Reedall's plurality, 1879; majority, 1403.

COMMERCIAL CLUB PETITIONS PRESIDENT

An important meeting of the board of governors of the Commercial club was held Tuesday afternoon, at which 13 new members were elected. The president was also given authority to appoint delegates to the national land congress to be held in Chicago Nov. 16, and to the western slope development congress to be held in Grand Junction Nov. 10 and 11.

The club also went on record on a petition to the president of the United States and the senate and house of representatives, which is being circulated in the west, asking the government to retain the treasury notes and silver dollars now in use, and not to substitute for them a bank currency. The petition which was presented by Henry W. Lawrence, vice president of the United States Monetary league, is as follows:

"To the President of the United States and Members of the Senate and House of Representatives:

"We, the undersigned electors and citizens, respectfully represent: That we view with alarm the efforts that are now being made to retire the $346,000,000 of United States notes, commonly called greenbacks, and to melt into bullion the 600,000,000 of silver dollars, now in circulation in the United States. These are now performing the function of a circulating medium and there is no justification for their retirement.

"The substitution of a bank currency therefor would be injurious to the United States, because it would place within the hands of the banking classes the power to contract and expand the medium by which payments are made and by which values are determined. The exercise of such power by any one class is bound to be detrimental to the interests of the masses.

"Therefore, we respectfully urge: (1) That the $346,000,000 in greenbacks shall not be destroyed. (2) That the silver dollar be not eliminated from coinage and that the increasing demands of commerce for a circulating medium be supplied by increased coinage of both gold and silver and the issuance of gold and silver certificates therefor."

The protest was signed by W. J. Halloran, president; Samuel Newhouse, George T. Odell, H. L. A. Culmer, Governor Spry, Ira H. Lewis, Joy H. Johnson, E. S. Miller, Samuel Weitz and Joseph W. Caine, acting secretary.

Following are the names of the new members elected: Resident members—M. H. Sowles, secretary of the Salt Lake Hardware company; H. A. Smith, attorney-at-law; James McGregor, capitalist; Frederick Eberhardt, president of the Salt Lake Mattress & Manufacturing company; H. W. Doscher, stock broker; Frank L. Dodge, lawyer; E. P. Yowell, wholesale produce dealer, and M. S. Webb, secretary and treasurer of the Sierra Nevada Mill company.

Non-resident members—J. H. Wootton, manager of the Utah County Light & Power company of American Fork; H. H. Hays of Livingston, Mont., traveling passenger agent of the Permanent Camping company of Yellowstone National park; F. W. Rossberg, engineer of the Daly-West mine, Park City, and C. C. Griggs, mining superintendent of the United States and May Day mines, Eureka.

A letter was also read from the Commercial club of Council Bluffs, Ia., asking for the assistance of the local club in the effort to get the postoffice department to arrange for a fast mail train which would leave New York each day at 11:59 p. m. and reach Salt Lake City 54 or 56 hours later. The communication was referred to the club's committee on railways and transportations.

DEMURRAGE RATE SOLVING PROBLEM

Raise of Five Dollars Per Car Per Diem Is Having Desired Effect.

KEEPS CARS MOVING ALONG

Shippers Who Were Content to Pay One Dollar Storage Are Now Unloading in Short Order.

Manager E. E. Mote of the Pacific car service bureau of San Francisco has made a report of more than usual interest, in showing the results of a $6 demurrage rate as compared with a $1 rate for the month of September, 1909. The report, just received in the Short Line offices, is as follows:

The same satisfactory results in the prompt release of cars subject to the $6 demurrage rate as shown in our special reports for July and August, 1909, continued during the month of September. Of cars reported by California agencies subject to the $6 rate, the percentage held overtime fell from 1.18 in August, 1909, to 1.15 in September, 1909; while of cars subject to the $1 rate, the percentage held overtime fell from 6.71 to 5.70, although outside the state of California, where the $1 rate applies, the percentage of cars held overtime increased from 5.47 to 7.92. As an example of the results of a $6 rate as compared with a $1 rate in effecting the release of cars containing hay and straw, green fruit and vegetables, all commodities largely sold after arrival at destination and before removal from the car, our records show that at the terminals at San Francisco, Oakland and Los Angeles of 1,609 cars of hay and straw handled during the month of September, 1908, subject to the $1 rate, 27.97 per cent were held overtime, while in September, 1909, of 2,343 cars of the same commodities, subject to the $6 rate, but 3.24 per cent were held overtime. Of 1,672 cars of green fruit and vegetables 16.09 per cent, subject to the $1 rate, were held overtime in September, 1908, while of 2,064 cars handled in September, 1909, subject to the $6 rate, but 1.64 per cent were held overtime. Can anything show more clearly than the foregoing statement of actual results that the demurrage rate is the all important factor in the prompt release of cars? When the demurrage rate is less than the car is worth to the user or less than the cost of employing a sufficient force to release it promptly, how can we hope to prevent abuse or materially add to the efficiency of freight equipment except by increasing the demurrage rate?

The last paragraph may be illustrated by an hypothetical case in this city. A local furniture house is notified of the arrival of several cars of goods from the east. It happens that it is not convenient for the consignee to unload the goods immediately, so he pays practically storehouse rental by allowing them to remain on the cars unloaded, at a dollar per car per day. This is much cheaper than unloading the cars when it is not convenient. In the meantime those cars are shut off from use, and when there are several consignees doing this thing, the sidings are filled up with idle cars much wanted for immediate use elsewhere. But with a demurrage rate of $6 per car, there will be no delay in a consignee's unloading a car within 24 hours after its arrival. This keeps the cars moving, and reduces the evils of shortage to its lowest terms.

OWNERSHIP OF MOFFAT ROAD.

The Denver papers are again indulging in speculations as to the future ownership of the Moffat road, and are watching J. J. Hill's movements in New York with eager eye. The Moffat road has evidently come to stay; it is also coming this way. The road is being built over a route Union Pacific engineers pronounced as absolutely impracticable; but it has not only been built, but is paying more than expenses. At present, the fares are on a stage line basis, so that the saving to travelers is merely time—which may mean a great deal, at times, and hotel expenses en route. But these will be lowered later on. There is a belief current in Denver that Hill will buy the Moffat road, and thus cut out both the Union Pacific and Rio Grande roads in competition for transmountain business.

A SUGGESTION FOR SALT LAKE.

The Illinois Central railroad has officially announced that it will burn coke in its switching and suburban passenger locomotives running on the lake front in Chicago, within 30 days. This will be done, at an additional expense for fuel of $250,000 per year, in order to appease the demand for electrification of its road to avoid making smoke.

REED SMOOT IN WASHINGTON.

Utah Senator Returns From Trip Down Mississippi With President Taft.

(Special to The News.)

Washington, Nov. 3.—Senator Reed Smoot arrived in Washington yesterday from New Orleans, after making the trip down the Mississippi river with President Taft. His visit to Washington is to attend to business with the printing committee of which he is chairman. While at New Orleans he was given a dinner by the sugar planters, who desired to show their appreciation of his work on the new tariff bill. He says the project of improving the Mississippi is an immense scheme which is going to cost nearer $200,000,000 than $100,000,000, but he is in favor of it provided that the work can be made permanent.

Do you use an atomizer in treating Nasal Catarrh? If so you will appreciate Ely's Liquid Cream Balm, the quickest and surest remedy for this disease. In all curative properties it is identical with the solid Cream Balm, which is so famous and so successful in overcoming Catarrh, Hay Fever and Cold in the head. There is relief in the first dash of spray upon the heated sensitive air-passages. All druggists 75c, including spraying tube, or mailed by Ely Bros., 56 Warren St. New York.

COMMITTEE IN UTAH.

Are Looking Over the Strawberry Valley Project This Afternoon.

(Special to The News.)

Grand Junction, Colo., Nov. 3.—Members of the senate irrigation committee, including Senators Clark, of Montana; Jones, Washington; Warren, Wyoming, and Hughes, Colorado, spent yesterday in examining the Grand Valley project and left here at midnight by special train for Thistle Junction, Utah. After looking over the Strawberry project they will reach Provo, Thursday morning, where they will spend the day, arriving in Salt Lake in the evening.

Accompanying the party are F. H. Newell, director of the reclamation service; G. H. Eaton, official reporter; S. J. Murphy, sergeant-at-arms, and a number of newspaper men. Asst. Gen. Pass. Agent Wadleigh and Supt. J. C. Dailey are accompanying the party over the lines of the D. & R. G. railroad.

CONSUMPTION STATISTICS.

Prove that a neglected cold or cough puts the lungs in so bad a condition that consumption germs find a fertile field for fastening on one. Stop the cough just as soon as it appears with Ballard's Horehound Syrup. Soothe the torn and inflamed tissues and makes you well again. Sold by Z. C. M. I. Drug Dept., 112 and 114 South Main St., Salt Lake City.

Woman loves a clear, rosy complexion. Burdock Blood Bitters purifies the blood, clears the skin, restores ruddy, sound health.

WHISKEY FOR RHEUMATISM

Formula Whose Quick Action Surprises Expert Doctors.

The increased use of whisky for rheumatism is causing considerable discussion among the medical fraternity. It is a wonderful cure when mixed with certain other ingredients and taken properly. The following is the formula:

"To one half pint of good whisky add one ounce of Toris compound and one ounce of syrup Sarsaparilla compound. Take in tablespoonful doses before each meal and before retiring."

Any druggist has these ingredients and they are easily mixed.

This formula was published here last winter and hundreds of people that used it were promptly benefited.

KEITH-O'BRIEN CO.

Good News Comes From the Rug and Drapery Departments

Do the right thing at the right time by coming to the store and inspecting these goods—and you will not buy elsewhere.

You will like these articles. When you see them you will acknowledge the values are out of the ordinary.
