Shad in Utah Lake. SALT LAKE CITY. Dec. 14, 1888.

Editor Deseret News:

The following letter from Hon. Marshall McDonald, United States Fish Commissioner, will no doubt interest your readers :

UNITED STATES COMMISSION OF FISH AND FISHERIES, Washington, D.C., Dec. 8, 1888

Dear Mr. Musser-It is very gratify-ing to have the evidence of success suggested by your letter just received. Cannot you send me, in alcohol, a specimen of the shad, so that it may be identified beyond a peradventure? If the specimen obtained be one of those planted last spring, the rate of growth indicates an abundant food supply for young fish in the fresh water. If there is like abundance for the fish in the salt and brackish water, I will feel well assured of the success of this important experiment in acclimation, which I have had so much to heart. Will write further about the spotted catilsh. M. McDoNALD, catfish. Commissioner.
