We, the committee appointed by the Utah Indian War Veterans, at our last campfire, held at Payson, Utah, on the 18th, 19th, 20th and 21st of August, 1905, at which gathering there were present representatives from nearly every county in the State of Utah, to confer with our congressional delegates on the subject of "pensions" to the veterans of the Black Hawk war of Utah.

Gentlemen, we earnestly desire you to present our claims, and urge upon

Congress the justness of our cause. Forty years ago we had on our hands Forty years ago we had on our hands in the then territory of Utah, a vexa-tious and bloody Indian war, extending over Sevier, Piute, Sanpete, Utah, Wa-satch, Millard, Beaver, Iron, Washing-ton and Kane counties rendering a strong military force constantly neces-sary in the field during the years 1865. 1856 and 1857 At the hegingling of hos-1866 and 1867. At the beginning of hos-tilities, Colonel Irish, then superintendent of Indian affairs, called on Gen-eral Connor to protect the settlements of the territory from Indian depredations. Being refused aid from that di-rection, Colonel Potter was next appealed to for aid and protection. Colonel Potter sent east for instructions and received answer from General Sherman that we must rely on the militia of the territory, consequently the militia being called out by federal authority, we, old veterans of the war, responded, and in this war we furnished our own arms, ammunition, transportation, cavtary horses, and equipments. adjutant general's report to Hon. experience. James B. Cunlead, retired, of 216 west Fourth North, says: "Years ago I strained my back lifting heavy bag-gage and ever since I have had attacks gage and ever since I have had attacks of aching across my loins. At first they were trifling and I paid little at-tention to them, but as I grew older spells occurred which did not pass away as mysteriously as they came, and three years ago the attacks were so severe, and of such long duration, that I knew I was in for kidney com-plaint. When a urinal trouble devel-oped, particularly annoying at night. I resorted to remedies when attacks

oped, particularly annoying at night. I resorted to remedies when attacks were in evidence, but from no one of them did I receive anything like as satisfactory results as I did from Doan's Kidney Pills, procured at the F. J. Hill Drug Co.'s store. They stopped the aching across the small of my back and the usual washnass in the my back and the usual weakness in the action of the kidney secretions. What is of much more importance to me, up to date, there has not been a symptom

CHANCE SAYS "ENOUGH."

Has Laid Aside the Baseball Mask And Pad Forever.

And Pad Forever. And Pad Forever. Frank Chance will do no more catching. He has put aside the mask and pad and will guard first base as long as he sticks to the game. Speaking of his retirement as backstop. Chance said the other day: "I never remember catching a game since going to Chicago that at least one finger was not swollen stiff or 1 had a tape on one to keep it together. Several years ago I had the second finger of my right hand split open seven times in two months, and each time the flesh was torn away from the bone for haif an inch. This ought to be enough to make a player get out of catching. I will never want to catch again, for I am tired of al-ways getting hurt and being out of the game. Of course there is danger of get-ting injured in any position, but catching is the most dangerous Since I have been playing bail I have been knocked sense-less eight times, and three of these times the dectors gave me up; but I am still altyee and good for a long time yet. While catching is a more dangerous position than first base, it is not harder, for a catcher always has the play in front of him, which, of course, makes it easier, while the first baseman has plays com-ing from all sides. A catcher with a good arm and luck has no kick coming, but I have been catching ion enough to raise enough to know that I can do more good to a team in some other posi-tion. At the start I found that first base bothered my arm some. A catcher throws directly ahead of him all the time, while tion. At the start I found that arst base bothered my arm some. A catcher throws directly ahead of him all the time, while a first baseman has most of his throws to his side and has to get the ball away with an under-hand movement to make a fast play."

FOOTBALL LEGISLATION.

Suggestions Made for Change of Rules by West Point Officials.

Rules by West Point Officials. West Point, N. Y., Dec. 27.—General Al-bert L. Mills, superintendent of the mili-tary academy, today sent a letter to H. M.
