Disturbing Matters.

No settlement has been reached as

yet of the dispute in regard to New England tourist rates between the Lake Shore, the Michigan Central and the Grand Trunk, and it will probably

become necessary for the presidents to interfere once more. This dispute com-

able speculation among railroad men. "The lines that are making all the

trouble," said a New York passenger agent today, "are Vanderbilt lines, and their action is in line with the evident

policy of that system to knock out the differential roads. If this dispute

is not settled soon, the result will be a demoralization of rates in this ter-
