TEACHER'S INSTITUTE.

Monday afternoon.

Opened by choir singing "Gladly Meeting." Prayer by N. A. Woodbury.

Topic: "Did you Think to Pray?" Mr. Wm. Walker read the following:

"Twice," thought the law fully explained what was required. Read extracts from the scriptures, and making useful suggestions; related experience and observations.

Miss Cecilia conducted a little class in arithmetic; their animated faces manifested activity of mind; and the rapidity with which they could write and add numbers and go through mental exercises, showed how certain their progress would be.

Choir, "Love at Home."

Considerable time was used in discussing the appointed subjects. Association adjourned until 10 o'clock, Tuesday. Choir sang, "Beautiful Star." Prayer by A. S. Jedd.

Tuesday morning.

Meeting called to order at 10 o'clock by Superintendent Morgan. Prayer by G. M. Mumford.

After roll call and reading of previous minutes, Miss S. E. Vutcut explained the meaning of the word "orthography," and said the best method of learning it was through the medium of the eye. Commenced by giving her classes correct terms on the board or chart, and always had the children write the words. Never, under any circumstances, allowing them to spell orally.

The best method of teaching penmanship was explained by Miss Emma Finch. The eye should be trained as well as the hand and arm. Class in favor of correct writing in classes, as each individual must get his own practice and experience. Pupils should not be provided with printed copies until they have first learned to write reasonably well.

Prof. F. J. Lewis, out of town, Mr. Horace Cummings substituted a lesson on drawing in place of history. After pupils had acquired some knowledge in drawing straight lines, perspective could then be introduced. The speaker illustrated his views by a variety of drawings on the board, showing the principle of shading and how the pupils could advance quickly and easily from one principle to another.

An animated discussion on the subjects of orthography and penmanship was entered into by the members. Miscellaneous business was next in order, and after benediction by Prof. F. J. Lewis, the meeting adjourned to 2 p.m.

Opening prayer by Thomas S. Higham. Song, "To-day."

Professor F. J. Lewis, on "Practical Methods of Moral Training," thought it needless to urge the necessity of moral training, as it was a subject which was separated from intellectual, but quite as necessary. He had seen persons who were morally and intellectually, but bad morally. And such beings were in our midst. And such beings were in our midst. And such beings were in our midst.

On the "Use and Abuse of Text Books," Miss Lydia Wells thought very much depended upon the use and abuse that teachers made of them. She herself used text books for all her classes except grammar, orthography and punctuation. Very young pupils could learn more readily from the ideas advanced by teachers than from text books, but older pupils should know how to use their text books properly and gather practical knowledge therefrom.

On "Schoolhouse and Grounds," Mr. N. A. Woodbury said that choice and rare plants and even early vegetables receive the almost undivided attention of the gardener. He applies himself constantly to their care and culture, getting proper light, ventilation, temperature, and soil, and do as carefully rear and tend the children. God has entrusted to our care the schoolhouse and grounds, and a house is good enough to educate children in a mistake. School buildings should be well situated, with surroundings of such a nature as to excite the admiration of the child. The inside should be furnished with every convenience necessary to its comfort and proper instruction.

The County Superintendent read that portion of the school law referring to the time of the year for opening and closing schools, and desired the teachers to comply with it as far as possible.

A vote of thanks was tendered the officers of the association. After benediction by President John Morgan the session closed to resume its labors some time in August.

Before separating, Superintendent Morgan announced that a committee had made arrangements for all present to adjourn to the ice cream parlors adjoining the Opera House and partake of refreshments. A pleasant time was enjoyed, after which teachers and friends parted with many expressions of good will.

"Jane Eyre."—A Denver paper says of this play, in which Miss Charlotte Thompson appears at the Theatre on Thursday night.

In this review of play Charlotte Thompson re-opened the Academy of Music last night. There was a large audience, though the theatre was not entirely filled, composed of Denver's best people. Miss Thompson "Jane Eyre" has won a deserved wide reputation, and all that can be said of it must be in praise.

As the abused orphan who is cured of the symptoms of the audience step to the happy end of her troubles, she is a very good actress, who have visited Denver and each appearance has made her a greater favorite. Her comedy is an excellent one. The scenery was very good, and the acting was very good.

new curtain was much admired. The applause was quite generous, and those who took leading parts were several times called before the curtain. "Jane Eyre" will be repeated to-night. Miss Thompson deserves crowded houses all the week, and the popular prices fixed by the management will surely attain this result. There has never been half so good a show in Denver for the money.

We received a pleasant call to-day from Alma D. Chambers, Esq., of Ogden, former of the Herald, of that city.
