of his life insurance in her name in-stend of having part of it for his crip-pled son, is the true reason for her niling a divorce against him in the dis-trict court; so alleges Estes in his an-swer and cross-complaint filed yester-day afternoon. They were married on Sept. 28, 1905, and soon thereafter she requested him to deed all of his prop-erty, valued at about \$10,000, to her, and because he refused to do so, she flew into a rage and called him ville and abusive names. He alleges that part of his insurance was in his wife's name and part in his son's name, but Mrs. Estes wanted all of it in her name and asked him to change it. This ro-quest was also refused, whereupon she again called him ville names and hit nim with her fists. During the summer of 1906 she de-dared that she was going to have a good time with other men while her husband was out on his railroad run, and she did not care for him, or what he said about it. She also toid him that she was going to Springville to see her old sweetheart and was going to have a good time with him. On May 17, 1907, he alleges that she threw a pair of shears at him and then attempt-ed to choke him, and he was compelled to throw her down on the floor and sit on her. Even then he claims that the bit his side so that it is sort yct. He denies all of the allegations of her oplaint in regard to treating her in a cruel manner, and asks that her com-plaint be dismissed, and that he be granted a divore.

Snow, to prohibit them from tak-ing any further action in a case where-in L. V. Snow was plaintiff and Sackett was defendant. It is alleged in the pi-tition that during Sackett's absence in Idaho in 1905, Snow secured judg-ment against him in Justice Smith's court for \$60, and that said judgment was fraudulently and Hlegally secured for the reason that he was never served with a summons in the case and when it came up for trial, O. G. Snow em-ployed James S. Perry to appear as counsel for Sackett so as to mislead the court. It is alleged that Perry had no authority to represent Sackett and the judgment rendered in the case is illegal. Judge Ritchie issued the writ of prohibition, which is return-able on Saturday.

WESTERN MARKET LETTER.

# Special Correspondence.

Special Correspondence. Kansas City Stock Yards, June 3.-Cattle receipts were small all of last week, total 27,500 for the week, and the market made a good gain all along the line, including prices on cows and heifers. Steers advanced 30 to 50 cents during the week, because packers could not secure she stuff from any source, and had to bid lively to get what steers were required. Independent buy-ers took all the cows and heifers at 10 to 25 cents stronger prices. The vol-ume of the stuff is only one-fourth as large as normal, and as independent buyers are more active each day the present condition lasts, a gradually moreasing demand will develope for cows and heifers. Total run today is 15,000 head, very liberal for Monday, but all kinds are selling steady and active, includieng cows and heifers. No cattle from a distance are here today, but the Lockhart steers sold at \$5.85 late hast week, the highest price they have yet reached. Top fed steers to-day \$6, builk \$5.15 to \$5.90, yearlings \$5.85, as light steers gained more than heavies last week. Cows bring \$3.25 to \$4.65, heifers \$3.75 to \$5.25, buils \$3.40 to \$4.75, calves \$4.00 to \$6.50, stock steers \$3.50 to \$4.75, feeders \$4.25 to \$4.85. Mutton prices advanced 10 to 20 cents

steers \$3.50 to \$4.75, feeders \$4.25 to \$4.85. Mutton prices advanced 10 to 20 cents last week on the moderate supply of 25,000 head, for the week, and the mar-ket is 10 higher again today, run 11,000 head. All classes are embraced today, including Arizona range lambs at \$3, said to be the highest price ever paid in the United States for strictly range lambs. Arizona clipped yearlings \$7.10, ewes \$6.10, clipped western lambs \$8. Arizona wethers \$6.25. Medium class stuff sold 25 to 50 cents below these figures. Goats bring \$4.25 to \$4.60. Texas muttons \$5.66 to \$6, and fed western lambs in their wool brought \$8.90 today. The general average prices now stand at the extreme high point ever known, and the situation has every appearance of security. J. A. RICKART.

PROF. CHRISTENSEN'S PAPER. Prof. Christensen spoke against the setting forth of one's own notions on theological questions as the word of the Lord. Inspiration, he said, might be made to include (1) all the revela-tions that God had given to men whether in ancient or modern times, or this or some other continent: (2) the Interpretation of this word of God by the Church or by authority there-of: and (3) such light and truth as may come to the teachers in the con-duct of their recitations. He dwelt upon each point separately. The speaker made of microrow is pa-vision of the second part of his pa-per. They were: (1) The work of the real legacy criticism, which he thought might be made use of so far as it would prove useful in the work of theology teaching; (2) the work of would-be critics of the world, who make use of such discoveries of high-er criticism as will bolister up a pet theory of the critic, and whom the speaker warned his hearers against; and (3) what Prof. Christensen term-ed school-room mental gymnastics. The principal theme of the paper, however, was the need in all our schools to discriminate between what is true and what we wish were true. Prof. Christensen believed that the teacher should be perfectly free with his classes in theology to admit his often, in fact, necessary. But the teacher should see to it that his pu-pils do not confuse the word of the Lord-on any particular subject with some one's explanation of that word, the two should be kept distinct. The paper was to have been dis-cussed by David O. McKay, but as he had been called to accompany Presi-dent Lyman south, and as Heber J. Grant was prosent, Elder Grant was asked to give the discussion. ELDER GRANT TALKS. The supreme court has handed down an opinion affirming the judgment of the lower court in the case of Jennie Edgar. the husband and father of plaintiffs, who was killed at Park City on July 5, 1905, while employed as a fireman. The engine on which Edgar was working ran into an open switch and jumped the track and he was crushed to death. The company contended that Edgar was guilty of contributory negligence and that he also assumed the risk of his employment. It made a motion for non-suit at the conclusion of plaintiffs' evidence and the motion was granted. The supreme court now holds that the evidence did not show that the company was responsible for the switch being open or that the open switch was the real cause of Edgar's death, hence the Judgment of the lower court is affirmed. Chief Justice McCarty wrote the opin-ion of the court, which is concurred in by Justices Straup and Frick.
