MINING, BUSINESS AND STOCKS

OHIO COPPER ATTRACTS EAST

People Are Beginning to Find Out That it is One of Bingham's Biggest Mines.

IMMENSE TONNAGE OF ORE

Figures Showing What May Be Expected from Operations of Property-Something About Costs.

The formation of the Ohio Copper company under the laws of the state of Maine-which is to absorb the original company organized under Nebraska laws—a few days ago, has brought the Bingham mine belonging to this concern into considerable prominence in the east. While local people have known for a long time that the Ohio is a big thing and will rank along with the best of the big copper mines of the state, there has been very little given out here by the local representatives of Mr. Heinze. The fact is, they have given out nothing at all. But when mines reach the point in development which gives them the importance that is attached now to Ohio Copper, it is difficult to keep all news bottled up all the time. Something is bound to leak out. This has been the case right along with the big enterprises being rounded out by Mr. Heinze in this intermountain region.

But the plans of the Montanan are maturing rapidly. And it is quite evident that someone has been authorized to talk judging from the number of stories that have appeared in eastern financial papers during the past week concerning Ohio Copper, Silver King Coalition, Miners' Smelting and kindred enterprises.

The Boston News Bureau came out few days ago with the following:

"The Ohio Copper company is now producing copper on a small scale and is earning enough on the 200 or 200 tons of ore shipped daily to pay development expenses. Work on the Dalton & Lark tunnel is expected to be completed about Nov. I when it will have been connected with the Ohio shaft which has attained a depth of 1,400 feet.

"The first unit of the Ohio comthe local representatives of Mr.

Ohio shaft which has attained a depth of 1,400 feet.

"The first unit of the Ohio company's concentrator should be ready for operation about Nov. 1 to treat 2,000 tons of ore daily. It is planned to increase the capacity of this plant by units of 2,000 tons each and the second unit will be constructed during the year 1998.

"A recovery of approximately 25 pounds of copper per ton is looked for by the Ohio management, and on its first unit alone the company should produce from 16,000,000 pounds to 20,000,000 pounds a year. Each additional unit will be equivalent to approximately this much more copper.

"There is said to be blocked out at the present time about 24,000,000 tons of sulphide ore in the Ohio. There is already developed a body of ore 1,000 feet long, 400 feet wide and 600 feet deep. A minimum of cost is figured by interests close to the management, as low as 7 cents a pound being estimated."

ON MINING EXCHANGE.

Place Again—Closing Quotations.

Beck Tunnel is getting back to the place it occupied last week before it took to the toboggan. The stock was in big demand today and closed on a sale at \$2.30. Lower Mammoth went up to \$2.774/c, while Mountain Lake was inclined to react slightly. Sioux Consolidated held its own, while Crown Point closed on a sale at \$1.20.

The unlisted stocks were not very active. Ohio Copper sagged some, but there were no sales recorded. Honerine sold at 25 cents; East Crown Point at 6 and 61/2 cents and Mason Valley at \$2.10.

Ore Shipments Will Begin from Camp Within a Week.

The railroad under construction by the Nevada Northern Railway from Steptoe smelter to the mines of the Ely district is rapidly being completed, says a correspondent, and Chief En-gineer Judell states that the mines having ore ready to ship to the Salt Lake smelters, where a good proportion of the ore will go previous to the completion of the Steptoe smelter, can begin their shipments during the coming

gin their shipments during the coming week.

Rails are laid from Ely as far as the ground of the Nevada Consolidated company and at the present time the track-layers are building at therate of about one and a haif miles per day, which will take them to the Giroux property within the nex ten days.

This will mark theopening of Ely's career as a producing camp, and while not over 500 tons of ore will be shipped out of here at the present time, most of this will be high-grade copper ore.

The first unit of the Steptoe smelter is rapidly being crected. The workmen are now being employed in erecting the steel work of the power house and of the concentrator. The blowing-in will apparently occur about the first of 1908.

NEVADA CON SUED.

The Alaska Copper company, has begun suit at Ely, Nevada, against the Nevada Consolidated Mining company to settle the matter of title to the Alaska group of seven lode mining claims. Both companies are claiming the property.

AT FEVER HEAT

New Oil Region in Southern Utah Creating Wide Spread Interest Now.

WHOLE COUNTRY LOCATED.

> Natural Gas May Be Found in Abundance-Into Arizona

Special Correspondence. St. George, Utah, July 21 .- Excitement is at fever heat in this region over the discovery of a very high grade of oil near Virgin City, 28 miles from St. George. As stated in the dispatches, oil was struck on the 13 inst. and the news was soon flashed from coast to coast. Almost immediately people began locating claims wherever there was any unlocated ground. Practically the whole valley in which Virgin City, is situated has been located.

is situated has been located.

Indeed, some ground must have been relocated a number of times, since the total acres filed on is approximately 150,000, whereas, the valley proper contains only about 75,000 acres. They are now staking claims west of the "Great Hurricane Fault" and have invaded the valley in which Washington Field and town are located and Little Valley to the south of St. George.

It is believed there are rich oil measures underlying the whole region in and around St. George, the Washington Field, and away up to the Hurrican Falut. It will be but a matter of a very short time until every available acre of ground in the county is taken up, with locations extending over into Arizona.

rizona.

Yesterday the Associated Press wired
founty Recorder, John T. Woodbury,
or an official statement of the facts
and he responded in a message of about

Patrick Holohan, superintendent of the works at Virgin, was in St. George yesterday and relates that while drilling a well a few days since, the drilling at well a few days since, the drilling at the property of the well and blew the drill upward, wedging it between the walls of the well and the heavy rope cable by which the drill is manipulated. Mr. Holohan had an immense hammer made from the stem of a stamp mill with which he intends dislodging the drill by driving it back. The hammer is an iron shaft about 16 feet long and weighs about 400 pounds.

SAW WEIMER COPPER. M. Stout Returns Greatly Impressed With Big Idaho Mine.

People are gradually coming to the conclusion that the Welmer Copper company's mine in Idaho is going to develope into a big thing. This opinion is shared in by J. M. Stout, who returned yesterday from a visit to this property and while he does not pretend to be an expert mining man, he does not believe it to be a very difficult matter to determine that the Weimer is a property possessed of unusual merit. "I regard the Weimer," said Mr. Stout today, "as being a wonderful copper property and I was particularly impressed with the manner in which development work is being done there. The management is certainly going at it systematically and I saw enough to satisfy me that the mine is being opened by men who have had experience in mining; thoroughly understand what they are doing and how to

opened by men who have had experience in mining; thoroughly understand what they are doing and how to bring about the best results.

"I made the trip wholly as a disinterested party. Some friends of mine wanted me to make an investigation in the stock of the Weimer Copper company, but before doing so, wanted me to make a trip to the mine and report, which I have done.

The company is shipping ore right along and I was shown the returns from 18 car loads which netted from \$24 to \$29 per ton. The fact that the wagon haul to the railroad is a long one, it takes pretty good ore to do this well. I have heard a good many flattering reports from Weimer and I am confident they have not been exaggerated. Shipments are being made at the rate of two carloads a week, but this could be trebbled without the slightest difficulty.

this could be trebbled without the slightest difficulty.
"Three tunnels are being driven at the present time into what it known as the valley view claim; one of them is in over 200 feet and the other two 150 feet each. All of the ore going to market is taken out of these tunnels and no effort has been made as yet towards stoping, cross-cutting or raising. Tonnage is being developed very rapidly in these tunnels. A little later on it is the intention to go down the mountain a little further and run in some additional tunnels so it can be seen that the property is ideally situated for cheap and profitable mining.

mining.
"I learned that the management has secured a valuable townsite about four miles below the mine on what is known as Birch creek and a number of shown as Birch creek and a number of permanent buildings have been erected there. In addition to this, several ranches have been purchased by which means the company has come into possession of some excellent water rights and when they get around to it the Weimer people it seems to me, should produce copper about as cheapiy as anyone."

Stock Called on Mining Exchange Today for First Time.

The stock of the Ibex Gold Mining company is now listed on the Salt Lake Stock & Mining exchange. The application of the company has been approved by the listing committee and it now occupies a committee and it

proved by the listing committee and it now occupies a conspicuous place upon the big black board.

The lbex property is located in the Detroit mining district and a control was recently acquired by Jesse Knight of Provo and David Evans of Los Angeles. A re-organization of the company was effected not long ago making the capital stock 1,000,000 shares of the par value of \$1 each.

The lbex group consists of \$0 lode mining claims, one-half of which are patented; the company has a cash balance on hand, it is stated in the application, and has no indebtedness. The distance from rall transportation is 20 miles. The mine is developed by 3,750 feet of shafts, tunnels, winzes, raises and cross-cuts and is said to have produced \$250,000 worth of ore between 1889 and 1895.

CONCENTRATES.

The Silver Shield mine of Bingham s in the market with two cars of con-

Col. Wall has been looking over his Bingham mining enterprises. He went out to camp yesterday. Capt. A. H. Mayne, accompanied by his brother, C. E. Mayne, have ar-rived from Nevada.

W. W. Armstrong spent yesterday in Park City where he went to look af-ter some business matters.

Manager C. W. Watts of the Seven Troughs Eclipse Mining company pull-ed out for camp again last night.

David Keith, president of the Sliver King Coalition company, has returned from a business trip to New York. Edward R. Zalinski, the mining en-gineer, has returned from a profession-al trip to Gold Mountain and Marys-

Manager W. J. Craig of the Federal Ely Mining company has gone to the property of that corporation on a brief inspection trip.

Cashier E. R. Woolley of the firm of James A. Pollock & Company has returned from a vacation spent very pleasantly on the Pacific coast,

The ore and bullion settlements reported late yesterday by McCornick & Company were: Crude ore and concentrate, 25.000; base bullion, \$45.000.

A dividend of 10 per cent has been declared on the capital stock of the Little Florence Mining company of Goldfield. The amount of the dividend is \$100,000.

At the meeting of directors of the Consolidated Flagstaff Mining company yesterday afternoon an agreement was reached to pool 55 per cent of the stock of the corporation.

the stock of the corporation.

A big strike was made a couple of days ago at Hamilton and the whole country is greatly excited over it. Miners are flocking into the camp, so rapidly has the report concerning the discovery spread. The discovery was made across from Hamilton, near the summit of White Pine mountain by one Fuller, a prospector. Fuller struck gold that assays \$2,000 to the ton. The strike is said to be one of the most extensive made in a long time inthat section of the country. Fuller has evidently located the property that will net him a big income.—White Pine News.

TO AVOIL MEETING OF JAP AND AMERICAN SAILORS

Brest. July 23.—The Japanese squadron is expected to reach this port tonight. The delay in arriving is senerally attributed here to the desire of the Japanese commander to make as short as possible the time that the American and Japanese warships will be together in the Aarbor in order to reduce the chances of any untoward incident between the salier men. The saliers from the American cruiser Washington and Tennessee, near here washington and Tennessee, near here at Jamestown, and there has been some threatening talk in the cafes visited by the American bluefackets. Rear Admiral Stockton, in command of the American yessels, has decided to grant no shore leave after the Japanese arrive.

The American officers are preparing to treat the Japanese visitore with great corduility. They will be shown every courtesy and entertained at dinner on beard the American flagship.

MARKET CLOSED HEAVY LIFELESS

New York, July 23 .- Declines in London affected the tone of the opening stock market here. Prices were generally lower, with dull trading. Union Pacific, Southern Pacific, Northern Paelfie, Great Northern preferred, St. Paul and Amelcan Smelting lost 1 and An-

aconda %.

The decline reached a point or more in Canadian Pacific, Reading, Pennsylvania and Central Leather, pfd., 1% in American Smelting and 1½ in United States Rubber first preferred. It was checked by vigorous support of Southern Pacific and Atchison. These stocks and some others rose a small fraction over last night. The recovery was not followed further and the demand became languid and allowed prices to slip back.

came languid and allowed prices to slip back.

Trading was almost at a standstill.
Bonds were firm.

Transactions were confined to a few speculative favorites which vibrated over small fractional ranges. Sugar declined 1. The tendency at 2 o'clock was to harden.

The market closed heavy and lifeless. Prices slowly hardened to the top level of the day in the final hour. U. S. Steel, Amalgamated and Southern Pacific were then % higher than last night. Prices yielded again in the final selling.

CONTRACTS AWARDED.

Board of Public Works Lets Improvements to Lowest Bidders

The board of public works met this morning and awarded contracts for about 12 miles of sewer work and 20 miles of sidewalks. The lowest bidders are shown on the following list of tenders tabulated by the city en-The bids received yesterday are

higher than those received for pracare higher than those received for pracare higher than those received for practically the same work in March and which were finally released because of the muddle over the new special tax law passed by the legislature. Following are the bids as tabulated:
Sewer extension No. 178, bounded by South Temple street, First North street, Main street and Third West street, Davis, Helsner & Drake bid \$31,534,70, or \$1.94 a linear foot; James Kennedy bid \$39,807.50, or \$2.46 a linear foot.

On sewer extension No. 189, which is

that district bounded by Fifth and Minth South streets, the gravity sewer and Ninth East street, Kennedy's bid was \$144,145.75, or \$2.05 a linear foot. There was no other bid.

In sewer extension No. 132, bounded by Fifth and Ninth South streets and Main and Second West streets, Kennedy's bid was \$68,724.64, which is \$2.05 a linear foot. This was the only bid submitted on this extension.

On sidewalk extension No. \$9, which comprises that territory from Canyon road to the reservation and from Brigham street to Third avenue; Johnson & Beacom bid \$71,204.70; S. Birch bid \$68,685.95.

On sidewalk extension No. 121, which

on sidewalk extension No. 121, which is bounded by the north side of Eighth South street from Eighth West street to Ninth West street; north side of Titusville avenue from Ninth West street to Jordan river, north side of Indiana avenue from Jordan river to Cheyenne street; John & Beacom bid \$4,112.95; Birch bid \$4,176.75.

LONG LIVE THE KING!

is the popular cry througout European countries; while in America, the cry of the present day is "Long live Dr. King's New Discovery. King of Throat and Lung Remedies!" of which Mrs. Julia Ryder Paine, Truro. Mass., says; "It never fails to give immediate relief and to quickly cure a cough or cold." Mrs. Paine's opinion is shared by a majority of the inhabitants of this country. New Discovery cures weak lungs and sore throats after all other remedies have failed; and for coughs and colds it's the proven remedy. Guaranteed by Z. C. M. I. Drug Store, 112-114 Main' St., druggists 50c and \$1,00. Trial bottle free.

SUCCESSFUL WORKS OF GIFTED YOUTH

Attained By Wonderful Talent of The Boy Phenomenal in Treating Sick and Suffering.

PEOPLE BEGIN TO BELIEVE.

Great Fer-Don's Offer Brings Hundreds To Offices in the Windsor Hotel. 225 Main Street.

Nothing succeeds like success. The saying is old and true. One of the best llustrations of the truism is the career of the Boy Phenomenal and of the creat Fer-Don, not only in this city and vicinity but in every part of the country.

And yet this success was not attained without determination, hard fighting against jealousy, incredulity and ignorance. The Boy Phenomenal will take no cases unless he is confident of cures. It is this straightforward, honest method which, together with his wonderful skill, has brought success to him and to the great Fer-Don.

PEOPLE BEGIN TO BELIEVE. Gradually the people of Salt Lake City and surrounding country are realizing that a man of unusual ability in healing the sick and suffering is offering to treat them, placing before them the science of the Old World, coupled with a natural aptitude for helping

uffering mankind.

Gradually the people of this section of the intermountain country are placing faith in the claims of the Boy Phenomenal and of the great Fer-Don. Gradually they begin to believe not only what they hear, but the marvelous, works done before their eyes.

IN PLAIN VIEW OF ALL. Every night, at Second South and Second West streets, men and women and children gather by thousands, and although with a feeling of doubt tr their hearts, cannot help but believe wher friends, relatives and acquaintances are benefited and relieved in

plain view. The liberal offer made by the great Fer-Don is bringing results; results beneficial to the suffering of this city and vicinity. This offer-treatment until the first of August for the price of medicines prescribed is daily increasing the already large number of patients in the offices of the Boy Phenomenal, Windsor hotel, No. 225 Main St. (Advertisement.)
