ORANGE TRAINS GALORE.

Southern Pacific Has Its Hands Full With Fast Schedules.

Since the tle-up on the Sait Lake Since the the-up on the Sait Lake Route there has been deep and abiding grief in the operating department of the Southern Pacific Incident to the increased tonnage to be handled. Yes-terday a new schedule went into effect for all orange trains between Sparks and Ogden. The running time is re-duced from 40 hours to 34, while on the Sacramento division the time is cut two hours. In order to make this time two hours. In order to make this time it has become necessary to reduce the tonnage hauled by each engine. Here-tofore trains averaged 1,640 tons, but they have now been cut down to 800 they have now observed using a lower to so tons in order to make the time. This means the employment of twice the amount of motive power and twice the number of train crews. On Saturday there were 17 trains on the road at one time between Ogden and Carlin alone, a distance of 250 miles, which is some-what of a record for a single track

SPOKE TO THE BOYS.

Interesting Talks Yesterday by Judge Salomon and Atty. Breeden.

Attorney General Breeden and Judge Salomon of the Swedish government Salomon of the Swedish government spoke to the boys yesterday afternoon at the Y. M. C. A. Judge Breeden told the boys that courage is a basic virtue, a willingness to do the right thing, and not be ashamed of it. He told them about the Civic league and how it was proposing to make the town cleaner and better in every way, and would the boys help? Every hand went into the air straightway. The index called the air straightway. The judge called attention to the fact that they all had homes, and they could help the league by doing wat they could to keep the surroundings clean and neat: that they could help their mothers. He thought the prettiest hands there were on earth were the calloused and misshapen ones of a devoted mother who had used them without wenders or stine for the head of a devoted mother who had used them without grudge or stint for the benefit of her children, and he thought that any boy with courage would do all in his power to help his mother. The Swedish official told the boys how

he was sent to this country by his king to study how American boys were tak-en care of. The Swedish schools and the American are claimed to be the bes in the world. He was much interested in America, especially in meeting the president at Washington, and Judge Lindsey in Denver. In America, he said, boys are better taken care of by the government than they were in Sweden, and so they in gratitude ought to do their best to become upright citizens and love their country and defend its honor.

The History of the Y. L. M. I. A., which was begun five years ago, and then set aside because of sickness, has been taken up again this winter, and is now approaching completion. All stake presidents are requested to send or bring to the April conference the history of their stakes (not wards) where such matter has not already been furnished. That which was sent five years ago should be brought up to date, briefly. A picture of the first stake president should be sent, if not already forwarded. No ward histories are desired, as this would make the book altogether too bulky and too ex-pensive. In sending data, any special or original feature of work may be mentioned. stake presidents are requested to send

M. H. TINGEY, President.

Law in Effect Today-The local internal revenue office has issued nearly 30 government liquor licenses to druggists and other handlers of 11 patent medicines which the government chemists find contain so much alcohol as to bring them in a ruling of the treasury department, within the defini-tion of alcoholic stimulants. The law effecting this change went into effect today, when over a dozen licenses were effect today, when over a dozen licenses were taken out, the others having been tak-en out in advance of the date of the law's operation. Dealers handling these "medicines" are treated by the government the same as ordinary sa-loon keepers. The government circu-lar is headed, "Concerning Alcoholic Compounds Labelled as Medicines and Held Out to the Public as Remedies for Diseases."
