LIQUOR TRAFFIC BETWEEN STATES

Senate Judiciary Committee Agrees Upon Bill Dealing With Interstate Shipments.

NO "COLLECTION" DELIVERY.

Measure Eliminates Features That Are Believed to Have Endangered A Constitutional Test.

Washington, April 6 .- After extended hearings and exhaustive arguments by the members of the senate committee on judiciary that committee today agreed upon a bill dealing with the shipment of liquors from one state or territory to another state or territory. The measure will be reported by Senator Knox, who was chairman of the sub-committee which conducted the hearings. It is comparatively simple in form, providing that there shall be no "collection on delivery" packages of liquor shipped in interstate commerce where fictitious names are used, and that the name of the consigner and consingee shall be stated plainly The provision is designed to eliminate the practise of railroad and express agents acting as agents for liquor

There were numerous bills before the There were numerous bills before the sub-committee dealing with every phase of the question and particularly they sought to give to a state the right to control liquor shipments the mement they entered the border of, the state. Temperance organizations all over the country desired this feature to be incorporated in the bill so as to give the widest latitude to a state in exercising its police powers. All of the bills before the sub-committee were declared inconstitutional by a yote of the bills before the sub-committee were declared unconstitutional by a vote of \$ to 2. A vote was later had on the bills by the full committee and they were declared unconstitutional by a

were declared vote of 7 to 5.

The bill agreed upon eliminates the features that are believed to have endangered a constitutional test. In reporting it to the senate, Senator Knox will perfect its pharaseology. The report on this bill will be unanimous. At the same time the minority of the committee believes that certain other features intended to broaden the scope of the measure should be enacted and the was agreed that the votes of all of t was agreed that the votes of all the members of the committee might or should be incorporated in the re-port to the senate. The submission to the senate of the views of the minority the senate of the views of the inhority will transfer the whole matter to the senate floor with excellent prospects of a renewed fight there for what is termed a broad "states right" bill.

LISBON MUCH EXCITED

Following Bloody Affray With the Troops, the Rioters Mobbed Three Newspaper Offices.

Lisbon, April 6 .- The city is in a state of intense excitement over the election riots of last night brought on by the indignant protest of the Republican element that it would be de-frauded at the polls. Great crowds filled Pedro Square and troops were massed in front of St. Dominique church, these points being the chief centers of the Republican disorders. The rtoops, consisting of cavalry and infantry were called from their barracks and they were met by showers of stones. The soldiers charged repeatedly, finally opening fire on the mob. Intense disorder ensued. One observer says the street were literally red with blood. No official statement of the number of killed and wounded has yet been issued and pending authority from government sources no unofficial or press statement is permitted to be tele-graphed concerning the extent of these

Raybould in which he asked that the intercepting sewer be connected with the gravity sewer that the people living south of Fifth South and west of State street might have the use of the sewer pipes which have been laid along the streets in front of them, will probably be approved or disapproved at this evening's session of the city coun-

Mr. Raybould has been active in this matter ever since the sewer in the dis-trict referred to was completed, during last December. The work of laying the pipes was done by James Kening last December. The work of laying the pipes was done by James Kennedy, but has been of no use to the residents, as it was never connected with the intercepting sewer. It will require \$1,000 to do this work, as the sewerage must be pumped through a wood stave pipe for a distance of 4,800 feet on account of the intercepting sewer at its end, being 38 feet below the level of the gravity sewer. It is due to the persistence of Mr. Raybould that the board of woks made a trip of inspection over the district affected the party including Mayor Bransford, Councilman Murdoch, City Engineer Kelsey, besides the members of the board of public works. After the trip of inspection, the board decided the property owners were entitled to consideration and that they would recommend that their wishes in the matter be granted by the city council.

Should the council decide to complete the work, it is estimated it will take probably six months before connection can be made between this sewer at Eighth west and Eighth worth streets

probably six months before connection can be made between this sewer at Eighth west and Eighth North streets with the gravity sewer at Eight North and Third West, and the matter of cost may deter the council from granting the petition, owing to the absence of ready cash in the city's coffers, but that it will eventually be approved, there can be no question, since the board has recommended that the work be done. be done.

SHROPSHIRE BOUND OVER.

He is Accused of Obtaining Money by False Pretenses.

In Justice Dana T. Smith's court this norning, W. R. Shropshire was ordered bound over to await the action of the money under false pretenses. It is alleged money under false pretenses. It is alleged that Shropshire swindled a junk man out of several hundred dollars several months ago. At the time Shropshire was working for a railroad company and, it is said, sold a quantity of brass to a junk man. Later he is alleged to have induced the junk man to issue another check for the stuff and that he kept the money. Shropshire went to Los Angeles and was arrested there and brought back to this city for trial.

ESCAPES DEATH BY FIRE

Blaze on East Second South This Morning Might Have Resulted Fatally But for Timely Discovery.

But for the timely discovery of fire

at the residence of E. J. Fluke, 428

east Second South street, about 10

o'clock this morning, the building would

have been completely destroyed, and, in all probability Mrs. Fluke would have been burned to death.

Mrs. Fluke was sick in bed and all alone in the house when a passer by saw smoke and flames shooting from the roof. He ran to the door and aroused Mrs. Fluke, telling her the house was on fire. An alarm was turned in and the sick woman rushed up stairs in the hope of saving furniture. When the apparatus from Nos. 4 and 1 arrived, the blaze had got a good start and the fire fighters had a hard time in controlling the flames. have been burned to death. hard time in controlling the flames. It was necessary to use a line of hose before the fire was extinguished. The blaze was under the roof, but had eaten biaze was under the roof, but had eaten its way into the rooms below, and also out through the roof. Several times the firemen were driven back, so in-tense was the heat. The fire was fin-ally put out with a loss to the building of about \$300 and as much to the con-tents. Both building and contents are covered by insurance, the contents for \$1,000. The building is owned by Gor-don, the tailor.
