Makes a Bitter Assault Upon Grover Cleveland.

HE BELIEVES IN HARMONY.

Party Won a Great Victory in 1892, But it Was Betrayed by Ex-President-Put Burden on Bryan.

Kansas City, Mo., April 21 .- William I Bryan, speaking this morning to the t, "Democracy," at the banquet given by the Democratic Jackson County dub and the newspapermen of Missouri emplimentary to William J. Stone, at which the addresses did not begin until ing after midnight, bitterly arraignel Grover Cleveland and his supporters sho are making the plea for harmony among Democrats. The assembly was up of representative Missouri nocrats and the remarks of Mr. Bryan met with enthusiastic favor with his hearers. He said in part:

"What we need in this nation is moral courage among men. We need moral sourage more than ability, and we mat the kind of moal courage that will ight for honest Democratic principles. In your junior senator, William Joel Mone, you have in Missouri a man who sses both moral courage and abil y. I am glad that you have harmony this state. I believe the Democrats Missouri give the best idea of how to cure harmony among the Democrats I believe in harmony the nation. he Democratic bed is wide enough for il who want to come in, but we do not ant to have to sit up nights to keep tain pretenders from picking our ckets. We invite all who have strayockets. d from the fold to come back if they so desire, but we want them to stay in after they come. Cleveland had the best rtunity to redeem the Democratic arty ever offered to any man since the ime of Andrew Jackson, but instead of

worship of money, and nothing but the ideals of Jefferson will ever lift us out of the slough of despond. The Demo-ctatic party is not the enemy of honestly acquired wealth. I have heard it said that Democrats believe that a man said that Democrats believe that a man can not have money and be honest. I deny that as being false. A man can have money and be a Democrat, but it money has him he has to be a Repub-lican. Jefferson believed that money should be subservient to the man, and Jefferson was an educated man. There are neolis today who thick that the are people today who think that the educated man should be separated from the common rabble. Jefferson believed that the man who was too good to take part in politics was not good enough to live in a land like this. Jefferson did Inve in a land like this. Jefferson did not create the principles of the Demo-cratic party; they existed long before Jefferson lived. He simply put the prin-ciples into living form. There never was a time when the people were more ready to accept Democratic principles than today. We must appeal to the con-science of the people. Three remedies for existing evils have been suggested to me. First, an appeal to conscience

to me. First, an appeal to conscience of the people; second, by legislation; and third, by revolution. But revolution is not to be thought of. Revolution is not a remedy in a country where people can vote. People can vote themselves

can vote. People can vote themselves free in this country and if they could not do that, they could not fight them-selves free. Jefferson stood for the peo-ple and their interests and Hamilton believed that the president and the senate should be elected for life or dur-ing good behavior. The Republican party today is forming not Jefferson lubs, but Hamilton clubs.

"Never swerve in your loyalty to Democratic principles. I would not give one Democrat who really believes in Democratic principles for a whole barnyard full of trimmers and compromisers who pretend to be Demorats. Letters of regret from Richard Olney
