STATES ITS OBJECTS.

An Address by the Salt Lake County World's Fair Association.

An address has been issued by the Salt Lake County World's Fair association to the citizens which states fully the advantages to be derived from such an exhibit as is contemplated.

The great Columbian exposition, says the address, will be the grandest World's Fair ever known and will be attended by more people from more portions of the globe than was any previous World's Fair. These millions of people from all over the world will be seeking information about the newer and less thoroughly understood sections of the United States. This grand World's Fair, therefore, presents to you, as citizens of Salt Lake County, your grandest opportunity for presenting to the world its marvelous and almost unlimited variety of resources, superior advantages as a place of residence and innumerable opportunities for investments. No section of the United States is so thoroughly misunderstood as to its true condition and wonderful advantages and attractions as is the country surrounding and tributary to Salt Lake city and county. No section of the United States has more material, or more facts with which to make a favorable impression than has Salt Lake county, and no section of the United States can profit more, in proportion to the effort exerted, than can Salt Lake county. The same is true of Utah as a whole, and as a matter of pride, as well as a commercial proposition, the citizens of Salt Lake county should see that she takes the lead and makes a showing of which every one of her residents may feel proud. The states of Kansas and Nebraska can trace the cause of their phenomenal growth to the advantages accruing from the creditable showings made by them at the Centennial exhibition of 1876. The wonderful growth of Omaha and Kansas City naturally followed.

All communities are active, and the time for Salt Lake county to move cannot be delayed. California and all other coast states, including our neighbor, Idaho, are exceedingly active, not only as states, but through their local and county organizations. As an evidence of the great benefits which may be reached by an energetic, proper and timely effort, the address goes on to enumerate the advantages of climate, thermal and medical springs, salt sea bathing, beauty of scenery. She can demonstrate by models, maps and other means, that she has a most convenient combination of a comfortable city, with metropolitan advantages and pleasures, in the closest possible proximity to quiet rural places, delightful mountain scenery and summer resorts, abounding in hunting, fishing, etc., and the most invigorating sea bathing imaginable, making, in short, a combination which can not be duplicated in variety or excellence elsewhere in the world.

She can demonstrate in her models that in her public and private edifices Salt Lake City surpasses in elegance of architectural designs and grandeur of proportions any other city of her size in America.

She can demonstrate by statistics that music and the other arts attain to a degree of perfection in Salt Lake not approached in any other American city of her age and size.

She can demonstrate that her mineral and native resources are useful and more varied than those of any other country in the world.

"Millennial Star" Items.

Elder Joseph D. Stark is released, owing to the impaired condition of his health, from his labors as traveling Elder in the London Conference, where he has been for the past eighteen months, to return home.

Elder Albert C. Young is released from his labors as traveling Elder in the Cheltenham Conference, and is appointed to labor in the business department of the Liverpool office.

The address of the president of the Manchester Conference has been changed to 41½ Collyhurst Road, Manchester.

Culmer-Jennings Bid Accepted.

Last night the Board of Public Works met and awarded the contract for the Main and First and Second South street paving to the Culmer-Jennings Paving company; their bid being the lowest, as follows:

Curbing with sandstone, per linear foot	$ [illegible]
Curbing with granite, per linear foot	1 [illegible]
Paving with granite blocks, per square yard	[illegible]
Paving with sandstone blocks, per square yard	[illegible]
Paving with refined asphaltum per square yard	2 [illegible]
Paving with bituminous or asphaltic rock, per square yard	[illegible]

The board came to the decision that sandstone curbing and sandstone blocks should be used; also refined asphaltum. This makes the total amount of the contract $130,400, as follows:

[illegible] linear feet curbing	$ [illegible]
[illegible] square yards stone block paving	[illegible]
[illegible] square yards asphalt paving	[illegible]
Total	[illegible]

The amount of the bond to be given by the company was fixed at $35,000.

When the board met last evening it was resolved that the bid of the Culmer-Jennings Paving Company be accepted, that the bond signed by Messrs. Andrew Gebhardt, David James, F. W. Madsen and Alexander Rogers be approved, and that the whole be transmitted to the City Council for their consideration, "but at the same time we respectfully call the attention of the Council to the experimental character of the asphalt the Culmer-Jennings Company propose to use, it being a Utah product and as yet practically untried." This motion was adopted, Messrs. Conklin, Clawson and Downey voting "aye," and Chairman Haines' vote being in the negative.
