ELKS WILL HAVE A GLORIOUS TIME.

Provo Preparing for the Reception And Entertainment of Visitors.

REUNION STARTS NEXT WEEK.

Garden City Fast Assuming a Holiday Appearance-Progress of Sports Arranged.

Preparations for the reception and entertainment of visitors during the annual reunion of state Elks' lodges at Provo next Wednesday, are assuming tangible form. The most noticeable of the preliminary arrangements is the enclosure for the midway, A high board fence encloses half a city block, in the heart of the town. Within the enclosure space has been set apart for a number of attractions for the amusement and entertainment of the visitors, who will be guests of the Elks Wednesday and Thursday, and of the Commercial club Friday and Saturday.

Here and there evidences of decoration are to be seen. It is a little too early for the finishing touches to be put in place. The preliminaries, however, tespeak a decoration along lines never before attempted in that city. Set places in red, white, blue and purple, a combination of national and lodge col-ers, together with miles of variegated lored bunting and countless flags, if give the town during the four-day festivities, a holiday, patriotic and fra-

The citizens have thrown their homes open to the Elks and the members of the Commercial club for the housing of delegates and strangers. Society clubs and other organizations, in conjunction with the rectaurants and botels, will be amply prepared to feed the multitude.

No one need have any misgivings or apprehensions as to being properly takn care of as long as they choose to

remain in the city.

The entertainment committee has arranged for sports and amusements va-ried in character sufficient to cater to the delights and pleasures of all visi-tors. There will be a strawberry feators. There will be a strawberry fes-tival, fish dinner, excursions up the beautiful Provo canyon, and minor ones it close proximity to the city, dances every evening in Mozart hall, balloon axensions day and night, concert in the Tabernacle, two street parades, Bert Velson to loop the loop, several vaude-ille performances, dramatic show at he theater, a miners' drilling contest, attendant upon crown ing Miss Leah Daniels as queen of the tvities, German village, tea garden, ere that beverage is to be served by hest girls while a Chinese band Chinest girls while a Chinese band discourses music, and other attractions

An adjournment will then be taken until 2 o'clock, when the first session of the association of Elk lodges will be held. The second and final will be held the next day.

In the interim, and throughout the four days, the entertainment features will be had. It is the present intention to conclude the whole with a masked ball Saturday night in Mozart hall. There is much business of importance to Utah Elks to come up during the association meeting. There is a consti-tution and set of bylaws to be adopted,

officers to be elected, minor business matters to be attended to and selection of the next convention city. SEVIER BRIDGE DAM.

State Board of Land Commissioners Consider the Project.

At the meeting of the state board of land commissioners yesterday the Sevier bridge reservoir project was considered but no definite action was taken in the matter owing to the in-

CONTINUAL STRAIN.

Many men and women are constantly subjected to what they commonly term "a continual strain" because of some financial or family trouble. It 'wears and distresses them both mentally and physically, affecting their nerves badly and bringing on liver and kidney allments, with the attendant evils of constipation, loss of appetite, sleeplessness, low vitality and despondency. They cannot, as a rule, get rid of this "continual strain," but they can remedy its health destroying effects by taking frequent doses of Green's August Flower. It tones up the liver, stimulates the kidtones up the liver, stimulates the kidneys, insures healthy bodily functions, sives vim and spirit to one's whole being, and eventually distributed to ing, and eventually dispels the physical or mental distress caused by that "continual strain." sufficiency of the data presented in regard to the same. A special meeting of the board will probably be called in a few days to take some action on the project. The proposed scheme contemplates the construction of a reservoir in the Sevier river valley about 25 miles below Gunnison by building a dam across the valley. The proposed dam will be 680 feet long, 68 feet high, 18 feet wide on top, will impound about 89,000 acre feet of water and its estimated cost by the Millard ounty people will be \$69,444.74.

county people will be \$69,444.74. State Engineer Doremus is of the opinion, however, that the actual cost will be about double that smount.

The land to be irrigated consists of about 10,000 acres in Millard county and lies a distance of nearly 50 miles from the reservoir site. It is proposed to send the water to the land through the Sevier river channel. Mr. Doremus says that the climate, soil and other conditions are favorable to the project but the practicability of it can not be determined by the information now at etermined by the information now at

WESTERN MARKET LETTER

Special Correspondence.

Kansas City, Mo., Monday, June 6 .-Not many bred cattle came in during last week, and such as did, were made up mostly of stockers, feeders and stock calves. Killing kinds of cattle advanced 10 to 25 cents during the week, Western fed steers sold at the best prices of the year, \$5.25 to \$5.60.Colorado helfers brought \$5.10. Feeders sold higher on account of good fat cattle market, but stockers and stock calves were slow and somewhat lower. A string of Wyoming feeders weighing 1.020 pounds sold the first of the week at \$4.15; fair to good, 500 pounds to \$50 pounds western stockers bring \$3.75 to \$4.25, with choice ones up to \$4.50. Western stock calves range from \$4.00 to \$4.50. Supply of cattle today is very light at all points, and market is a repetition of last Monday's good market, when an advance of 10 to 15 cents was made. The feature of today's offerings was a big string of Colorado bred and strictly hay fed horned steers, weighing 1.357, which sold at \$5.45. Prices on everything except stockers are now at the highest point this year, and killing cattle are selling better than at any time in the last 18 months. Of course, grass cattle have not begun to move a grass cattle have not begun to move as yet, except from southern Texas, and when they do, market may be expected to drop off 25 to 50 cents, regulated, of course by the amount of the supply.

Most of the sheep now coming are Texas muttons, which kind lost 10 to 15 cents last week. Natives and westerns were strong, and sold a little higher than previously. Wooled Colorado lambs bring \$7.25 for choice ones; spring lambs \$6.50 to \$7.00; clipped lambs up to lambs \$6.50 to \$7.00; clipped lambs up to \$6.00; wethers and yearlings at \$5.50 to 55.75, and some extra choice ewes brought \$5.25 during the week. A few Texas feeding sheep were sold last week at \$3.65. Only 1.000 head arrived today; mostly Texans, Market is strong, and somewhat higher. Outlook for supplies in the immediate future has not changed and prices cannot set. for supplies in the immediate future has not changed, and prices cannot suffer much in the next several weeks.
