

## MRS. STANFORD'S BODY LAID TO REST

Between Those of Her Husband  
And Son in the Great Stan-  
ford Mausoleum.

### FUNERAL SERVICES SIMPLE.

Church Filled With Thousands of  
People Who Came From All Parts  
Of California.

Stanford University, Cal., March 24.—The body of the late Mrs. Jane Stanford, who recently died at Honolulu, was laid to rest in the Stanford mausoleum, between the bodies of her husband and son, near the institution of learning that bears their name. Before the final commitment of Mrs. Stanford's body to the stone sarcophagus, simple services were held in the great memorial church erected by her in loving memory of her husband. The church was filled with thousands of people from all over the state, who came to pay their tribute of respect.

Promptly at 1:30 o'clock this afternoon the grand organ in the memorial church began the solemn tones of Chopin's funeral march, and at the same moment the bronze doors at the main entrance swung open to admit the small cortege of pallbearers and relatives, receding the coffin. Eight of Stanford's most stalwart athletes bore the body down the central aisle, through the thronged congregation, to the semi-circular chancel, and placed it in front of the altar.

In conformity with an often expressed wish of Mrs. Stanford, no wealth of flowers adorned the chancel or altar. Only a few modest clusters of white lilies and roses were used in the church, all the magnificent floral tributes being reserved for the decoration of the mausoleum. Great piles of floral offerings, sent from all parts of the country, were heaped on all sides of the huge tomb, covering a great space on the surrounding lawn, and almost hiding from view the sepulcher itself.

Notable among the floral offerings were a combination monogram of red "S" and yellow "C" sent by the students of the University of California; a symbolic design of memorial church, presented by the employees of the estate; magnificent pieces from the society of Elks, the Olympic club, the Vina estate, the various classes and organ-

### A GOOD DEAL OF NONSENSE.

About "Blood Purifiers" and "Tonics." Every drop of blood, every bone, nerve and tissue in the body can be renewed in but one way, and that is, from whole-some food properly digested. There is no other way and the idea that a medicine in itself can purify the blood or supply new tissues and strong nerves is ridiculous and on a par with the fol-de-rol that dyspepsia or indigestion is a germ disease, or that other fallacy, that a weak stomach which tends to digest food can be made to do so by irritating and inflaming the bowels by pills and cathartics.

Stuart's Dyspepsia Tablets cure indigestion, sour stomach, gas and bloating after meals, because they furnish the digestive principles which weak stomachs lack, and, unless the deficiency of pepsin and diastase is supplied, it is useless to attempt to cure stomach trouble by the use of "tonics," "pills" and "cathartics" which have absolutely no digestive power, and their only effect is to give a temporary stimulation. One grain of the active principle in Stuart's Dyspepsia Tablets will digest 3,000 grains of meat, eggs and similar foods, and experiments have shown that they will do this in a glass bottle at room temperature, but of course are much more effective in the stomach. There is probably no remedy so universally used as Stuart's Tablets, because it is not only the sick and ailing, but well people who use them at every meal to insure perfect digestion and assimilation of food.

People who enjoy fair health take Stuart's Tablets as regularly as they take their meals, because they want to keep well, prevention is better than cure, and Stuart's Dyspepsia Tablets do both; they prevent indigestion and they remove it where it exists. The regular use of one or two of them after meals will demonstrate their merit and efficiency better than any other argument.

izations of the university, and hundreds of other beautiful designs from organizations and individuals.

The clergymen who took part in the services were the Rev. William Kirk Guthrie of the First Presbyterian church of San Francisco, Rabbi Voor-sanger of Temple Emanuel, San Francisco; the Rev. E. K. Dille of the First Methodist church, Oakland; the Right Rev. William F. Nichols, Episcopal bishop of California, and the Rev. C. M. Hill of the Baptist Theological seminary of Oakland. The principal address was delivered by Rev. John D. Dinmore of San Jose.

Between 4,000 and 5,000 people followed the body from memorial church to the mausoleum, and all but two or three hundred of these represented a close interest in Mrs. Stanford and the university. Fifteen hundred undergraduate students formed the main body of the column. In addition, there were nearly 600 members of the faculty and as many alumni.

At the portal of the mausoleum, which was covered with flowers, the last rites were performed. These were brief and simple, and held entirely in the open air. Rev. Charles Brown of the First Congregational church of Oakland delivered a short address and Bishop Nichols offered the committal prayer.

This closed the funeral rites as they had been arranged, but this was not all. As the heavy casket was being carefully lowered into the marble sarcophagus, the assembly of 1,500 students, who formed the inner portion of the great circle of humanity, broke forth with wonderful spontaneity in the

Stanford college hymn, "Hail Stanford, Hail."

As the last lines of the second verse died away, the great marble slab closed over the casket, and the earthly remains of Mrs. Stanford reposed peacefully beside those of her husband and her son. The massive bronze doors of the mausoleum were closed and locked, and the vast mournful audience, which numbered not less than 10,000 persons, dispersed.

### F. P. MAGOUN ARRESTED. Held in \$10,000 Bail on Charge Of Grand Larceny.

New York, March 24.—Francis P. Magoun, of the banking and brokerage firm of Magoun Brothers & Co., which failed a few days ago, was held in \$10,000 bail for examination in the Tombs police court today on a charge of grand larceny. Magoun came from Cincinnati yesterday to testify in a suit in the supreme court and was arrested immediately after leaving the stand.

R. L. S. Hall, a broker, who acted as agent for his wife in stock transactions with Magoun Brothers & Co., said that Magoun was in town and placed information in the hands of the district attorney on which a warrant for arrest was issued.

Magoun is charged with the larceny of \$20,000 worth of various stocks belonging to Mrs. Clara W. Hall. It is alleged that between Nov. 23, 1902, and March 23, 1903, Mr. Hall, for his wife, deposited with Magoun Brothers & Co., 142 shares of the Southern Railway preferred, 100 Standard Rope & Twine preferred, 1,000 Union Copper company and 57 shares American Security company preferred and that in spite of repeated demands they were not returned nor was any accounting rendered for them.

Magoun was paroled in the custody of his counsel.

### Angels of the House of David.

Detroit, Mich., March 24.—Glittering with topazes and accompanied by an uproarious brass band and a small menagerie, the long haired "Angels of the house of David" passed through Detroit today en route to the community of Christian Israelites in Benton Harbor, Mich. There were 85 in the party, following Benjamin and Mary, founders of the faith, home from Australia.

Benjamin Purnell with his wife Mary, started the "House of David" at Benton Harbor. The community lives in a group of dwellings on the outskirts of Benton Harbor. From a cannery factory and 300 acres of gardens the thrifty Christian Israelites secure a good living.

The plan of the sect is to keep busy in the cannery factory and on the farm until August, 1916, by which time they expect Satan and his followers to be overpowered.

### Public Printer Fined.

Washington, March 24.—In the prosecution of Public Printer Palmer for violation of the anti-smoke law, Judge Scott today imposed a fine of \$50, and the case was appealed.

## Your Pulse.

Feel It Once a Week  
To See In What  
Condition Your  
Heart Is.

If your pulse beats too fast, or too slow; too strong or too weak; or too irregular; 'tis a sign of a weak heart. Refresh it with Dr. Miles' New Heart Cure.

The healthy pulse of a grown person should average 70 to 80 beats a minute. True beats should be regular pulsations—not too weak to be easily felt, not so strong as to be felt without some pressure of the skin.

You may not feel particularly sick, but any day, if your heart is weak, you are liable to some sudden seizure, breast-pang, fainting, weakness or smothering spell, a sign of real danger.

Do not wait for such a moment to come, but treat your weakened heart and circulation with a safe and efficient, modern, scientific Specific remedy, such as Dr. Miles' New Heart Cure has proved itself to be.

It is a wonderful heart and blood tonic and will make the blood rich and the heart strong. It will do you good by strengthening and building up the nervous system and circulation.

"For years I was troubled with pains around my heart, to 40 beats a minute, palpitation and fluttering of the heart, occasioned by the slightest exertion, such as fast walking, lifting, ascending a flight of steps, excitement or emotion. I have used only a few bottles of Dr. Miles' Heart Cure, am entirely free from all of these symptoms, and believe myself completely cured."

G. M. LAYTON, Taylor, Tex.

**FREE** Package of Dr. Miles' Anti-Pain Pills, the New Scientific Remedy for Pain, Also Symptom Blank. Our Specialist will diagnose your case, tell you what is wrong, and how to fight it. Free. DR. MILES MEDICAL CO., LABORATORIES, ELKHART, IND.

### Mail Burned in Wreck.

Seattle, March 24.—Many thousands of ordinary letters, all of the second-class mail matter and all of the registered mail matter were destroyed by fire and water in the Great Northern train wreck in Idaho yesterday. All of this mail came from St. Paul and the east, and was intended for distribution in Spokane, Seattle and all points in northern and western Washington.

### Lots of Cerebro Spinal Meningitis.

New York, March 25.—Cases of cerebro spinal meningitis continue to be reported in this city, three deaths having occurred in the past 24 hours. All the victims were adults. In two of the cases there were no symptoms of the malady until within a few hours of death.

An experiment of trephining the skull has been tried on a boy nine years old at Flowers hospital, and has apparently been successful. The operation took place nearly a week ago and since

then their leading specialists have watched the patient anxiously in the hope that a method of treatment of the mysterious disease might be found. It is said he has shown signs of relief, and hopes are entertained for his ultimate and complete recovery.

The disease is the most baffling with which the health department has ever been confronted, in the matter of the lack of knowledge of its symptoms, cure and prevention of general spreading.

A medical journal issued today says there is a singular resemblance between the symptoms of cerebro spinal meningitis and typhus fever, which frequently leads to confusion before an exact clinical diagnosis can be had, and indicates the points of similarity. It also calls attention to the efficacy of the simple measures as preventives, and refers to the neglect of the mouth and nose, which permits many pathogenic micro-organisms to reach more vital parts.

### COLOMBIA AND U. S. Measures Being Taken to Re-es- tablish Cordial Relations.

New York, March 25.—Important measures are being taken toward a definite re-establishment of cordial relations between Colombia and the United States, cables the Bogota, Colombia, correspondent of the Herald.

By a definite, mutual and a satisfactory arrangement a settlement has been effected of long pending valuable claims of Americans in Cartagena in which Boston capitalists are interested.

President Reyes is spending no efforts, the correspondent avers, to induce foreign capitalists to co-operate in fostering Colombia's prosperity.

No American claims are now pending and peace is stable throughout the country.

### AGE OF CHIVALRY.

Chicago University Prof. Wants  
To Know Why It is Dead.

New York, March 25.—At the first public meeting of the New York association for Household Research Charles R. Henderson, a professor of sociology in the University of Chicago, was the principal speaker. He declared that nowadays only "ladies" are treated with chivalry. "Why is it?" asked the professor, "that chivalry is dead among us? It is because the youth were taught to be courteous only to ladies and not to all women. The man who is courteous to ladies only and not to girls in the streets is only half civilized. He is a gentleman only because it suits his pleasure to be courteous. But until men treat the poor working girl with as much respect and courtesy as they do their friends in the ball room, we have no real gentlemen."

"The relation of the household work-

All sorts of tea grow on the tea bush; all sorts on the same tea bush.

or is closer to her employer than that of any other class of employe. For the woman who works in the house is in a way a member of the family, and while she is engaged for a definite sum to do certain work, yet there is a moral side to the relation that makes it more than just an industrial problem. It is a contract between human beings. The wage earner sells her service, sells her

intelligence and psychological senses, and this is what makes this particular phase of the industrial problem so difficult, for there are some things that cannot be bought under the wage system."

Z. C. M. I. Social club, Saltair, Thursday, 30th. Fine floor. All invited. Coms.

## A Few Suggestions:

The stock has been gone over carefully with a view to inaugurating on a big scale a clean-up of stocks that are too heavy.

Cleaning up the Keith-O'Brien basement stock means the bringing out of such quantities of carpets, rugs, draperies, etc., as might newly stock many a good store. They are not odds and ends, but our regular fine and staple stock of newest patterns, most desirable weaves—fresh merchandise.

You are well aware that our second anniversary occurred only on Thursday. This is important in that it convinces you that there is no old and shop worn stock.

One more valuable suggestion: This class of goods is marked on an average of about 10 to 15 per cent lower than is customary because of the stocks being in the basement and the difficulty of getting people downstairs.

There must be an inducement. Reliably lowered prices plead stronger than arguments. It is from these exceedingly reasonable prices that we have made reductions. Every dollar saved is safe economy.

## Curtains--Fine Assortment

LACE CURTAINS.	\$3.25 for	.....	\$2.50
Nottingham Lace Curtains—250 pairs make a feature of this sale. Values from \$2.50 to \$3.50 for \$1.95.	\$4.50 for	.....	\$3.00
