 the cost of reduction of ore to be \$4 per ton, whereas it is claimed to be actually but \$1.10 per ton, and that the greater portion of the profits has been charged against the maintenance and other enterprises of the company, dictingt from miner distinct from mining, The dispatch states that United James A. Pollock & Co., bankers and brokers, furnish the following, received over their private wire this afternoon:

The dispatch states that United States Senator George T. Oliver, Wil-liam Flynn, T. J. Crump, John S. Wel-ler, Ralph E. Flynn and J. G. Splane of Pittsburg, George Bradley and M. L. Einger of Blair, Charles Y. Fuller and M. A. Carton of Utica. N. Y., Frank Knox of Salt Lake and J. H. Brown of Wilmington, Del., were among the officials indicted, Mr. Flynn being president of the Silver Flynn being president of the Silver Peak company, and Senator Oliver being a prominent officer in the cor-poration. There is considerable of Silver Peak stock held in Salt Lake

charges allege that the officials stated

City, and up to date only the best of reports from the properties have been received.

Mr. Knox scouted the idea that there was any ground for criminal charges in connection with the matthan \$2,000,000 in the property." said Mr. Knox 'and only something over a year ago were shipments of bullion begun. We built a mill and started in

begun. We built a min and stated in to work the property right. The re-turns have not begun to pay back the amount of the outlay.⁴ It will be a good while before they do. The trouble seems to be merely a dif-ference of opinion between the tax tax befor of Esmeralda county and the

lector of Esmeralda county and the management of the mine at Pittsburg as to what constitutes net re-turns. The charge of conspiracy is ridiculous, from the fact that the bullion shipment of the mine, from the time shipments were begun, are and have been open to the menetion of the tax officials. Every inspection of the tax officials. Every pound of bullion produced by the mine is shipped to the mint at San Francisco The returns are accessible to the count and state officials, and they may know to a cent just what the mine produces

"I am a director in the company, but owing to the fact that the headquarters are located at Pittsburg, where the leading officials reside, it is impos-sible for me to attend the directors' meetings. But I know this much, that the mine is conducted on a business basis, and that the only foundation for the story published in the morning paper seems to be, as I said, a differ-ence of opinion as to what constitutes net returns. I am as ignorant as to the details of the itom as anyone, and I shall watch with interest further developments."
