A Bowery engraver named Kirkham, one of the very few sensible persons present, expressed reluctance to having his property divided among loafers. He was instantly knocked out of time by the scoffs and jeers of those who were, but hadn't any to divide; and by the by, that class of persons never have any,

A man from Greenpoint was the next speaker, and in an address to the republicans of England, he, in the most vile and revolutionary language denounced the U. S. Government. Other speakers and resolutions followed of a like rabid character, the sentiments expressed being so disgraceful that a Dr. Lambert indignantly denounced those who uttered them, and said he had heard the government so frequently d-d, that he almost felt d-d for being present; the chairman hoped he would not have to preside the next Sunday. Amid the clang of twelve or fifteen Communists who were endeavoring to make themselves

The meeting lasted three hours, durfemales (not women) present rendered themselves conspicuous by gesticulating, making hideous grimaces and whispering scoffs at religion and morality.

The sentiments of the most ultra speakers, the Herald says, were loudly cheered by officers of the Workingmen's Union who were present on the occasion.

The organization of such a society in not be confined to the Metropolis, and there is good reason to believe that it will flourish there, and in other large cities, by gathering to its membership the very worst element of the diversified population of the country, who are always ripe for, and would delight in mischeif; and if there be sufficient cohesiveness among the class who will constitute the communists of America, it may not be long before their influence will be felt in still further vitiating the organization of society throughout the country.

THE British navy numbers 209 ships and vessels in commission, with 36,280 seamen, boys and marines. In 1850 the numbers were 213 ships with 33,241; in 1855, 267 ships, with 65,989; and, again 1870, there were 15,000 coast-guard men and marines serving ashore, and men in steam reserves and disposable super-
