# SIELOFF AND BURNS COME.

"Fighting Dutchman" Goes to Ogden To Complete His Training -Yesterday's Games.

PACIFIC NATIONAL LEAGUE. W. L. P.C.

Yesterday's game at Boise ended badly for Salt Lake. The team from this town was four to the good in the ninth. Jensen was in the box first but was unsteady and gave many passes. He was taken out and replaced by Tozer who did pretty well until the last inning when he was batted all over the lot. In addition to the batting, Bruyette at short made a bad rumble of a ball and before the Infants got through they scored eight runs.

McFarlan started out for the Bables, but he was hit pretty freely and his place taken by Wright. The game was slow and uninteresting. The score follows:

#### EALT LAKE.

# MELVIN-SKELTON RECITAL

Philadelphia, May, I7.—Howell outpitched Waddell today and St. Louis added a shutout to the locals. Barthold, a new pitcher was given a trial by Manager Mack in the ninth Inning. He struck out one man and gave a base on balls. No hits were made off him. Attendance, \$,800. Score: R. H. E Large and Appreciative Audience Hear R. H. E Them Do Some Excellent Work.

The First Congregational church was New York, May 17.-New York won to-day by timely hitting in the fourth in-ming. The visitors could do nothing with Chesbro's pitching. Attendance, 1.809. Score; crowded to the doors last evening, by a delighted audience in attendance on the song and violin recital given by the pupils of Mrs. A. D. Melvin and George E. R. H. E. New York ..... 511 4 Detroit ...... 1 6 2 Skelton. Seats were early "at a premium," and before the recital began Batteries-Chesbro and McGuire; Donit was a case of "standing room only." Encores were not allowed. Had they been, the recital might have lasted unhad charge of the collection and ar-rangement of the educational exhibits He has had the co-operation of practi-cally every school official and teacher in the state in the work, and all are to be commended for the most creditable exhibit obtained in such a short space of time.

Captain Thomas Downs, of the Indian office at Washington, was in town last evening, en route from investigating the condition of the Indians in the Moapa country, and registered at the Knutsford. He says there are about 200 Plutes on the reservation of 1,100 acres, Plutes on the reservation of 1,100 acres, of which only 100 acres are under culti-vation, and about 500 additional acres, though well watered, are not cultivat-ed. The captain will recommend that the Indians be provided with farmins implements and live stock so that they may take care of themselves, or the lands leased to the highest bldders. Captain Downs speaks highly of the productiveness of the lands, and of the value to be added by cultivation. He says there are some 250,000 Indians in the United States, the same number as existed 10 years ago.

# Beneficial to Growing Vegetation.

The weekly crop bulletin just issued by the Utah section, United States department of agriculture, for the week

days and rather cool nights prevailed during the week. Moderate showers

during the week. Moderate showers fell over the southern portion of the section which were very beneficial to growing vegetation. Under the impulse of this favorable weather, crops made rapid advancement, except in localities, principally in the extreme north, where the cold nights retarded growth. Fall wheat and barley were looking well. The seeding of spring wheat and oats was neairing completion with the early sown coming up to good stands. Beet planting was in progress with the early sown coming up. Lucerne was generally in good condition; irrigation had begun in some localities. Fruit was in full bloom and generally in promising condition. Some damage by frost was reported, but it is not thought to be serious. Potato planting was in progress, though in many le-calities this work was completed. Gar-dens were generally doing well, though some tender plants were injured by frost. Some hay was cut in the south-west portion, with yields below the average. The range was good and ock in fine condition. Sheep shearing was nearing completion. nearing completion.

# Cut Telephone Wires After Entering Home of Jos. Wm. Taylor.

A daring burglar, one who has evidently had much experience in the 'profession," made an attempt to rob the residence of Joseph William Taylor, 103 nor h East Temple street, shortly after 11 o'clock last night, but shortly after 11 o'clock last night, but was frightened away by Mrs. Taylor. Mr. Taylor was not at home at the time, and when Mrs. Taylor heard a noise down stafrs she supposed it was her husband returning. She turned an electric button and the hall and porch were flooded with light. The burglar then concluded it was about time to make a haste with but the fellow dis-

# Melvin has a promising array of youth-ful talent under her direction, and whose powers of song are being brought out in a pleasing and profitable manner. The violin numbers afforded great pleasure to the audience. His pupils always do well, and Mr. Skelton has often shown his abilities as an instruc-tor. The performance of his younger pupils occasioned much favorable com-ment. Little Romania Hyde in her per-formance of the "Stephanie Gavot," the playing of Clarence M. Burton in the "Tarantelle," and "Traumerie," and Mascagni's "Infermezzo," by Edward Fitzpatrick brought out prolonged ap-plause. A marked feature was the trio by Misses Lena Broaddus, Janet Wit-tick and Helen Hartley, who also ap-peared to advantage in solo numbers. Mrs. Majorie Brooks made a hit in the Godard's ever favorite and beautiful "Berceuse" from "Jocelyn." The even-ing was closed with the "Lost Chord," by a ladles' quartet composed of Mrs. ing was closed with the "Lost Chord," by a ladies' quartet composed of Mrs. A. D. Melvin, Mrs. A. G. Andrews, Mrs. R. J. Caskey and Mrs. N. P. Cook, with Prof. Radeliffe at the organ. This num-ber was dramatic and effective and much appreciated. The plano accom-planists of the evening were, Miss Hattle Wishard and Mrs. L. G. Burten. It was one of the most enoyable recitals ever given in this city.

Baseball Team of That Institution Cap tures Interscholastic Pennant.

The High School Laseball team, and the university "Preps" played the last gamo of the interacholastic series yeaterday ar-ternoon, and the High School nine won by a score of 19 to 7. The victors have won every game played this season, and therefore capture the pennant with a per-centage of 1,000. The line up for yester-day's game was as follows:

TOO HANDY WITH A PEN.

## Young Sheepherder Gathered in by the Police for Forging Checks.

A sheepherder named John Reese, who claims he is but 17 years of age, but who looks to be at least 23 years old, was arrested in a Commercial street saloon today by Chief Lynch and Detective Chase on the charge of forg-

the name of Axel Bloomquist of Evanston, Wyo., to a check for \$225, and cashed the same. He then left Evans-ton and came toward this city. Bloomquist had already sworn to a complaint charging him with forging a check for \$50. Word was sent to the police here to keep a lookout for him, and they were advised to watch the trains. This morning the young man went to a saloon on State street and cashed another check, for a small amount. But he made a fatal mistake in remaining in the place. The bartender became suspicious and went to the bank with the check. The bank people at once tel-ephoned to Chief Lynch that the man he was looking for was in town and in a saloon at 13 Commercial street. His arrest followed a few minutes later. The young man had nothing to say about the affair, and refused to talk to the police. He was locked up pending the arrival of officers here from Evans-

# UTAH IN EDUCATION.

ton.

Our World's Fair Exhibit is Now En Route to the Great Expesition.

Utah's educational exhibit was started on its way to the St. Louis exposition yesterday afternoon and it is safe to say that it will hold its own with the exhibits of any of the states. The work of finally selecting and packing the exhibits has been going on in the legislative hall in the city and county build-ing ever since last Saturday under the direction of Prof. Cummings, who has make a hasty exit, but the fellow displayed a method and coolness in his work that proves that he is an oll

hand at the business. He had gained entrance to the place by cutting through a window screen and then removing a pane of glass He was in the house when the lights were turned on, but he slipped out of the front door, locking it as he left. He was very careful to conceal his fea-tures, and shaded his face with his

hands as he left the yard. Just at the moment he was leaving. Mr. Taylor returned and passed the burglar, but of course did not realize that he had been trying to rob the house. Although he saw the man he was unable to give a good description

VEGETATION ON THE MOON.

Whether or not there really is vege.

tation on the moon's surface is a matter of some dispute. Prof. Pickering he-lieves that there is, basing his belief upon observations of what he has called

"variable spots"—portions of what he has chiled "variable spots"—portions of which ex-hibit a rapid darkening, beginning shortly after sunrise, followed by an equally rapid fading toward sunset, ac-companied by a diminution in size as they darken. From the peculiar char-acter of the variation observed Prof. Diskering concludes that organic life

Pickering concludes that organic life resembling vegetation is the only sim-

le explanation of the changes which e has observed. Considering the long

lunar day as a miniature terrestrial year, the theory of such life becomes colorable. The vegetation, if there be

colorable. The vegetation, if there be any, shoots up, flourishes and dies in a lunar day just as it grows and withers on the earth in a terrestrial year.-Kan-eas City Journal
