New York, April 1 .- The first witness oday at the hearing of Albert T. Patrick, the lawyer, charged with causing the death of William Marsh Rice last Sempteber was Mrs. A. M. Francis, who kept the house where Patrick formerly boarded. When she had been sworn and Assistant Dis. trict Attorney Osborne was about to put his first question, Mr. Moore, Patrick's lawyer, said he thought the wit-

Mrs. Francis testified that she had known Patrick since January, 1893. Pa-trick boarded with her at the time of his arrest. She was acquainted with David L. "On the ground that it would incrim-inate me." Mrs. Francis answered. Assistant District Osborne said there was no intention of implicating the witness with Patrick, but she still refused to testify. Justice Jerome then asked the wit-ness: "Do you believe the answer to this question would tend to convict you of a crime? Understand, not Patrick, nor Short, nor Meyers, nor anybody else, but yourself?" There was some more argument and finally Justice Jerome said: "If the witness is willing to place herself in such a position in the community as the witness does through her testi-mony, I don't see that I can compel her to answer. She is an intelligent wo-man, and fully understands this ques-tion. Are you willing to stand in that light?" Justice Jerome added, turning to the witness. Weeks of Self-Denial and Forty-six of Wantooness and Wrong Living. The Salt Lake Ministerial association

met in the Y. M. C. A, parlors this morning and an interesting paper was read by the Rev. P. A. Simpkins, pastor of the Phillips Congregational church.

After discussing the origin of the special observance of certain days and seasons he observed that most of such were probably the outcome and fruitage of superstition and idolatry of heart of early believers in the church. "There is in them still," said Rev. Simpkins, "the seed of formalism and careful guarding is needed and unwearied watching lest the tendencies of formal ceremony bear their fruit in dead works." In the observance of these days of self-denial, in the spirit as well as the letter, there is a deepening force for the eternal things within us." Continuing the doctor said, "I do

not wish to be understood as endorsing the present practice or spirit of the Lenten season, as we find them. I do not believe in six weeks of self-denial and forty-six weeks of wantonness and naughtiness of the flesh. Denounced mercilessly that faddish and shallow abstenance society affects as a part of its religious expression, but which is really nothing more than a resting sea-

Its religious expression, but which is really nothing more than a resting sea-son pecessary for women coming fagged out from winter excesses in so-clety. The observance of the Lenten season can be good and helpful only when observed in sincerity and truth." "Church going is no safe criterion of character. It no more makes a man a part of the kingdom than abstraction therefrom debars from that privilege. Yet it is not a matter of indifference whether or not one attends church. That man is an exception who can maintain a healthful life apart from particiption in church life by waiting on God in the service of His house." The only reason the Romish and Epis-copalian churches are so strong is that they insist upon attendance at church as an essential means to a noble end. Let us exait this virtue and by the proper observance of the Lenten season bring ourselves nearer God." This week is holy week, and under the direction of the Eriscopalian church a 20-minute prayer service for business men will be held at noon each day in the Y. M. C. The Ogden Waterworks company to. day filed a bill of complaint in the Federal court against the mayor, members of the city council, and the corporation of the City of Ogden.

The complaint alleges that on and about the 16th of January the defend ints passed a resolution injuring the said company, and making it impossible for it to collect the money due for water rentals or to renew contracts with those using the water of said company. That the said plaintiffs sent employes to shut off the water of said users who had not paid said proper in-debtedness, and that the defendant city interfered with the employes and put them under arrest. Now a temporary injunction is asked for and a suit of \$5,000 brought against the said defend. ants for alleged injuries.

Agent of County Commissioners Finds Bad Condition of Affairs.

At the instigation of the board of county commissioners Sheriff Naylor sent out Deputy Cummings Sunday to investigate pest house conditions. From what the deputy sheriff reports, the quarantine discipline of the smallpox hospital seems to be culpably lax. Mr. Cumming's information is mostly derived from Ben Harris, a former dep. uty, who lives on the hill just north of the pest house. A boy who was herding cattle in the neighborhood of the pest house, when asked if he ever saw any of the patients outside of the hospital precincts, said that he had often seen people from the hospital walking down the railroad track below the peniten-

BOERS IN LISBON.

They Are Accorded a Most Splendid Reception.

Madrid, April 1 .- Dispatches from Lisbon are rigorously censored. Letters say the Boers who arrived at Lisbon on board transports Friday from Delagoa Bay were accorded a splendid reception, contrasting with the coolness of the popular reception of the mission headed by Earl Carrington, sent to Lisbon to formally notify King Charles of the death of Queen Victoria, and of the accession of King Edward VII to the throne. The hour selected for the landing was kept secret, but nevertheless a large crowd was present and ac-claimed the travelers, a majority of of whom were European volunteers. The party, numbering 700 persons, was es-corted to their quarters in the forts in the vicinity of Lisbon. The Boer offi-cers are allowed 400 reis and the rank

and file are allowed sixty reis daily. The leading Boer Gen. Peinaar, wept on leaving his men. He was much hurt because his comrades gave him the cold shoulder during the voyage on account of his refusing to destroy the Ko. matipoort bridge when they crossed the frontier, notwithstanding that the gen-eral acted on the instructions of President Kruger.
