Henry M. Crowther of the Blue Acre ining company who returned yester. y from an inspection of its holdings ports excellent showings on the pro-rty and preperations being made to terially increase its working force. This property contains 320 acres ly-Just west of the O. K. mine belongto the Majestic company and the dings of the Beaver Consolidated mpany near Milford. It received its me from an area of about 1 acre of ck which is colored blue from copper sins. At present work is being pushin three shafts on as many east and st veins, two of which are now down out 50 feet and the other has a depth 20 feet.

Surface showings have yielded as uch as from 12 to 26 per cent copper, uch as from 12 to 26 per cent copper, ad depth is expected to reveal better ilues in permanent bodies. One of the afts now being sunk is located about of feet from the new shaft in the O. K. hich is west of the original incline pm which such good results have been tained and the belief is that a similar dy will be found on the same vein on a Bing Acre ground.

e Blue Acre ground. Mr. Crowther states that the perrmance of the O. K. Mine is unparal ed in copper mining in that the great dies have been encountered at a pth of only 200 feet. A repetition of is condition is hoped for on the Die is condition is hoped for on the Blue re ground, but if it is not found e company is prepared to sink to a uch greater depth.
