TOFARMERS, STOCK & PORK GROWERS. I AST year I introduced into these valleys a proffic I tuberous root called the Jerusalem Artichoke, which from the product of four stalks last year, I am enabled to furnish a limited number seed sufficient to make a fair commencement. This root is exceedingly prolific and under favorable circumstances will produce one thou-and bushels to the acre, and it is readily devoured by horses, cattle, sheep, hogs, and even fowls, and makes an excellent pickle. It is perfectly hardy, standing out all winter, grows on all kinds of soil, is subject to no disease, and never fails making a
