DESERET EVENING NEWS: WEDNESDAY, MAY 15, 1901.

RHEUMATISM CITY ENGINEER THE L. D. S. WINS SHIPWRECK AND barred by the rules adopted. "The charge made against these stu-dents is two-fold: that they are not paying their tuition and that they en-tered the college simply in order to play ball. They deny both charges and ask to be confronted by the wit-nesses against them. Under these circumstances, the only thing I could do was to give them the chance to clear themselves; and I suggested that a referee determine their status. I cannot rule them out simply because a charge is made against them, when they deny the charge." It was stated this morning by R. Leo Bird and John A. Astin of the L. D. S. Athletic association, that it was set-tied so far as the college is concerned. At a meeting held yesterday of Presi-dent J. H. Paul, R. Leo Bird and J. A. Astin, it was decided that the protest-ed players were eligible, and that they could play in future games. It is now up to the High school and University, and if they continue to object to the men and will not let the dispute go to a referee, the league will in all proba-bility be disrupted. WOMAN

IS LIKE A DELICATE MUSICAL INSTRUMENT

In good condition she is sweet and lovable, and sings life's song on a joyful harmonious string. Out of order or unstrung, there is

discordance and unhappiness. Just as there is one key note to all music so there is one key note to health. A woman might as well try to fly without wings as to feel well and look well while the organs that make her a woman are weak or diseased. She must be healthy Inside or she can't be healthy outside. There are thousands of women suffering silently all over the country. Mistaken modesty urges their silence. While there is nothing more admirable than a modest woman, health is of the first importance. Every other con-sideration should give way before it. Brad-
