A slight blaze occurred last night in men on the other side who are propos-ing some special legislation in regard to polygamy, are serious. I do not think they are. I think they are sim-ply trying to put some amendments on the Bon Ton theater, on Main street in which the biograph and a film of moving pictures were destroyed. About 10:30 o'clock R. Whitehouse, the operahis bill which may defeat it. As one tor of the machine, was running the hast film through, when a short circuit occurred and set the film afire. It blazed up quickly, and Manager Cannon, of th theater, who was coming up through the orchestra entrance beneath the stage, cried "Fire!" as he saw the stage, cried "Fire!" as he saw the fames shoot up in the rear of the building. The stage manager then doubt if the gentlemen on the other side are sincere in quibbling over this rushed out from the wings, and advised the people to look and see what a little fire it was, and to keep cool Another man announced that there was an emergency exit near the stage and through this the small audience pourse out into the alley at the side of the theater. The fire department was sum moned, and made brief work of put-ting out the small blaze. The loss to machine and film was covered by Insurance.

date "After a Republican Congress enacted the irrigation measure upon the recom-mendation of a Republican president, Democratic convention has the rontery deliberately to claim that the Democracy is the author of the great rrigation policy.

Mr. Smythe said in part: "Unlike our Republican friends, the Democracy does not possess the brazen affrontery to claim the credit for all the good that has come to the United States during the past 50 years, nor for all the good that came to the country during the previous half century of Democratic rule. It does not claim to have created the sunshine or the rain.

the fertile soil or the vast mineral wealth, nor does it claim to be the au-thor of all the triumphs of human in-dustry and genius which have swelled the sum of the national greatness.

"But if it be effrontery to insist that simple justice shall be done our party in regard to its irrigation record and policy, past and future, then the Dem-

ocracy does so without apology. "No Democrat denies that President Roosevelt recommended the passage of the irrigation bill, nor that he signed the measure when it came to him. But we do deny that the bill was the pro-duct of Republican statesmanship or that it was passed by Republican votes. "Every political party in the United States declared for the irrigation policy in their platforms of 1900. Democrats proceeded to redeem the pledge on the proceeded to redeem the piece on the very first day that Congress assembled after election. Francis G. Newlands introduced his epoch-making measure Jan. 26, 1901, during McKinley's first term. This bill contained practically all the vital principles of the law now on the statute book. The scheme for a

the statute book. The scheme for a permanent reclamation fund, composed of the receipts of the land office, united the west and disarmed the opposition of the east. It was dis-cussed under the name of The Newlands' Bill by men and newpapers of every shade of belief. No one disputed its Democratic origin at that time

"In the house debates The Newlands' Bill was bitterly fought by Republican leaders. Speaker Cannon said that rather than support it he would repu-diate the Republican irrigation plank. Grosvenor of Ohio denounced is as a great national wrong. Mordy, now at-torney-general, said he regarded it with grave apprehension. Hepburn of Iowa called it the most incolent attempt at larceny' ever embodied in a legislative proposition. But the Demo-crats overwhelmed these Republican leaders in debate. When the vote was taken there were 146 in favor and 55 against, 74 being required to pass the oil. The Democrats gave 77, an actual majority, while the Republicans gave 69, a minority. Of those opposed, 42

were Republicans and only 18 Demo-crats. Such is the claim of the St. Louis platform and Senator Fairbanks did not attempt to dispute it specifically, but only in glittering generalities." Mr. Smythe proceeded to discuss "the general proposition of developing the resources of the United States as opposed to the Republican policy of

vast and growing expenditures fleets, armies and colonial expansion He declared that Uncle Sam is not rich enough to build the republic as it ought to be built and exploit the orient at the same time." He then discussed that feature of the St. Louis platform which declares that The Newlands' Law "is an evidence of the policy of domestic development contemplated by

OSTEOPATHIC VICTORY. Jubilant Over Outcome of Important Case in State Supreme Court.

The appeal in the case of the State of Utah, appellant, vs. A. P. Hibbs, has been dismissed by the supreme court on the ground that it has no jurisdiction of the case. The appeal was taken by the state in order to make a test case and settle the rights of os-teopaths to practise in this state without having to pass the examination before the state board of medical exam-iners. The osteopaths are highly elated over the supreme court refusing to take jurisdiction in the case and they now

feel that they can practise here with-out being further molested by the law. COURT NOTES.

Judge Hall has entered an order in the case of M. H. Walker et al. vs. the Union Mining company, confirming the sale of three claims belonging to de-fendant for \$1,200. The money will be applied upon the payment of the debts of defendant.

The damage suit filed in the district cout by V. A. Nelson, administrator or the estate of W. M. McCandle, deceased, against the Utah Consolidated Mining ompany, has been transferred to the federal court.

The supreme court has dismissed the appeal in the case of G. Lavagnino vs. J. M. Gary et al., on the ground that the appeal had not been taken within the time provided by statute.

Although they won't admit it many people who suffer from sick headaches and other alls get them straight from the coffee they drink and it is easily proved if they're not afraid to leave it to a test as in the case of a lady in Connelisville.

"I had been a sufferer from sick headaches for twenty-five years and anyone who has ever had a bad sick headache knows what I suffered. Sometimes three days in the week I would have to remain in bed, at other times I couldn't lie down the pain would be so great. My life was a torture and if I went away from home for a day always came back more dead than allve.

alive. One day I was telling a woman my troubles and she told me she knew that it was probably coffee caused it. She said she had been cured by stopping coffee and using Postum Food Coffee and urged me to try this food drink. "That's how I came to send out and get some Postum and from that time I've never been without it for it suits I've never been without it for it suits my taste and has entirely cured all of my old troubles. All I did was to leave off the coffee and tea and drink well made Postum in its place. This change has done me more good than everything else put together.

"Our house was like a drug store for my husband bought everything he heard of to help me without doing any good but when I began on the Postum my headaches ceased and the other troubles quickly disappeared. I have a friend who had an experience just like nine and Postum cured her just as it did me.

'Postum not only cured the headaches but my general health has been improved and I am much stronger than for before. I now enjoy delicious postum more than I ever did coffee." Name given by Postum Co., Battle Creek, Mich. "There's a reason" and it's worth
