

SHEEP OWNERS ARE RESTRAINED

May Not Graze Flocks on Government Forest Reserves.

INJUNCTION CONSTITUTIONAL

Both Decision of U. S. Court of Appeals in Case from Circuit Court of Northern District of California.

San Francisco, March 2.—In the United States circuit court of appeals Judge Hawley today handed down a decision of interest to stockmen in the west. It is in effect a decision that the injunction granted by the United States circuit court for the Northern District of California, restraining certain sheep owners from grazing their flocks on a government forest reserve, was entirely constitutional and just, under existing federal statutes.

The decision is a victory for United States Atty. Woodworth, who brought the case to the circuit court for the injunction to restrain the sheep owners from herding and grazing their flocks on the Stanislaus National Forest.

The circuit court granted the injunction and the defendants then appealed the case to the circuit court of appeals, with the result above stated.

The dealer said he had \$5,000. He then backed out of the door, mounted a horse and crossed the Rio Colorado. He was caught and taken to the jail.

DR. SHOOP'S Rheumatic Cure

Costs Nothing If It Fails.

Any honest person who suffers from Rheumatism is welcome to this offer. I am a specialist in Rheumatism, and have treated more cases than any other physician in the world. For 18 years I have made 2,000 experiments with different drugs, testing all known remedies while searching the world for something better. Nine years ago I found a costly chemical in Germany which, with my previous discoveries, gives me a certain cure.

I don't mean that it can turn bony joints into flesh again, but it can cure the disease at any stage, completely and forever. I have done it fully 100,000 times.

I know this so well that I will furnish my remedy on trial. Simply write me a postal for my book on Rheumatism, and I will mail you an order on your druggist for six bottles of Dr. Shoop's Rheumatic Cure. Take it for a month at my risk. If it succeeds, the cost is only \$5.50. If it fails, I will pay the druggist myself—and your mere word shall decide it.

I mean that exactly. If you say the results are not what I claim, I don't expect a penny from you.

I have no samples. Any more sample that can effect chronic Rheumatism must be dragged to the verge of danger. I use no such drugs and it is folly to take them. You must get the disease out of the blood.

My remedy does that even in the most difficult, obstinate cases. It has cured the oldest cases that I ever met. And in all my experience—in all my 2000 tests—I never found another remedy that would cure one chronic case in ten. Write me and I will send you the order. Try my remedy for a month, as I have told you. If it fails it fails it is free.

Address Dr. Shoop, Box 713 Racine, Wis.

Mild cases, not chronic, are often cured by one or two bottles. At all druggists.

A decrease for the month of \$1,927,578.

The circulation secured by lawful money amounted to \$14,138,454, an increase for the year of \$5,755,541, and an increase for the month of \$155,577.

The United States bonds on deposit to secure public deposits, including \$18,543,900 state and city bonds, was \$162,239,570, and to secure \$1,000,000, \$193,164,670.

SECY. SHAW DENIES.

That Certain Removals in N. Y. Customs House Were Political.

Washington, March 2.—Secy. of the Treasury Shaw today denied the reports that certain removals in the customs service at the port of New York were being made for political reasons. He said the removals were for the good of the service and as a business proposition.

The changes at the port, he said, were not made at the instance of the senators of New York, although with their acquiescence and upon the recommendation of the collector and the appraiser. The secretary said there was nothing sensational in connection with the removals, but that the government had been through the actual fraud of customs officials. The changes were in the interest of more efficient service. He said there was no danger of inefficient men being retained for political purposes than of efficient men being discharged for such reasons.

Irish Home Rule Very Distant.

London, March 2.—The Birmingham papers credit Lord Spencer, the Liberal leader in the house of lords, with declaring, in the course of a speech that he made in that city last Saturday that home rule for Ireland was a distant and that it would be impolitic to bring it forward. He had always believed it to be more probable that the United Kingdom would be a self-governing measure of self-government for Ireland than that the Liberals would do so.

New York, March 2.—Falling in their efforts to have their new superintendent removed, the expert trained nurses of the New York Eye and Ear Infirmary, have left the institution in a body. Dr. Richard M. Derby, executive surgeon of the hospital, said that their act not only seriously crippled the infirmary temporarily, but that after their departure it was found that records of patients had been destroyed, bottles mixed, glasses and bottles disarranged, and the keys of the instrument concealed.

Fast Freight Wrecked.

Washington, Ind., March 2.—Train wreckers, in an attempt to ditch No. 13, one of the fastest express trains on the Baltimore & Ohio Western, wrecked a fast freight, No. 35, resulting in the death of Fireman Joseph Hughes, of this city, and Harvey Friend, of Odell, Ill., who was leaning against the side of the engine when it derailed, and fatally injured a fireman, and fatally injured a

Montana Gambling Bill Killed.

Helena, Mont., March 2.—The house of representatives tonight killed the bill to license gambling. Only four days ago the house, in committee of the whole, ordered a favorable report on it. Washington, March 2.—Senator Cockrell, from the committee on military affairs, has submitted an exhaustive report upon the brevet nominations which were sent to the senate during the first session of the present Congress. The convention adheres to the statute of 1863, which provides that no brevet shall be granted except in time of actual war. As these brevets were conferred after the war, they will not be reported to the senate for confirmation, the country at present not being in a state of war.

PROTEST AGAINST SEATING SMOOT

Introduced in the Pennsylvania Legislature.

IS PRACTICALLY SHELVED

By Reference to Committee on Federal Relations—Introduction Said It May Never Be Heard Again.

Harrisburg, Pa., March 2.—In the house tonight Mr. Flynn of Elk presented a resolution protesting against the seating of Reed Smoot, United States senator-elect from Utah, by the United States senate. The resolution is similar to one presented by Mr. Flynn on Friday and withdrawn before action was taken upon it. After the resolution had been read tonight Mr. Moore of Philadelphia made a motion that it be referred to the committee on federal relations. Mr. Flynn suggested that if the resolution were sent to the committee it would probably never be heard of again. The Moore motion carried by a vote of 89 to 48.

DISPATCH FROM SMOOT.

Boise, Ida., March 2.—In the house today a dispatch from Senator-elect Smoot of Utah was read concerning the resolution passed on Saturday endorsing him and disapproving the protests against his being seated as a member of the senate.

The senate devoted part of the day to a contest over the best sugar bounty bill. On Saturday an amendment had been adopted in committee of the whole excluding any company from participating in the bounty that employed alien labor. When the senate got into committee today that amendment was missing, and the fact aroused some sharp discussion. In the interim, however, Senator Brigham of Utah had changed his attitude toward the measure, and when the amendment was again offered it was beaten and the bill was recommended for passage without amendment.

The senate passed a bill for an issue of \$43,000 of bonds for improvements at the state university and another for \$12,000 of bonds for the Albion normal school.

Jane Welch Carlyle's Letters.

New York, March 2.—The publication of the letters of Mrs. Jane Welch Carlyle to Thomas Carlyle was the occasion of an interesting dinner last night. John Lane entertained a small company of literary men, and the effect of the production of the letters suppressed by Froude was informally discussed. It is probable that the memory of the Chelsea philosopher which was left under a cloud by a partial and inconclusive revelation of his domestic relations, will be vindicated at the expense of Mr. Froude rather than of Mr. Carlyle.

Russian Financial Agent in London.

Pekin, March 2.—M. Pokotieff, the manager of the Russo-Chinese bank here, has been appointed agent of the Russian minister of finance in London. M. Pokotieff was Russia's able agent in the east and he is credited with having had greater influence at the Chinese court than any other foreigner.

PURE BLOOD

Necessary to Life.

Vinol Makes it.

POOR BLOOD CAUSES ERUPTIONS AND WEAKNESS.

Vinol Makes Pure, Rich, Red Blood.

BECAUSE WE KNOW THIS WE GUARANTEE ITS ACTION.

Impoverished blood is a sure sign of internal disorders. We see every day too many people whose faces plainly show that there is something radically wrong.

We want all of our fellow-citizens to know of our splendid blood purifier and blood maker.

We refer to Vinol.

Vinol, as we have before stated, is a purely scientific preparation.

Vinol owes its virtue to the fact that it contains in a highly concentrated state the active curative principles, taken from the livers of live coals—the same elements that formerly were found in cod-liver oil, and which made it famous.

Vinol does not contain the grease or fat that characterized cod-liver oil and made it in many cases worthless.

Vinol acts upon every one of the great vital organs, and by invigorating and giving them strength, enables them to properly perform their functions.

Vinol's effect on the stomach is marvelous. It tones up this, the greatest of the organs of the body, and enables it to obtain from the food which is taken into it the necessary elements to create flesh and muscle tissue, bone structure and pure, rich, red blood.

We have in Vinol a letter from a Salvation Army woman which reads as follows:

"I took Vinol after a bad attack of grippe, and so much good did it do me that I persuaded my sister to take it. She was all tired out. Had no appetite and her blood was very poor. It did her as much good as it did me."

BETSY HARRIS, 718 River St., Fall River, Mass.

Won't you please come in and see us? We are always glad to extol the merits of Vinol.

We will give you back your money if you don't find Vinol will do all we claim it will. Could any one do more for you?

THE SMITH DRUG CO., DRUEHL & FRANKEN, DRUGGISTS

brakenman, W. L. Lucas of this city, near Lebanon, Ill., last night. Engineer Weddell, escaped by jumping. The wrecking train was running fast near Bennett's mine, a lonely hollow, 24 miles east of St. Louis, when the engine dashed into an open switch. The engine ploughed into the switch and turned over. Eleven freight cars piled up on the engine and fire broke out in the debris. The railroad officials believe the wreck was caused by persons leaving the switch open, with the intention of ditching and then robbing the fast express, which carried considerable money. The freight arrived a few minutes ahead of the express and was wrecked, and the passenger train escaped.

Smelter Trouble at Colorado Springs

Colorado Springs, Colo., March 2.—Before the end of the week there will be a crisis in the strike of the mill and smeltermen at Colorado City.
