Adkmson, manager of the property of the New England Gold and Copper company operating at Bing-ham, is in from camp on a brief busi-ness trip today. Edward McCarrick and E. J. Waugh expect to leave tomorrow on a trip to inyo county, California, on a mining trip. Mr. Waugh is interested in some properties there.

General Supt. Frank P. Swindler of the Helaze mining interests in this state has returned from a trip to the coast where he went to get a real and recuperate his health. He will get back in the harness again a day or two. two Ed F. Freudenthal and William Lloyd

Ed F. Freudenthal and william Lloyd of Pioche have been named by the county commissioners of Lincoln coun-ty as delegates to the American Min-ing congress which is scheduled to hold a session at Joplin, Missouri, in November,

The big mining suit of the Seven Tronghs mining district, wherein the Seven troughs is the plaintiff and the Mazuma Hills the defendant, is on in the district court today, and will prob-ably occupy the attention of the court tomorrow.-Winnemucca Silver State.

P. D. Delmas, who recently pur-hased the old Hunter and Hesson chased the old Hunter and Hesson property at Pailsade, has encountered a wonderful body of ore in the new dis-trict and is now shipping from the claims. He is also negotiating with Heinze agents for the sale of the prop-erty for more than \$200,000. The Gug-genheims also have agents at Palisade examining the Deimas property and other properties of that district, and without a doubt some big sales will be made within the next few days,-Win-nemucce Silver State.

There were some hig bunches of Uncle Sam Consolidated for sale at the open-ing of the regular session of the Salt Lake Stock & Mining exchange during the forenoon. The stock opened at \$1.47½ and was forced down 10 cents a share. The stock was readily ab-sorbed, however, and nilled on the open board, closing with the sale of 100 sharese at \$1.45. Beck Tunnel sold at \$1.60 during the regular call; but higher \$1.60 during the regular call: but higher on the open board. Crown Point re-covered some from the tremendous slump of yesterday and appeared to be in fairly good demand around 70 cents on the open board. Iron Blossom also Improved.

OPTIMISTIC ABOUT SITUATION.

A Basion correspondent of Polleck P., commenting on market words of 12., commenting on market condi-itions coday where "The shut-down policy of Amalica match seems to be the only way out of the woods in the metal situation and we believe it will have the desired effect. We also feel con-fident that we have seen the worst and any prenounced multiply from now on will be accompanied by better prices."

month. The United Metals Seiling company, the paper continues, appears to have again blundered in the policy govern-ing the sale of its copper. It has announced various prices for lake and electrolytic without any knowledge that at the reduced figures any volume of business would be creat-ed. The establishment of these figures has enabled competing producing and selling companies to undersell and to acquire what little business was offer-ing. The result is that 75 per cent of the accumulation of between 150,000,-000 and 200,000,000 pounds is either in the hands of this concern or is held. In store by the mining cimpanies for

the bands of this concern of is held. In store by the mining empanies for which it sells. The Calumet & Heela company has been faisely accused of being the dis-turbing factor which precipitated the recent collapse in prices and it has been stated that the Calumei policy has been stated that the Calumei policy has

been that of naming a concession and then looking for buildness at the re-duced price. This is absolute contrary to the facts.

duced price. This is absolute to the facts. The Calumet & Hecla was quick to detect the indications of a trade re-action, and while it may not have been the first to de business at a price un-der the high figures ruling last spring, it quickly saw the handwriting on the wall, and instead of announcing any price list, it sought by individual ne-gotiation with the copper consumers on both sides of the writer to gell us large an amount of copper as the mar-ket would take at the best price ob-tainable.

To be sure, the company has an ex-To be sure, the company has an ex-ness supply on its hands today, but it is selling copper right along and is not taking the trouble to announce to its competitors at what price or prices it is willing to do business. When the United Metals Selling company or any other competing interest announced that it would sell electrolytic, for in-stance, at 22 cents, Calumet & Hecla attacky but quietty jumped in and said that it would supply the best grade of lake at the same figure. There are important interests in the trade who state that if copper was suddarily put to 12 cents per pound, no struct volume of business would re-sult. They take the ground that it is

at volume of business would re-t. They take the ground that it is a at the source a question of price, is question pursity of the ability to have new or marging finance new construction
