CUT MONEY OUT.

In Praise of Chamberlain's Cough Remedy.

There is no other medicine manufactured that has received so much praise and so many expressions of gratitude as Chamberlain's Cough Remedy. It is effective and prompt relief follows its use. Grateful parents everywhere do not hesitate to testify to its merits for the benefit of others. It is a certain cure for croup and will prevent the attack if given at the first appearance of the disease. It is especially adapted to children as it is pleasant to take and contains nothing injurious. Mr. E. A. Humphreys, well known resident and clerk in the store of Mr. E. Lock, of Alice, Capco, South Africa, writes: "I have used Chamberlain's Cough Remedy to ward off croup and colds in my family. I found it to be very satisfactory, and I give me pleasure to recommend it." For sale by all druggists.

DATE OF CHRISTMAS.

A Study of the Chronology of the Birth and Death of Christ.

It is admitted by students of chronology that the 25th of December is not the true date of Christ's birth. The fact alone that in Judea the month of December is the coldest and the heaviest of the rainy season, is sufficient to show that neither flocks nor shepherds could have been at night in the fields of Bethlehem. How came we to lose sight of the true date? The fault lies with Dionysius Exiguus. In the sixth century this scholar, with others, began to reckon time from the birth of Christ, and fixed the date of A. D. as it now stands, 532 years ago after the first year of Cyrus, king of Persia.

Among scholars it is generally conceded that our commonly accepted A. D. is incorrect to the extent of four years. The theory is advanced that the harmony of the calendar with the statements of Josephus, relative to the length of the reign of Herod the Great. According to one of his statements it could appear that Herod died three years before the reckoned A. D. This, of course, would prove that Christ was born in the year B. C. 4, for it was this Herod who issued the decree to have all the boys in the year of A. D. 1, who were under the age of two, slain. If Josephus is not sufficient authority, as he is inaccurate in his record of dates.

How can the exact date be found? By a thorough investigation of the actual facts as presented in history. This will demonstrate to us that Christ was born one year and three months prior to January A. D. 1. His crucifixion occurred on the 14th of Nisan, which, according to our reckoning, was April 3rd, A. D. 33. The fact that he was crucified at the close of the 14th of Nisan and that this date rarely falls on Friday, but goes to the year A. D. 33, substantiates that date so thoroughly that even Usher, who adapted B. C. 4 as the date of Jesus' birth, was forced to admit that the crucifixion occurred on the 14th of Nisan, and the date of the birth of Christ is the date of the crucifixion is A. D. 33. It follows that if Christ had been born B. C. 4, He would have been 36 years old at his death, and His ministry six years in length. His ministry lasted only three and a half years, which conclusively establishes the fact that His birth was about one year and three months before our common era, A. D. 1.

Mr. E. G. Case, a mail carrier of Canton Center, Conn., who has been in the service for about sixteen years, says: "We have tried many cough medicines, for croup, but Chamberlain's Cough Remedy is king of all and one to be relied upon every time. We also find it the best remedy for colds and croup, giving certain results and leaving no bad effects. We are never without it in the house." For sale by all druggists.

The Fort Douglas officers expect that two companies of the Twenty-ninth infantry stationed at Fort Bliss, Tex. will be transferred to this post to take the place of the batteries to be removed to Fort D. A. Russell, where the Thirtieth light battery is already stationed. This will make a battalion, as it is the policy of the war department to now group the field artillery in battalions of three batteries each. Fort Bliss is just outside of El Paso, and the places of the two infantry companies referred to is likely to be filled

by cavalry from Fort Sam Houston, at San Antonio.
