

## DISTURBANCES IN COREA SPREAD

Governors Report That Their  
Officers Have Been Captured  
And Robbed.

## RESULT OF INCREASED TAXES.

Serious Disturbances at Vladivostok  
In Which Many Houses Were  
Destroyed.

New York, Jan. 29.—Internal disturbance in Korea is spreading, cables the Herald's Seoul correspondent. It is the result of increased taxation. The governors of three provinces report that their officers have been captured by organized bands and government funds taken.

Details have just been received here of the disturbances at Vladivostok during the celebration of Russian Christmas. It was created by intoxicated Russian marines and Japanese soldiers, mostly Japanese, but including the Russian theater. The usual fighting occurred. As happened on such occasions, there was considerable brutality but no fatalities. The marines were not brought under control until much property had been destroyed.

The notification of Korean neutrality cables from Chefoo to the powers was unknown in the Korean foreign office until replies were received from the representatives abroad. The intimation was that it was arranged by Yi Yang Is and Hyeon Sung Kun, the latter having just returned from Russia. The Korean minister at Tokio has been instructed especially to urge Japan's immediate recognition of Korea's neutrality.

## Oldfield Defeats Vanderbilt.

Chicago, Jan. 29.—A dispatch to the Tribune from Hotel Ormond, Florida, says:

Without wind, on a wavy surface course and with a deep haze covering everything Barney Oldfield has won the one mile automobile championship of America, defeating William K. Vanderbilt by three seconds. Oldfield's time was 46.5, but in the best heat he did 44, which sets the world competitive mark three seconds lower than the record of Augier made on the Dourdan road in Paris.

## Russo-Chinese Bank Branch.

San Francisco, Jan. 29.—A branch of the Russo-Chinese Bank association is to be established in this city, a license for it having been issued by the board of commissioners. This board is organized under the laws of Russia with a capital stock of \$7,500,000, of which one hundred per cent is paid up. Prince H. Oukhtomsky is president.

## Lake Michigan Frozen Over.

Chicago, Jan. 29.—Lake navigation this winter has fitted the crews of the steamers in service for a "dash for the pole" for it combines all the experiences of Arctic navigation. Lake Michigan has at last frozen over, the cold spell of the last few days filling up the widely exposed spots of open water between the ice floes. In winter waters there is a wide stretch of open water in mid-lake.

At many points along the west shore the ice is piled up solid until it reaches from the bottom 40 feet deep to an equal distance above the water line. At the crib the ice is piled up until it is higher than the structures.

The icebergs are of great size, and how they came to be formed is regarded as a mystery by winter navigators, as the thickest chunks of ice they have seen are not over 15 or 20 inches through.

It is considered by steamboat men that there is not half the danger in winter navigation with the lake frozen over as there is when there are vast moving fields of ice to catch the steamers and crush them. In the past a number of valuable steamers have been crushed by the floes and lost.

The average temperature for December was eight degrees below normal, and thus far in January it has been four degrees. This average has been excellent but once, and that was during the winter of 1876.

**Earl of Devon Dead.**

London, Jan. 29.—The Earl of Devon (Rev. Sir Henry Hugh Courtenay) rector of Powderham, Devon, is dead. He was born July 16, 1811, and held an extensive estate.

## NEW YORK POOLROOMS. After Being Closed for Several Days Some Opened Again.

New York, Jan. 29.—After having been closed several days, a number of poolrooms here controlled by a boot-maker who is credited with having won nearly \$1,000,000 on the racetracks last season, have been reopened. When the places were closed, it was said to be due to the raise in price by the telegraph company for racing results, but according to the Herald, the true reason was that the proprietor discovered a conspiracy among employees whereby more than \$250,000 had been paid out in five months. A new staff of men now run the rooms.

It is understood that all wagers made in each room were honestly recorded on each sheet by the conspirators, but on one sheet would be recorded wagers that were not made. If the result of the race showed the fraudulent wagers to be successful, the sheet on which they were recorded was turned into the central office of the syndicate. If the result of the race showed the fraudulent wagers to be losses, the honest sheet was turned in. Thus the dishonest employees stood no chance of loss and almost every day they were able to take thousands of dollars from the central office. The syndicate was made up of a number of operators, but the head of the syndicate determined to find out who was getting all his money he went from one room to another, devoting a day to each, but the sheets in the one he visited invariably showed profits while others turned in balances on the wrong side. This convinced him that a conspiracy was in full operation and detectives were put to work. The result was the closing of the rooms and the entire reorganization, but there is no recourse for the gamblers in the courts.

## To Report on Dreyfus Case.

Paris, Jan. 29.—The president of the court of cassation has appointed Count Boyer to report on the demand of Dreyfus for a revision of his trial. Neither M. Boyer nor Atty-Gen. Baudouin took part in the first revision of the trial.

## ROSE CONFESSES.

Cleveland, Jan. 29.—George A. Rose, the alleged defaulter of the Produce Exchange bank, which closed its doors Jan. 22, made a confession to the county prosecutor, telling of his method of using the bank's money, of which he is said to have lost \$187,000. Rose said that he was alone in his alleged peculations, and that his use of the bank's money began about six years ago.

He said that about three years ago, when the loss had reached only \$20,000, an auditing committee was appointed

Cashier Tells How He Used the Bank's Funds.

Cleveland, Jan. 29.—George A. Rose, the alleged defaulter of the Produce Exchange bank, which closed its doors Jan. 22, made a confession to the county prosecutor, telling of his method of using the bank's money, of which he is said to have lost \$187,000. Rose said that he was alone in his alleged peculations, and that his use of the bank's money began about six years ago.

He said that about three years ago, when the loss had reached only \$20,000, an auditing committee was appointed

We seldom fear a danger that we cannot see. The danger of being run-down by a horse is a very real one to everybody, the danger of being murdered by a microbe does not trouble us. And yet the minute microbe is more dangerous than the wildest horse.

The only people who can afford not to fear the microbes of disease are those who keep their blood pure and rich. These are practically immune from the attacks of most microbes.

Dr. Pierce's Golden Medical Discovery purifies and enriches the blood, and gives the body a vigorous vitality. It cures scrofula, eczema, boils, pimples and other eruptive diseases which are caused by impure blood.

I had been troubled for about four years with eczema, or a skin disease, which at times was almost unbearable as it would itch so—writes Mr. John Lanson of 1210 West 1st St., Dallas, Texas. "I consulted to try Dr. Pierce's Golden Medical Discovery and after using five bottles found that I was entirely cured. Please accept many thanks."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the blood.

Dr. Pierce's Pleasant Pellets cure constipation and its consequences.

to go over the bank's books. Rose had hoped that his speculations were discovered then, but at the end of a week or so of investigation the committee reported everything satisfactory with the bank's affairs. Rose declared that he lived within his salary of \$125 a month and had not got a cent of the money lost to the bank by his speculation. When the shortage had reached \$20,000, Rose said, he knew that he would have to replace the sum, and seeing no other way of doing so than by speculation, he continued to do so until the amount had reached \$187,000.

His mental state has been miserable ever since his speculations began, he said, and often he had been tempted to commit suicide, but did not do so because of his wife and family. All of the entire sum of \$187,000, Rose declares was lost with grain speculation in Chicago. His willingness for a speedy trial and imprisonment, he said, was to relieve his mind of the worry that he had undergone; also his desire to be sentenced and to serve his term and afterward begin life anew.

**CUBAN ELECTION RIOT.**

Four Men Seriously, a Dozen Slightly Injured.

Cienfuegos, Cuba, Jan. 29.—A riot in which four men were seriously injured and a dozen others slightly hurt took place here last night as a result of bad feeling engendered by the election campaign.

The trouble began in the Central cafe, when Francisco Cernellos and Victor Zegran, Republican, who were entertaining some Colombian friends, were attacked by several Liberal Nationalists. The cafe was transformed into a battlefield and a large and excited crowd surged back and forth in the street. The principal fight occurred in front of the city hall. Many revolver shots were fired, but nobody was shot, the injuries all resulting from stick and fist encounters. The people of the city were alarmed and barred the doors and windows and closed all the stores. The situation is calmer today, but political feeling runs high.

**SARAH SCHAEFER MURDER.**

City Marshal Russell Gets Letter Confessing the Crime.

Bedford, Ind., Jan. 29.—Marshal M. C. Russell today received from Louis C. Russell the following letter: "I killed Sarah Schaefer. I intend to kill myself. I will drown myself at 2:30 o'clock Thursday afternoon in the river between Louisville and New Albany. In my pockets will be found letters from her that will explain all."

Marshal Russell at first was disinclined to treat the letter seriously, but on investigation and consultation, concluded that the writer may be the slayer of Sarah Schaefer. He telephoned tonight to Chief Lodge of Louisville, requesting the Louisville police to investigate this feature of the case.

## AALESUND SUFFERERS.

Needs of 13,000 People Have Been Provided For.

Berlin, Jan. 29.—Official information has been given out that the needs of the 13,000 inhabitants of the town of Aalesund, Norway, which was destroyed by fire on Jan. 24 have been provided for adequately.

Seven thousand of the people of Aalesund have gone to neighboring towns and villages and the Hamburg-American line steamer Phoenixia, which was sent out to Aalesund with relief at the instigation of Emperor William, is carrying for four more, she has 20 days' supplies for this number.

The people of the destroyed town have taken new heart, Emperor William's telegram having contributed greatly to their encouragement. All the ships at Aalesund were flag-docked yesterday upon the occasion of the celebration of Emperor William's birthday.

The relief work is well organized and provision is being made for the return of the refugees, inasmuch as there are but scanty food supplies in the surrounding country. It is intended to send several hundred children to Bergen, invaluable assistance in the maintenance of order at Aalesund was afforded by the German cruiser Prinz Heinrich, which, among other things, lighted the town with its searchlights. The property losses are estimated at \$4,550,000.

## Fire at Yucatan.

Mexico City, Jan. 29.—Fire at Progreso, the chief port of Yucatan, Tuesday night destroyed an entire square of business houses and public buildings, including the market. The loss is \$2,000,000.

## DR. CRUM'S CASE.

Secy. Shaw Gives the Record of His Appointment.

Washington, Jan. 29.—In response to Senator Tillman's resolution adopted by the senate, calling for the record of William D. Crum's appointment and his service as collector of the port of Charleston, S. C., Secy. of the Treasury Shaw today sent to President pro tem. Frye the following letter:

"William D. Crum was appointed collector at the port of Charleston, S. C., March 29, 1894, and a temporary commission issued. Mr. Crum qualified by executing bond for \$50,000 and took oath of office March 30, 1894. Mr. Crum was again appointed Dec. 7, 1902, and has given bond in the sum of \$50,000 and took the oath of office on Jan. 1, 1904.

"There has been no third appointment and no fourth appointment. The same information is contained in a letter to B. H. Tillman under date of Jan. 8, 1904, and which appears in the Congressional Record of Jan. 25, 1904.

"The resolution also asks, 'Is Mr. Crum now in office, and if so, under what authority of law?' William D. Crum is de facto collector at the port of Charleston, S. C. Whether he holds his position under authority of law is a determinable issue by the executive department of the government but by the judiciary, and by that only. He is not receiving pay because of the provisions of section 161 of the Revised Statutes."

## STATE OF TRADE IN THE COUNTRY.

In Many Parts Business in Most  
Staple Lines is Very  
Promising.

## BETTER THAN ONE YEAR AGO.

Improved Collections Renew Confidence in a Very Prosperous Season.

New York, Jan. 29.—Special telegrams regarding the state of trade from correspondents of the International Mercantile agency throughout the United States are summarized as follows:

"In the central Mississippi valley and throughout the southwest business in most staple lines promises to exceed that of the opening months of 1903. General wholesale orders for spring trade this month in that region are said to be heavier than in any preceding January. More than 115,000 wage earners have gone back to work in Pennsylvania and the lake region within a fortnight.

"Extraordinarily easy money markets are not likely to continue much longer. Early ratification of the Panama treaty would mean probable payments to Panama and the canal shareholders. As Panama government depository banks might have to furnish \$25,000,000 of the funds needed. Overhauling new capital issues will also tend to advance rates.

"Official interviewers insist that steel rail prices will not be cut and point to the interest of the Pennsylvania railroad, through its steel mills, to keep the price up and to light rails being \$2 higher. Despite pessimistic reports as to iron and steel the demand continues to grow steadily, notably for structural steel and basic and forge iron.

"Edward Atkinson, speaking of the outlook, said:

"The world's production of iron and steel in 1903 was 40,000,000 tons; in 1902 it was 46,000,000 tons, and in 1901 it must be 60,000,000 tons.

"All other countries have reached their maximum production so that the increase must come from the United States. Prices have been stronger for cattle, rubber, coffee, cotton goods, raw cotton, wheat and corn. Not the least encouraging feature of the business week had been the renewed confidence in a prosperous season due to and improvement in collections. St. Paul, Minneapolis and Duluth unite in reporting as large a volume of orders as at the like period a year ago. The situation is even more favorable than that in the Ohio river valley and through the South Atlantic and Gulf states."

J. OGDEN ARMOUR, WHO IS SAID TO BE RESPONSIBLE FOR THE HIGH PRICE OF WHEAT.

J. Ogden Armour of Chicago is reported to have secured 15,000,000 bushels of wheat for May delivery and to be still buying everything offered for that month. Wheat is now 10 cents above last year's prices. Mr. Armour is one of the leading figures of the mammoth meat packers' combination. He is but thirty-eight years of age, possesses remarkable executive ability and is very popular with the men employed by his company.

## A BEAUTIFUL TEMPLE, THE MEZQUITA AT CORDOBA.

The Mezquita at Cordoba, Spain, which is the finest type in Europe of the true temple of Islam, was built by the Sultan Abdurrahman about 770 A. D. The roof is supported by hundreds of columns of jasper, porphyry, verde and other beautiful stones. The pillars, no two of which are of exactly the same height or diameter, were collected from Constantinople, Carthage and Alexandria when the Mohammedans sacked those cities.

## AN OPEN LETTER TO THE PEOPLE OF SALT LAKE CITY.

To Whom It May Concern:

Of late there has been a good deal of discussion in Salt Lake City in regard to advertised medicines and their value—the papers are full of them.

We want to say to every man, woman and child in Salt Lake City that we believe the most valuable preparation of cod liver oil—the best tonic, restorative, health restorer and strength creator—we have ever sold in our store is Vinol.

Vinol is not a patent medicine, it contains no injurious drugs, and it actually does contain all of the medicinal curative elements taken from fresh cod-liver, but without a drop of oil to upset the stomach and retard its work, and, moreover, it is delicious to the taste.

Vinol acts first upon the stomach, tones up the digestive organs, creates an appetite, purifies and enriches the blood and strengthens every organ in the body to do its work as nature intended.

Vinol is recognized throughout the world as the greatest strength creator for old people, weak, sickly women and children, nursing mothers and after a severe sickness.

Vinol cures hacking coughs, chronic colds, bronchitis and all throat and lung troubles. Unequalled to create an appetite and to make those who are too thin fat, rosy and healthy.

Vinol is sold everywhere on a positive guarantee that, if it does not give satisfaction, the entire purchase money will be refunded. Druehl & Franken and Smith Drug Co.
