fight was still raging. Three houses of the enemy had been shelled and many rebels were driven from them and took refuge in the ravine. The Indian allies of the rebels fought vigorously in Indian fashion. The whole number in the ravine is estimated at 300.

Middleton's hat was shot through, but he escaped uninjured. Capt. Wise, A. D. C., had his horse shot under him.

The ravine is entirely surrounded, and there is no possibility that the rebels will escape. The Tenth Royals from the west bank had just arrived as the messenger was leaving. Casualties, three killed and ten or fifteen wounded.

12.30 p. m.—Several others are wounded, but have not been brought in yet. One party of rebels has just been dislodged. The artillery is still shelling the rebels in the ravine. Several Indian ponies have been captured. The rebel loss is not yet known. The Indians set the prairie on fire, but a heavy hail storm extinguished it.

Ottawa, Ont., 24.—The receipt of a press dispatch, announcing a battle between Gen. Middleton's advance detachment and the rebels, caused great excitement in the House. Members rushed excitedly about the corridors and besieged the telegraph office for information. Debate on the franchise bill was for a time interrupted by the excitement which prevailed. The government has as yet received no information regarding the fight.

Apaches Dig Up the Hatchet.

ST. LOUIS, 24.—A special from San Jose, Chihuahua, Mexico, to the *Globe-Democrat*, says there can be no doubt but that the Apaches are again on the war-path in the Sierra Madre Mountains. On Monday last a band of 60 of them attacked a few Mexicans at Pena Blanc and killed Odongo and Leonries. A courier was at once sent from the Cainaltos mine to the governor to notify him of the raid and tell him there were no troops that locality. The entire surrounding country is aroused and in arms. There has also been a large number of cattle stolen by the Indians.

U. S. Troops Take Possession of Panama.

PANAMA, 24.—This morning strong barricades were being erected in the streets near the cable company's office, which would have cut all communication off had not the same been summarily removed, as the cable office is situated in that part of the town near the battery and cuartels. Seven hundred troops left Buena Ventura under Gen. Villa this morning at 7 o'clock by the Columbian gunboat *Boyaca*, and on a schooner towed by the canal company's tugboat. An attack would have taken place immediately on the arrival of these troops Sunday night or Monday morning, but at 2:30 in the afternoon United States troops appeared on the scene as if by magic, three taps of the drum being the signal by which they started. Three columns entered the city and had full possession in about ten minutes, knocking down the barricades as they passed through the streets. At the call of the bugle the Columbian guards withdrew into the cuartels. This splendid *coup de main* has undoubtedly prevented another disaster similar to that of Colon.

Tragedy in New Orleans.

NEW ORLEANS, 24.—A dreadful tragedy was discovered to-day at No. 146 Orange Street. When the police broke into the house, on information that there was something wrong there, upon the bed lay two lifeless bodies. They were those of Mrs. Amelia Evans, wife of Wm. Evans, a member of Farrell's police, and Caspar Wenger, a grocery clerk. On the right side of the woman's head, just above the eye, was an ugly wound from which the brains protruded. The bullet which caused the death of the man entered the left temple and passed completely through the head.

At the inquest this afternoon Evans was arrested. He said in substance that he came home at the usual hour in the morning from his work of watching all night; went to his wife's bed-room and there saw her and a man lying on the bed dead, just as they were found. He picked his child up, a baby nine months' old, and walked out, locking the door and leaving the key in the lock. He called the servant, Mamie Miller, gave her the child and went out. The servant girl gave such evasive answers that her arrest was ordered. The theory about the killing is that Evans had an inkling of his wife's infidelity and came home that morning earlier than usual; surprised them, probably asleep, and shot them both. The pillow where each head lay was powder-burnt.

WIRED FROM WASHINGTON.

McGillicuddy and Red Cloud.

WASHINGTON, 24.—Red Cloud and Agent McGillicuddy faced each other in the office of the Commissioner of Indian Affairs to-day. The old chief had prepared a number of charges against the agent, relating to misappropriating money, maladministration of agency affairs and attempts to crush him (Red Cloud) and destroy his influence. At the request of the Commissioner they were reduced to writing. McGillicuddy made a brief denial of the charges, and after some general discussion further proceedings were postponed until to-morrow.

Appointments.

Jas. H. Wardell of New York was to-day designated to act as chief of the census division of the Interior Department.

The President to-day appointed Cornelius Schenck of Oregon to be appraiser of merchandise in the district of Willamette, Oregon.

Dismissed.

The findings and sentence of the court-martial in the case of First Lieut. Jas. S. Jouett of the Tenth Cavalry, who was charged with irregularities in the accounts of the post at San Antonio, of which he was in command, has been approved by the President. The charges were sustained and the court recommended dismissal. Lieut. Jouett is a son of Rear-Admiral Jouett, who commands the North Atlantic Station.

Requested to Remain.

Attorney-General Garland has requested Solicitor-General Phillips to remain in office during the present term of the United States Supreme Court, which will not be closed until May 4th. Judge Phillips sent in his resignation March 6th.

Pension Agents.

The Secretary of the Treasury to-day detailed three clerks to the Second Comptroller's office to assist in the settlement of accounts, particularly those of pension agents, which are somewhat in arrears. Arrangements have also been made for more prompt examination of the accounts in the Third Auditor's office. It is expected the vacancy in the office of Third Auditor, caused by the voluntary retirement of Judge Keightley, will be filled in a few days, probably to-morrow.

Alaska.

The Secretary of the Treasury today appointed Geo. P. Tingle, of Montana, and Chas. Ryan, of Indiana, special agents for the Seal Islands in Alaska, vice H. A. Glidden and J. H. Moulton, suspended. Mr. Tingle's compensation is fixed at $10 per day and expenses. They will leave San Francisco May 10th, for Seal Islands. There are no charges against the present incumbents.

New Postmasters.

Postmaster-General Vilas to-day said that Postmaster Bailey of Camden, N. J., had been suspended because he had admitted that he purchased two pianos and about $1,000 worth of merchandise and paid for them in postage stamps. The effect was to increase his apparent sales of stamps, and consequently his salary, a practice which the President did not regard as good policy. These charges were made against Postmaster Bailey by the preceding administration and were substantiated by the Inspector's reports. Postmaster-General Vilas to-day appointed sixty fourth-class postmasters.

Cholera.

The Marine hospital Bureau is informed that smallpox still prevails at Trieste, Austria, but has as yet received no confirmation of the reports that cholera prevails in Spain. On the contrary, the Bureau has received emphatic denials of the report. Every precaution has been taken to prevent the introduction of contagious diseases into this country. The quarantine stations at Ship Island and Sapolo sound are already in operation, and those at Cape Charles and Delaware Breakwater will be opened May 15th. The Secretary of the Treasury has given orders for the immediate repair of the revenue steamer *Manhattan*, now at Baltimore, with the view of utilizing it as a quarantine boat at Cape Charles station.

Revenue Collector's.

The President has signed the commissions of all the collectors of internal revenue appointed since the adjournment of Congress, including that of Eben F. Pillsbury as Collector of the Third District of Massachusetts, over which there was said to be some dispute. No further action has been taken in the case of Collecter Craig of Virginia, who declined to resign at the request of the Secretary of the Treasury. It has been referred to the President, and it is understood he will order the suspension of Mr. Craig.

Trial of Dickson.

To-day during the trial of Dickson, the celebrated jury foreman in the Star route litigation, W. W. Ker admitted that while acting as special attorney for the Government, he (Ker) had introduced an electrician from Philadelphia to Dickson. The electrician represented an underground system for electric conductors. Dickson was president of an electric light company. Ker said to Dickson it would be to the advantage of Dickson's company to secure the use of the underground system. The question was put to Ker: "Did you think it proper to introduce things of this kind to the format of the jury in a case in which you were counsel?"

"Well, sir," replied Ker, "I don't know."

Ex-Attorney-General Brewster, it was intimated in court to-day, will have an opportunity on Monday to appear for his own vindication if he chooses.

The Treasury Inquiry.

The Treasury Inquiry Commission, of which Assistant Secretary Fairchild is president, has virtually concluded its inspection of the Internal Revenue Bureau. The commission examined the deputy commissioner's chief clerk and the chiefs of all divisions of bureas. The secretary and accountant of the commission are now examining the books and accounts of the different divisions and making a thorough investigation of the method of doing business in the bureau. It is expected that this portion of the work will be completed in a few days. The commission will then be in possession of all the data necessary for the preparation of their report to the Secretary. The result of the work of the commission in the Internal Bureau is awaited with much interest, as it is supposed it will give an indication of the policy to be observed in the reorganization of other bureaus of the Treasury Department. The commission has virtually decided to make its recommendation in regard to improving the methods of business and reduction of the force at the close of their investigation in each bureau before beginning work in another. It is expected the commission will investigate the affairs of the Auditor's Office as soon as the Secretary shall have acted on their report on the Internal Revenue Bureau. It is also likely the commission will conclude to recommend the transfer of clerks from the overcrowded bureaus to bureaus where the clerical force is too small, instead of dismissing superfluous clerks in one bureau and supplying another bureau with clerks certified by the civil service commission. It is believed, however, that the commission will report the number of clerks as being on the whole in excess of the needs of the service.

STORMY PROCEEDINGS IN PARLIAMENT.

LEADING LANDHOLDERS PROPOSE TO BREAK UP THEIR ESTATES.

PREPARATIONS FOR WAR CONTINUE.

War Notes.

LONDON, April 23.—Dispatches from Cabul say that the Ameer of Afghanistan has reiterated his statement that he is competent to defend Herat against the Russians without the aid of England.

ALEXANDRIA, April 24.—The French newspaper, the *Courier*, publishes today a special dispatch which states that ElMahdi's troops have attacked and defeated the Italian forces near Massowah. The Italian consul says he has no knowledge of the affair reported by the *Courier*.

NICE, April 24.—Russian officers here on furlough have been ordered to return to their posts immediately.

ST. PETERSBURG, April 24.—It is stated that the Governor of Orenburg has been summoned here, having been chosen to take command of the proposed Turcomah volunteer force.

Gen. Baranoff has also been summoned from Nishei Novgorod to assume command at Cronstadt.

The government is having thousands of Whitehead torpedoes manufactured for the protection of the northern coast.

An extraordinary credit of 25,000,000 roubles for the navy is about to be granted.

St. Petersburg, 24.—Naval circles are at fever heat over the reported presence of a British ironclad at Vladivostock, a Russian port on the Sea of Japan.

Alexandria, 24.—There is great excitement here over the French-Egyptian situation.

London, 24.—Gladstone's announcement to the House of Commons that Barrere, Consul-General, had left Cairo is corrected at the foreign office, where it is explained that the Premier's statement was based on the translation of a cipher dispatch which has since been found to have been erroneous. The foreign office announces that the government have no information that Barrere has departed from Cairo.

London, 24.—Earl Granville has telegraphed instructions to Sir Evelyn Baring, British minister to Egypt, to support Nubar Pasha to the utmost extremity in his refusal to make apologies or explanation for the suppression of *Le Bosphore-Egyptian*.

Paris, 24.—The Suez Canal Commission to-day agreed that no fortifications shall be erected along the canal. The commission also discussed rules in connection with the passage of belligerent vessels in time of war, especially in regard to questions of whether prize vessels should be allowed to be towed through the canal and the length of time belligerents should be allowed to remain in the harbors of Port Said and Suez. No definite action was taken in regard to these questions.

A Stormy Time.

LONDON, 24.—There was a stormy discussion in the House of Commons this evening over the bill for the registration of voters in Ireland. Col. John P. Nolan, Home Rule member for Galway county, moved to amend the bill by providing that charges for registration be provided by the general government and not defrayed by local rates.

Mr. Gladstone vigorously opposed the amendment, and drew a gloomy picture of its possible results.

Mr. Childers, Chancellor of the Exchequer, implored the Irish members to have patience, and showed that their proposal would cause an additional burden upon taxpayers of £130,000.

Col. Nolan, however, was obdurate, and the amendment was adopted by a vote of 62 to 56.

After the announcement of the vote Mr. Gladstone adjourned debate in order that the government consider the question.

Gladstone on the Situation.

LONDON, 24.—In the House of Commons this afternoon M. Labouchere and Mr. Richard, both radicals, asked whether or not the government, before deciding to go to war with Russia, would seek the offices of a friendly power to effect a peaceable settlement.

Gladstone replied that never, during the present correspondence with Russia or the discussion of the serious questions at present before Parliament, had the government said anything in prejudice of the idea advanced by the questioners. As, however, every answer made by the government to interrogatories put in the House of Commons was an announcement to Russia, the Government Gladstone said, had decided that it was neither advisable nor convenient to make declarations to Russia through Parliament.

In the House of Lords this afternoon the Egyptian loan bill passed in committee without amendment.

In the lobbies of the House of Commons this afternoon it was said that Gladstone, pale and agitated, made an almost pathetic appeal to members of Parliament not to press upon the government questions concerning the situation in Egypt or the condition of the correspondence with Russia upon the Afghan boundary and the collission of Russian and Afghan troops. Mr. Gladstone, it was claimed, was much disturbed by the news from Cairo this morning, of a rupture by France of her relations with Egypt.

Breaking Up British Estates.

LONDON, 24.—At a great meeting of rich and influential landowners, held in this city to-day and attended by such persons as the Duke of Argyle, Earl Carnarvon and Marquis of Ripon, it was resolved to take steps for the immediate formation of a large corporation to be called "The National Land Company," for the purpose of securing the gradual breaking up of the large parcel system of landowners now injudiciously prevalent in Great Britain. The present plan of the new organization is to buy up land at wholesale and sell it out in lots not to exceed 40 acres, under conditions likely to cause further subdivision and prevent aggregation of title. The company will, in all likelihood, buy for cash and sell on deferred payments covering at least ten years.

BRIEF TELEGRAMS.

Right Hon. John Nash, present Attorney-General for Ireland, has been appointed Lord Chancellor of Ireland, to fill the place made vacant by the death of Sir Edward Sullivan on the 13th instant.

The Prince and Princess of Wales landed from the royal yacht at Belfast yesterday. Notwitstanding rain was falling steadily, vast crowds assembled to welcome the royal visitors, and much enthusiasm prevailed.

Mr. Swainson, wounded by the explosion at the Admiralty Office in London Thursday, continues to make favorable progress. The detectives have obtained little evidence likely to afford a clue to the perpetrators of the outrage.

The fifth game in the billiard tournament in New York was played last night between Sexton and Schaefer and was won by the latter in 27 innings, the score standing, Schaefer 500, Sexton 265.

The ship *State of Maine*, Captain Nichols, arrived in Royal Roads, Victoria, yesterday. She left Shanghai at 11 a.m., March 25th, and made the distance in 29 days. This is the quickest trip on record. When the *State of Maine* left Shanghai there was one Russian man-of-war and three French cruisers outside that place.

At 10 o'clock p. m. yesterday, Dr. Douglas drove up to General Grant's in his coupe, attended by his wife, evidently intending to make a brief stop, but after an examination of the General's throat, and owing to the patient's condition, he concluded to stay all night. The General is feeling very restless.

Denver, 24.—A *News* Trinidad special says: The execution of E. C. Hibbard, for the murder of Wm. Knowles at Stonewall in 1883, took place here to-day in the presence of a large crowd of people. This is the first legal execution that has ever taken place in this county, though six men have suffered death at different times in the last 12 years at the hands of mobs.

A CARD.

THE DESERET HOSPITAL, UNDER the most favorable auspices, is now open for the reception of patients, having removed to that large and commodious building lately occupied by the Deseret University. The appointments are new and of the first order. The halls and rooms are thoroughly ventilated, and warmed by a furnace and steam heating apparatus extending through the whole building. Good and capable nurses are supplied, and every attention paid to the comfort and welfare of its inmates. The medical department comprises a fine stock of drugs, and a line of some of the most valuable and elegant surgical instruments and appliances ever imported into the Territory. Arrangements have been made to secure the first medical talent the city affords for the benefit of patients. A specialty is made of the diseases of women, and correspondence is solicited from the afflicted.

H. B. CLAWSON, President.
W. F. ANDERSON, Medical Supt.
M. P. HUGHES, House Surgeon.
E. B. WELLS, Secretary.

A limited number of students will be taken, who will board in the Institution, receive instruction preparatory for future studies, and will be expected in return to devote a certain portion of their time and labor to attendance on the sick and other requirements connected with the Hospital. Correspondence on this subject is solicited from Bishops and other authorities in the settlements. dwW
