FUNSTON NOW IN GOLDFIELD.

Is Convinced That the Presence of the Troops Has Been a Necessary Precaution.

Goldmold, Nev., Dec. 12,-The first day of the attempt to reopen the mines of Goldfield without the ald of the Western Federation of Miners has passed and there has not been a single Instance of altempted violence or disorder in the camp. Unarmed pickets of the Goldfield Miners' union have approached as close to the scene of operations as the armed guards of the Mine Owners' association would permit and have succeeded in inducing some of those who have signed the agreement to return to work to riolate that agree-ment and leave the mines. Ar-resis may be expected at any time. It is stated by some, while others char-acterize the whole report of probable arrests as a bluff. After a conference with President Charles H. A LAST RESORT.

A LAST RESORT. "Martial law should be a last re-sort, and I will not advocate it until there has been some great violence committed and the local authorities have proven themselves unable 18 stop any outrages, such as the destruction of life or valuable property. Either the president or the governor of the state must declare martial law, and in the event that it be the governor, I shall consider that the regulars are at his service, just as would be the state militia, provided Nevada has such an institution. In fact, it is my idea that the regulars are here to take the pince of a state militia during the present crists.

ABE RUEF MAY BE GIVEN COMPLETE IMMUNITY.

San Francisco, Dec. 12.—From a statement made by Asst. Dist. Atty. Francis J. Heney. It is believed that the prosecution is contemplating granting Abraham Raef immunity, in order to successfully prosecute the bribery-graft cases, by gutting the former political boss to take the stand and furnish the link between Supervisor James L. Gallagher and the public service corporations which, through Reuf, are alleged to have done the bribing. Asit, Dist, Atty. Even the of-floors themselves are just a little bit surprised at the amount of work that has been accomplished and the quiet confidence that has marked every step of preparation. If the ships were des-tined for immediate conflict little more could be done to make them ready for the fray. The distinctive white and buff paint which has brought so much admiration to the American ships when pitted on parade against the grinty-hulled navies of other na-tions would of course have to give way in favor of the after tone of leaden gray, but that is a matter of only a few hours' work.
