ANTI-DANCING WILL.

Chicago, May 20 .- "I direct that no part or parcel of this property be spent in dancing or card parties, in games of chance or in theater-going. ' Tak whom this money was earned, and also remembering the moral and re-ligious character of your father, may his example influence your life and the lives of your children." This clause forms a part of the will

of Mrs. Elizabeth Stewart of Hillsdale, Mich., filed in the recorder's office in connection with Chicago property. All the estate was bequeathed to her daughter, who is made executrix, and directed to give "some portions" to the Good Will Baptist denomination.

STRENGTH OF TEMPERANCE MOVEMENT CONCEDED

Chicago, May 20 .- The strength of the temperance movement was conceded at the annual banquet of the society of brewing technology, and numerous suggestions were offered on how to combat the opposition.

"We must be on our guard or be put out of business," decared Charles J. Vopicka. "For years the child at school has been taught that alcohol is a poison, and that it is sinful to par-take of beer. That is a terrible mistake. None of our predecessors have raised a finger in protest. We must prove by experts that the man who drinks moderately is the healthier man. Then we must teach the young men to think for themselves and not listen hypocrites. 'We do not want special privilege

just justice. We must see to it that the men elected to public office are honest, honorable and liberal. Clean out the indecent from the business and install the respectable element, like Germany and England."

SUBMARINE SIGNAL BELL.

Washington, May 20 .- In lessening danger in navigation and delay in transportation the submarine signal bell has become an effective agent and

bein has become an energical approximation of the second approximation of the substantial service rendered to shipping by the sub-marine bells, has decided to extend their installation from time to time to light vessels on both coasts

and upon the great lakes. At present many of the light vessels are thus equipped and the signals which they send out are of vast ald Canada also has taken up the equip-ping of her coasts and England, Germany, Holland, France, Sweden and Denmark are doing the same. The bells operate during fogs and at night, and the sound waves emitted by the bell under water have been known to travel as far as 27 miles.

These sound waves are picked up by the receiving microphones on board ships and by the code signal of each station, the vessel's navigator is able to tell where he is located.

WHOLESALE SUICIDES.

Three Succeeded in Taking Their Lives, Tow Failed.

Pittsburg, May 20.—Three persons succeeded in taking their lives and wo made failures in this city early today. George Phillips of Greensburg, Pa.,

took carbolic acid and then threw him-self in front of a passenger train. The bodies of two men were taken from the river, both, it is said, hav-

ing committed suicide. Mrs. Tessie Gallacher, 22 years of age, took carbolic acid early today. Her condition is critical. Harry Quillen, a bridegroom of 24 hours, attempted suicide last night by drinking lye and then jumped into the

river. He was hauled out.

HEAVY ROADS ARE DELAYING WESTON

Denver, May 20 .- Edward Payson Weston, the veteran pedestrian, who is walking from coast to coast, was all but stuck in the mud yesterday was and was compelled by heavy rain to stop last night at Weskan, Kansas, a little station 12 miles from Sharon Springs near the Colorado state line. It is still raining, however, and Weston, who resumed his westward journey this morning is not expected at Chey-enne Wells until late this afternoon.

Kansas City, Mo., May 20 .- Sergeant John Walsh, the retired cavalryman who is walking westward and says he will beat Weston to the Pacific coast, could not be located this morning, and

it was believed he had made an un-announced start. On Tuesday, Walsh left Fort Leavenworth for Topeka, over the Union Pacific right of way. Late last night he returned to Kansas City, saying the roads were bad and that he intended to make a new start, this time following the line of the Santa Fe railway.

Mr. Lyon wel-comed the idea and said that he would be glad to have any assistance we might be in a position to furnish. The understanding was that these attorneys could work with the county attorney in the pending cases. He expressed himself glad to have them. I believe that Mr. Lyon is acting in good faith and will continue to do so despite the attack which is being made upon him by the Republican for obvious rea-sons. They can fight as much as they like but the Central Betterment league is not going to be drawn into a political broil to suit their own ends. "I was not quoted correctly by the

OTHER CHALLENGES.

When court resumed session Atty. King began questioning the talesmen Judge Smith was challenged by the

defense, and excused. C. H. Reagan said he was not pre-judiced against the defendant on acas to their qualifications to try the case at bar, laying particular stress upon the point as to whether or not count of the fact that she was arrested in the "stockade." It came out It came out the prospective juror would be influ-enced in his verdict by the fact that the woman charged with the offense the examination Reagan that he was not prejudiced against the practise of prostitution in was arrested in "a red light district, known as the stockade." W. S. McCornick stated that such a the "stockade" or elsewhere, and, he was challenged by the prosecution and fact would have no influence upon his mind in trying the case, and that he could give the defendant the same conexcused.

D. M. Todd said that he had formed an opinion as to the evil of prostitution, but not as to its restriction to any certain district. In reply to a question by Mr. King, Mr. Todd said that he was opposed to prostitution, but if it could not be eliminated, he was in fa-vor of its being confined to a restricted district. Mr. Todd was excused as disqualified by Judge Hanks, upon development of the fact that he resided outside the city and precinct limits, at 1650 south West Temple street.

David L. Murdock of the credit de-partment of Z. C. M. I., was asked by Mr. King if the attacks on Mr. Lyon in the Intermountain Republican would prejudice him in favor of or against Mr. Lyon and the defendant in the Air. eratorship late last night took on rather startling aspect inasmuch as it paved the way for a battle between the east and the west as developed today. The withdrawal of the Rev. Dr. Robert McKenzie of New York and Dr. Johnson of Colorado Springs had the effect of throwing the support of these two candidates to Dr. Edgar P. Hill of Chicago. This was brought about by the fact that Dr. Hill expects soon to take up his residence on the Pacific coast and the further fact that Dr. McKenzie formerly held a pastorate in Portland, Or., and therefore has been the choice of a great number of the vestern commissioners. However, in view of the fact that Dr. Hill may so to west, and that Dr. McKenzie wa.

willing to support him as being a west-ern candidate, the issue of west against east became the battle erv, and now i appears that Dr. William L. McEwan of Pittsburg, who heretofore has held almost an undisputed lead for the mod-eratorship, will have a hard race in which Dr. Hill will be his strongest pponent The voting will begin at 3 o'clock this

San Francisco, May 20 .- Patrick Cal houn's trial upon a charge of offering a bribe has been indefinitely lengthened by its latest sensation-the introduction of John Helms as a witness for the prosecution. ante-dated the famous declaration of July 4, 1776, and has been denounceod as a "myth."

It is claimed the Mecklenburg dec-laration was signed on May 20, 1775. A body of colonists met at Mecklenburg, near Charlotte, and, resolving them selves into a committee of safety, it is declared, they drew up a declaration of independence. Unfortunately for the discussion which has followed the original copy of the Mecklenburg declara-tion was said to have been lost in a fire which destroyed the home of John McKnitt Alexander, in whose keeping it was. Among Alexander's papers, however, it is related that a copy of the original, signed by him as a delegate and clerk of the convention, was found. It was in 1825 that the people of North Carolina first formally observed May 20. In 1820 the legislature of the state appointed a committee to consider all the evidence obtainable concerning the affair. The committee affirmed the genuineness of the Mecklenburg resointions. Today the date. May emblazoned on the great seal of North Carolina, the declaration appears in the statute books of the state and each year the anniversary is observed.

MRS. STONEWALL JACKSON.

The president, who yesterday was the guest of Petersburg, Va., was met at the railway station upon his arrival here by an imposing committee of citizens and escorted to the Selwyn hotel. Arriving at the hotel the president held a reception. Then with scores of Union and confederate veterans for his escort, the president, accompanied by Mrs. "Stonewall" Jackson, proceeded to

a reviewing stand from which he wit-nessed the passing of probably the most noted parade ever held in this city. Large detachments of the national guard of both North and South Carolina were in the line. The industrial, co-lonial and floral divisions were made up of handsomely decorated floats. More than 200 farmers were in line on horse back. Many, accompanied by their wives and children, appeared in colonial

Mr. McCornick said that the fact that he was president of the Utah Young men's Republican club, whose official organ the Intermountain Republican was, and which organ was engaged in attacking the county attorney, who was prosecuting this case, or the alleged fact that the move against the "dis-trict" was a political one, would also have no bearing upon his verdict in "Would the flaring headlines of the Republican holding up Mr. Lyon to ex-ecration have any influence on your mind for or against Mr. Lyon, and consequently upon your verdict in this case?" asked Mr. King.
