Local and Other Matters.

FROM FRIDAY'S DAILY, APR. 12.

New Tabernacle. - A number of masons are at work on the New lately raised about five feet on the and probably in the Territory gennorth and east sides.

Think of Adjourning.-Quite a number of the Mutual Improvement Societies of the city are talking of adjourning in a few weeks for the season. A good work is being done by those societies.

called at the late General Conference to go on a mission to Australia, expect to leave for that part of the world on or about the 10th of May.

Street Improvement. -The lower part of West Temple Street, in the Fourth Ward, from the Cedar Valley Meat Market to the farm lots, has just been nicely improved by the supervisor. A good grade, 30 feet wide, has been constructed down the middle.

Information Wanted of George Carter, late of Soldier's Hill, Ballarat, Australia. When last heard from was in Melbourne. He is earnestly requested to communiby whom any information concerning the said George Carter will be thankfully received.

Australian papers please copy.

Second.—The second of the series of entertainments for the benefit of the emigrating fund for the poor Saints in Wales, will be given at the 6th Ward School-house, tomorrow evening. The Mousley Amateur Dramatic Association position. have consented to give their servi-50cts.;

his arrival, and play "See! the con- tively small." dellaraged on an quering hero comes." What he has tried to do would fill a big book, but what he has done is like Dickens' "invisible soap and imperceptible water," existing only in the imagination. It is poor work to be trying to pick a hole through a three feet stone wall with a cambric needle. The "ring" should use stronger and heavier tools.

Birthday Surprise. - Yesterday the thirtieth anniversary of his birthday. Last evening, on arriving at his residence he was surprised and pleased to find a large number of relatives and friends assembled, and tables specially spread with delicacies and substantials. A pleasant, sociable time was spent by the happy party.

Change of Quarters.—The city assessor and collector is about to remove his office from the room now occupied by him, in the City Hall, to that recently vacated by the Ter- each other. ritorial Library, in the same building. The proposed new quarters events a nation is diminished in disagrees with their theory. A surare being prepared and will be extent, its colored band decreases ready by the beginning of next in width, and when altogether exweek. They are much more con- tinguished it is obliterated, while So far as we sustain importations in venient than the present office, the nationality swallowing it up preference to home productions, so obviating the necessity of stair- is proportionately extended. The far does the moral responsibility of climbing.

St. George Temple.-The interesting model of the Temple at St. George, which we noticed in our columns some time ago, as having found in the work proper, thus ren- his part in building up a commubeen made by Brother Edward Brain, of the 20th Ward of this city, has been loaned to the Deseret Museum. The model is made of plaster of Paris, on a sclale of one eighth of an inch to the foot. The dimensions of the Temple itself is as follows:

Length, 141 feet, 8 inches; width, 93 feet, 4 inches; height, to the top

of the parapet, 84 feet.

The model gives evidence of considerable artistic skill, as well as businesslike qualifications, and by an ingenius arrangement of the maker it can be lighted up so as to show the interior of the building and effectually display the colors of the windows, which are of various hues.

ing the people. They cause people | cloth, and \$4.50 in half morecco.

"key" to the chart, in which are The spirit and genius of "Mormonquestions, the answers to which are | ism" demands that each shall do dering it a still more simple means of communicating knowledge.

Lyman's Historical Chart is a useful book to every class. To the person whose mind is well stored with historical lore, it is a valuable aid in enabling him to classify and arrange his knowledge. It will enable him to keep within range of his mind the various events of history, from the earliest to the latest period, each in its proper and legitimate order. To the person whose been discovered. time is mostly absorbed in other pursuits it will give, in a comparatively brief time, a broad view of human affairs.
