An Item of Interest to Every Lady who Desires to be More Beautiful than she now is.

Unfortunately not one woman in a hundred, subjected to the whims of an American climate research that basis and starting point of real beauty—a pure and clear complexion. What nature has thus denied, art must be called upon to furnish. It can be done; it is done daily. Prof. W. E. Hagan placed beauty within the reach of every unblessed daughter of Eve when he discovered

The Magnotta Balm is a sure device for creating a pure and blooming complexion.

It concents all natural blemishes in the most surprising and effective manner. It removes all roughness, eruptions, relness, blotches, freekles, and tan with magical power. It drives away all evidences of futigue and

It makes the plainest face beautiful. It gives the complexion a darring purity and makes the neck, face, and arms appear grace-ful, rotund, and plump. It makes a matron of 35 or 40 look not more than 20 years old, and changes the rustic maiden into a cultivated city belle.

The Magnolia Balm removes all bis mishes and conceals every drausback to beauty; and, while a is as harmless as water, it is so life-like in its effects that the closest observer cannot detect its use. Ladies who want to make themselves attractions tive can make an absolute certainty of it by using Hagan's Magnoria Balm, and we know of no other way. It is the cheapest preparation in the world, all things considered, and may be had at any drug store.
