

THE U. P. WILL NOT BUILD.

The Pacific Extension abandoned for the present.

PRESIDENT CLARK SO. WHITES.

He gives his reasons in a letter to Secretary Sears of the Chamber of Commerce.

There have been paper railroads almost without number and names of real ones until the mind of the public has become so confused and deadening. Amongst all the uncertainty and confusion the Chamber of Commerce recently passed resolutions asking the Union Pacific what it would do in the matter of completing its line to Pioche, reasoning that if no timely action was taken Salt Lake would soon be united to the coast by another railway. The resolutions were promptly forwarded to President S. H. H. Clark of the Union Pacific, and his reply has been awaited with an anxiety that has amounted to a painful suspense. Today came in the shape of a letter to Secretary Sears of the Chamber of Commerce. It is dated Omaha, March 7th, and reads as follows:

My Dear Sir—This is to acknowledge receipt of your letter of yesterday, addressed to the extension of the Union Pacific line to Pioche. This is in reference to the extension of the Union Pacific line to Pioche.

The resolutions were recently referred to our executive committee in New York, the writer being present, when it was decided that while our company had already expended a large sum of money in the construction of the portion of the line, and while they had upon the proposition with much favor, the company is not at present in a condition to proceed with it.

I might add, my directors fully realize the importance attributed to the final completion of the Pacific road, and the value of the commerce of Utah in the making of this Union Pacific, yet conditions, as present, are such as to make it difficult to hold it along. We desire to thank you and our friends in Salt Lake City for the kindly interest manifested in this matter, and assure you it is fully appreciated by the officers of the Union Pacific property.

This is a cause of great trouble from the non-existence of assistance from the Union Pacific in the matter of building a new road to the coast, and Salt Lake will be compelled to rely upon the roads to the west of the mountains and which would much more to the Territory. They, however, express satisfaction in knowing that the Union Pacific has been frank enough to say it will do nothing.

PROVO LETTER.

Sealed for Fortification—Icelanders Natural d.—Notes.

Special Correspondent of the News.

Provo, March 8.—Albert D. Watson was tried yesterday on the charge of committing fornication with Miss Josephine Siegell, of American Fork, who is at present confined in the Reformatory School. Miss Siegell testified that she left her home in American Fork with Watson and Ed. Hodder, dressed in male attire and riding Hodder's horse. She traveled with them to Westwater, Grand county, sometimes sleeping with one of them and sometimes with both. She acknowledges having sexual intercourse with Watson on the first night, and another year later. This was admitted to the jury without argument, and a verdict of guilty was returned. The court leniently sentenced Watson to two years in the barbican, about five months there awaiting trial.

Arrangements were made as follows: Ed. and Edith Rosenthal, charged with larceny on two counts, pleaded not guilty, and the cases were set for trial April 6th. Eugene DeMott, charged with the charge of robbing money under color of authority, was also found guilty, and was sentenced to pay \$50 which did not belong to him. The forfeiture of bonds of J. F. Jakeman was set aside, and he entered a plea of not guilty to the charge of robbing \$100 under color of authority, by depositing a printing plant he had mortgaged.

George Glisan and Virginia Chinnan, formerly citizens of Ireland, and residents of Spanish Fork, took the oaths of allegiance to Uncle Sam, and will therefore be entitled to vote. John T. Gilligan, of the same nativity and residence, did not answer the questions of the committee satisfactorily, and was denied citizenship.

Nightly black Jersey suits have been contracted for by physical culture students of the H. Y. men's army. The suits consist of shirts, pants, stockings and belts.

Charles G. Johnson and Edith R. Ash, of Pleasant Grove, have taken out their marriage license.

At yesterday's session of the county court the indictment of Joseph T. Bateson, who has been in the hands of police and court supervision of Acting Justice of the Peace, was received and accepted. Mr. Carlisle was appointed to fill the vacancy.

The report of Jules Jones being responsible, the county court decided to take the county and leading from the San Joaquin River. The land is mineral and therefore in a very bad condition.

TODAY'S NEWS—SCARF MARTIN ADMITTED—OTHER CRIMINAL PROSECUTIONS—NOTES.

Provo, March 9.—Two cases were tried in the criminal court yesterday. The first was that of John T. Martin, who was charged with committing a felony by placing obstructions on the Rio Grande Western track in Grand county, Oregon. The evidence was all circumstantial. It was shown that Martin, who had been running between the Rio Grande Western, had been charged on October 7th, by Assistant Commissioner Cummings, and a copy was handed me between the two. Being released, the case Martin tramped to Grand Junction. Three separate pairs of rocks,
