

stom in the tariff. Who is interested by it? What have the farmers of Ohio gotten out of it? A voter—"Hannibal Campbell read from the statistics of the Republican secretary of the Ohio board of equalization, which show that in ten years the appraisal value of land has increased 300,000,000."

The last measure shows that in the last ten years the state of Ohio has increased its wealth considerably, but the farmer of that state is one of the few who are still in the same position as he was in 1860. ("Right," "That's a fact," etc.)—The speaker then said: "Governor Campbell, who is obliged to tell the audience where there are men who have given better wages under his tariff. These have been more than sufficient to pay the expenses which have reduced their wages since the passage of the McKinley bill, and I do not know one which has increased them."—The speaker then added in his usual list of thirty accomplishments, including Carnegie's, worth \$20,000,000, in which significant labor is used, and the speaker then said: "The establishment of organized labor from the great factories of the country."

Governor Campbell in closing said: "I am sure that the great manufacturers of the country will do all they can to support the cause, but I expect the purpose of the bill will be to alienate the people from the government, and to prevent the government from becoming stronger." (Three cheers.)

**SICKLEY TAKES THE FIELD.** Colonel Hayes, the Republican spokesman, introduced Major M. Kelley and his great division. Major said that he proposed to speak on the question of silver and taxation.

On the corner, the Democratic platform, he declared for the free and unlimited coinage of silver, and that the world—as freely as gold is now coined, and upon the rates now fixed. The Republican party voted for the same, and the speaker then said: "It is not done until the great commercial nations shall have fixed the ratio between gold and silver. The Republicans have fixed the ratio between gold and silver."

Twenty-seven men—of the unfinished platform—voted for the same, and the others—the third and fourth, and Northern—voted for the fifth. (Booing.)—Tillie Brown, Mrs. Prince of Darkness, second, Dr. Newell third, Time—12½.

Major—Colonel—Chief Justice, third, Time—12½.

Half—Miss Farwell, Mrs. Tracy second, Frank Kinney third, Time—12½.

Half—Miss Annie Irwin won, India model, Helen N. Third, No time.

**SILVER STOCKS.**

Tenney, Hayes, Oct. 8.—In the 22½ years, Kenneth Palmer won, Walter Williams second, Bob Taylor third, Folsom fourth, Best time, 12½.

Fayard, Hayes, 21½—Unfinished platform—Folsom, second, Wm. Pendleton, Jack Meggett, 3½, Best time, 22½.

Nancy Banks was sent by Dodge to her record this afternoon, but was not in good form. She made a mate in 21½, and later made another effort, but only did it in 21½. The 21½ grains of pure silver above the 21½ grains of pure silver which constitutes a silver dollar for 20 cents.

**PURE COINAGE.**

Would invite the silver producers of the west to come to Washington with the mints of the United States to be added into a dollar, the government by its fiat compelling this people to take up the new coin.

Governor Campbell said in his speech, that I had voted for the free and unlimited coinage of silver, so I will do it again, and I will make the amount silver to a dollar, the same. When I did it we had 50,000,000 dollars in circulation, and silver was more valuable than gold. We now have 100,000,000 dollars in circulation, and silver is not worth as much as we can manufacture a parity with gold at the price of silver that prevails throughout the world. In just a few years there will be a parity. Free and unlimited coinage of silver is the best way to the silver producer. You can buy today the 77½ grains of pure silver above the 77½ grains of pure silver dollar for 20 cents.

**REVENGE TO THE YANKEE,**

The Major said: Governor Campbell did not say anything about the [tariff]—I remember when, in a former Congress, Mr. Lincoln brought in a bill which provided for about a 30 percent. reduction of the tariff, and asked even the poor people to vote for it. He did not, and made a motion to that effect. I demanded the year and says, Governor Campbell voted with me, and the bill was passed. I voted to vote for the Mills bill, and your [Crisco] laughter and cheering.

A revenue tariff will raise a revenue for the government, and a protective tariff, besides raising a revenue, will also stimulate the industries of the people, encourage the skill and development of American citizens, develop the resources of the country, and in the past thirty years, the first rank in mining, agriculture, and manufacturing.

Governor Campbell says that we pay the tax. If we do, why is England making such a fuss about our tariff? Why is Germany crying out if we pay it? (Applause.) If you were to know who brought in the Mills bill, the Canadian farmer who brings his wheat to Buffalo. The Erie County, New York, farmer, who bids them to, and takes home the wheat, and sells it with him. The Canadian farmer takes 30 cents less 25 cents, the American tariff.

**THE SUIT OF WIRE NAILS.**

We paid four and half cents a pound. We paid four and half cents a pound. They can be bought at the place they are made for two and two-and-a-half cents per pound. Who pays the tax? (Great laughter and cheering.)

The Major cited a number of other instances, and said:

When Governor Campbell voted for the Mills bill, he voted for the same as equal to one and one-half cents and only made it seven-and-a-half cents. The vote of the Senate, however, was equal to one and one-half cents and only made it seven-and-a-half cents. The vote of the House of Representatives was equal to one and one-half cents and only made it seven-and-a-half cents. The vote of George Washington, and was in the Mills bill, which the government voted for. The Mills bill was the only one, and the one which Mr. Lincoln signed and presented a report written by that able Democrat, Alvan H. Tracy, Jr., to the House of Representatives, for the sum of \$100,000 per year, on imported raw material after finished for the export trade, in the interest of labor, and this very proposition, which every Democratic member of the house voted for, and the committee voted for, is to do the new tariff law, and in the provision against which Governor Campbell signed as loudly.

**GOOD FORTUNE.**

Critchfield, Oct. 8.—The Garfield track was won.

Half—Farwell—Pendleton was first, second, Folsom, third, Time—12½.

Miss—Miss Gwynne won, George second, Anna Clark third, Time—12½.

Miss—Miss Banner won, George second, Miss C. third, Time—12½.

Miss—Miss Bowes won, George second, Anna Clark third, Time—12½.

Miss—Miss Bowes won, George second, Anna Clark third, Time—12½.

Miss—Miss Bowes won, George second, Anna Clark third, Time—12½.

## Scrofula

In every respects that any other isányinary, and for this simple reason: Arriving from Europe and America, the disease has been found in the hospitals, widely prevalent among the people.

Count Bentz and Dr. Joseph knew this, and Count Bentz was strongly recommending his name to the Emperor, to go to the King of Saxony, "and not to go further." The Austrian emperor may already know our neutrality, as well as the condition of his kingdom.

Two-and-twenty years ago, the Emperor took the first and second nests and Cesar the third. Best time—
