'Local Financiers Report Few Features, but Strong Demand for Money.

SHOP KEEPERS ON THE JUMP

Holiday Trade Is Brish With Promi-Of Greater Volume With Nearer Approach of Christmas,

General trade is beginning to get busy with Christmas as the holiday season approaches and storekeepers everywhere are assuming the qui vive in ex pectation of a big rush. Purchasers are parently giving some attention to th vid invitation of the retail business community to shop early, thus avoiding a rush and crush at the last moments, and making it easier on the

The banks report a steady and grow The banks report a steady and grow-ing business, but no special features for the week. The clearings for the last two days have taken a drop as compared with the figures of a year ago; but there were specially heavy receipts for a couple of days at that time, which ran up the figures to ab-normal dimensions. The sheepmen are applicants for loans, to help them carry their stock through the winter; so are business men who are branching out for the holidays. It is interesting to note that the year's clearings to date gre slightly over \$77,000,000 ahead of the totals of 1908.

THE CLEWS LETTER. Henry Clews in his last circular let-

The CLEWS INFITEX. In the CLEWS in his last circular let-ter says: Cheeral trade continues large in vol-me, especially in the interior. Bark dearnings demonstrate this, Railroad earnings are very satisfactory, and the status of the same set of the same set of the current year are valued on the of samo set of the same set of living, about which complaint is so undersail This prosperity of the status of the same products and goes for towards explaining the present high of set of living, about which complaint is so undersail This prosperity of the dustrial life. Is the bedrock of the pres-ned and at the spense of the temp prised and at the expense of the temp set of using unger profits than are prised which keeps others we beginding more or less in luxuries, the set of which which complaint the so the which keeps others we and at the which keeps others we are the state of the temp set of the sing out of the state of the temp set use it either in getting out of y beginding more or less in luxuries, the set of which keeps others we are the state of the temp set of the sing out of the state of the temp set of the sing so of the temp of the state of the set of the sing so of the temp of the state of the temp set of the temp of the state of the temp set of the sing so of the temp of the state of the temp set of the temp of the state of the temp set of the temp of the state of the temp set of the sing so of temp of the state of the temp set of the temp of the state of the temp set of the temp of the state of the temp set of the temp of the state of the temp set of the temp of the state of the temp set of the temp of the state of the temp set of the temp of the state of the temp set of the temp of the state of the temp set

HARDWARE.

HARDWARE. The harware trade reports good busi-ness, with an increase in holiday wares, including sleds, states, silver plated ware, cutlery ,etc. The demand for stoves and heaters continues without any indication of cessation, and not-withstanding the advent of steady win-try weather, the outgoing of builder's hardware has scarcely diminished. There is a tendency to place orders for February and March delivery, showing that the manufacturers and jobbers are behind in their orders, and want to be prepared for further possible delays. In fact some manufacturers are four months behind in their orders.

LUMBER.

LUMBER. The lumber trade reports shipments from the northwest as still badly tied up, both by the weather and by the wwitchmen's strike, Indications are that first of the year, as the loggers want more money for their logs, which they are ikkely to get. There is no change in shingles, but higher quotations are expected if the strike is not settled. There is no more trouble about cement, for there is plenty of it, and the fac-tories are all running in full. An un-precedented amount will be used dur-ing the coming year.

WHOLESALE DRY GOODS.

The wholesale dry goods trade re-ports it is between seasons now with them, and business for the time being is not particularly brisk. Preparations for the most part is being made for the spring trips of traveling men, who are expected then to do a fively busi-pess. A cool demand is reported for

The palate is almost tickled with Scott's Emulsion of Cod Liver Oil. The stomach knows nothing about it, it does not trouble you there. You feel it first in the strength it brings; it shows in the color of cheek and smoothing out of wrinkles. It was a beautiful thing to

do, to cover the odious taste of Cod Liver Oil, evade the tax on the stomach, and take health by surprise. It warms, soothes, strengthens and invigorates.

FOR SALE BY ALL DRUGGISTS Send 10c., name of paper and this ad, for our beautiful Savings Bank and Child's Sketch-Book. Fach bank contains a Good Luck Ponny.

SCOTT & BOWNE, 409 Pearl St., New York

The hosiery demand is broadening, fall 1910 lines being taken in larger quantities, with spring duplicate orders coming forward more freely. Spring sille orders increase, with agents doing more for next season than for fall. Black and colored taffetas, especially in wide goods, are in active request. Messalines are reported strong, a great run being predicted for them next year. Raw silk shows an upward tendency in the primary markets. Hollday linen goods are in demand, with offering scarce, and all stocks being thoroughly cleaned up, and goods that can be sub-stituted for linens are being taken. Towelings, table linens and sheetings are reported in steady demand. Bur-laps are stronger in tone, with prices marked up on Calcutta advices. RETAIL DRY GOODS.

RETAIL DRY GOODS.

RETAIL DRY GOODS. The retail dry goods trade reports that the change in the weather to whi-ter has spruced things up remarkably. This is indicated by the delivery of packages. One large firm is sending out 800 ot 900 daily. Saturday last, it delivered 978 packages, and on Sun-day 179. The stir in holiday goods has begun with something of a rush, in all departments. The glove coun-ters are well patronized, and the novel-ty departments are crowded. The large stores have erected booths for sale of specialities, which are busy most of the time. There is a run in all lines, and in all departments; there is a general, promiscous purchasing that is pleas-ing to the dealers. By another week the rush for the season will have been fairly opened, and a prosperous time is anticipated.

BUSINESS NOTES

The dividend periods of a large num per of the local stocks occur Dec 31 and the first two weeks in January. Large amounts of money go out to the stockholders on those dates, the principal disbursements being made by the three sugar companies, the Home Fire Insurance company and Zions Saving Bank & Trust company, During the week the Home Fire declared a special dividend of 2 per cent on its capital of \$300,000, payable the 15th inst. Its regular divi-dend of 2 per cent is payable Jan-uary 1. Zions Saving Bank also paid 2 per cent regular and 8 per cent special during the past week. The following are the latest quota-tions: out to the stockholders on those dates

the spring trips of traveling men, who are expected then to do a lively busi-ress. A good demand is reported for blankets, horse blankets, dress goods, serges and Panamas. The cold weather has stimulated some the jobbing trade-Jobbers report the goods market slow, with not much progress in new busi-ness, high cotton merchandising prov-ning a difficulty. There is a fair call for prints at higher ranges of prices, sales on gray goods are small. Fancy cottons are in good de-mand, with mercerized goods, pop-lins and similar lines being well taken. Trade in white goods has been fair, but not specially active, though on the best styled novelties some manu-facturers are oversold. While certain rough goods are popular, some of the plain fabries, mercerized and printed in pastel shades, are being bought to the exclusion of many other silks. The struggle between slik and cotton manu-facturers is bound to be interesting this season. There are low prices for underwar, some of the mills changing over to sweater manufacture, as the demand for this class of goods has been phenomenally heavy, and it is found there is more money in them than in cottons.
