

prepare ourselves for the conflict. Wars and rumors of wars are beginning to sound in our ears; the terrible day is fast approaching, and God requires it at our hands that we prepare to go forth to the nations of the earth to proclaim to them the words of life. Never mind what people can do among us, we ask no odds of them. God is with Israel if Israel will only be with God. And if the world will only treat us fifty per cent. as well as we have treated them, it is all we ask of them; and if they won't, we will still continue to do them good. And when the day comes that all men will be brought to justice, we want to feel conscientiously free from the blood of this generation. Do we want the aged and infirm to go and preach the gospel? No. Had there been time yesterday, I would have very much liked to have heard the brethren of the priesthood express their feelings; but I would say to you, High Priests, get together and humble yourselves before God, seek unto him for wisdom to guide you in all your operations, and prepare yourselves to magnify your offices in the various duties of your calling, which is really that of presiding, that when changes may take place in the present stakes, or other stakes may be organized, you may be prepared as presidents and council, as bishops and council, as High Councils, or whatever office you may be called to fill. And I would say the same to the Seventies and also to the Elders, prepare to magnify your calling. Let us humble ourselves before God, and purify ourselves and walk in uprightness before him and live our religion and magnify our calling, and be quick and active and diligent and energetic in the performance of our duties, and the power of God will rest upon the priesthood, and they will be prepared to go to the nations to proclaim the gospel message to all people.

I do not know how many we will want to call at our approaching conference; I have had applications for twenty to fill missions in the Southern States, besides a great many other places, but whether few or many be needed, we must be in readiness at all times and under all circumstances to magnify our priesthood and to do everything required of us. We will build our temples and be saviors on Mount Zion, and the kingdom will be the Lord's. God bless you, and lead you in the paths of life. Amen.

For the best colt under one year old, "Young Whipple," owned by S. S. Walker, a silver medal.

The exhibition of horses, in point of excellence, was far ahead of anything ever before exhibited in the territory, and would compare favorably with such exhibits in the eastern states.

There is an evident disposition among breeders to produce superior animals, and the progress already made warrants the committee in saying that almost every animal presented was worthy of mention and commendation.

H. P. Kimball, Thomas Jenkins, H. C. Goodspeed, Mark McKimmins, J. G. Morrell—Awarding Committee.

Give it To 'Em in Latin.

It is an oft-spoken whim of the cynics—and possibly something more—that the doctors give their prescriptions in Latin, so as to afford their ignorant patients the benefit of a little imagination. *Bolus panificus* sounds a good deal more important than "bread pill." Some years ago, in a Rhode Island Legislature, a member moved to translate all the Latin phrases in the statutes, so that the people could understand them. A Mr. Updike took the ground that it was no advantage to have the people understand the laws. He said they were not afraid of anything they understood. That it was the Latin words they were afraid of, and proceeded to illustrate his position as follows: Mr. Speaker, there was a man in South Kingston, about 21 years ago, who was a perfect nuisance, and nobody knew how to get rid of him. One day he was hoeing corn and he saw the sheriff coming with a paper, and asked what it was. Now if he had told

him it was a writ, what would he have cared? But he told him that it was a *capias salisfaciendum*, and the man dropped his hoe and ran, and has not been heard of since.

To Every Woman.

Think twice before you believe every evil story you hear, and think twenty times before you repeat it, especially if it is about a woman. Say to yourself, "This may not be true, or it may be exaggerated," unless you have proof of the veracity of your informant. People sometimes tell falsehoods—they often make mistakes, and they sometimes "hear wrong." There is a curricular illusion as well as optical. Take all these things into consideration before you even believe. As for repeating the story, ask yourself if it is necessary. It is sometimes necessary. Then do it with the fear of God and the remembrance of the golden rule before you. Let us give the helping hand, not the downward push; so may the angels reach their hands toward us when we stand in need.
